

comprehensively reforming and modernizing the universal service and intercarrier compensation systems, creating the Connect America Fund (CAF), the Connect America Mobility Fund (MF), including the Tribal Mobility Fund (TMF), and the Remote Areas Fund (RAF). To implement these reforms and conduct competitive bidding for CAF, MF, TMF, and RAF support, the Commission adopted new rules containing information collection requirements that would be used to determine whether an applicant is generally qualified to bid for universal service support. The Commission also adopted rules containing information collection requirements that would be used to determine whether an applicant is specifically qualified to bid for Phase I of the Mobility Fund and Tribal Mobility Fund.

The revised collection removes the information collection requirements that apply specifically to applicants seeking to participate in competitive bidding for Mobility Fund Phase I (MF-I) and Tribal Mobility Fund Phase I (TMF-I) support, and the associated FCC Form 180 used by entities applying to participate in the MF-I and TMF-I auctions, because support under MF-I and TMF-I has been awarded. The revised collection retains the information collection requirements that apply generally to all applicants seeking to participate in competitive bidding for universal service support. The revised collection also amends the title of the information collection to “Section 1.21001, Participation in Competitive Bidding for Support; Section 1.21002, Prohibition of Certain Communications During the Competitive Bidding Process” to reflect the revised information collection.

The Commission will use the information collected under the revised information collection to determine whether applicants are legally, technically, and financially qualified to participate in a Commission auction for universal service support. The information collection requirements retained under this collection are designed to limit the competitive bidding to qualified applicants; to deter possible abuse of the bidding process; and to enhance the use of competitive bidding to distribute Universal Service Fund (USF) support in furtherance of the public interest. Commission staff reviews the information collected as part of the pre-auction process, prior to the auction being held, and determines whether each applicant satisfies the Commission’s requirements to participate in the auction. Thus, the information is being collected to meet the objectives of the USF program.

The Commission received approval from OMB for the revised information collection requirements contained in OMB 3060–1166 on October 23, 2017.
