Notice of Availability of Final Environmental Assessment; Hawks Nest Hydro, LLC

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the applications for new licenses for the Hawks Nest Hydroelectric Project (FERC Project No. 2512-075) and the Glen Ferris Hydroelectric Project (FERC Project No. 14439-001) located in Fayette County, West Virginia, and has prepared a final Environmental Assessment (final EA) for the projects.

In the final EA, Commission staff analyzes the potential environmental effects of the projects, and concludes that relicensing the projects, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the final EA is on file with the Commission and is available for public inspection. The final EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary link.
