

OIRA posts its decisions on ICRs online at <http://www.reginfo.gov/public/do/PRAMain> after the comment period for each ICR. An OMB Notice of Action on each ICR will become available via a hyperlink in the OMB Control Number: 1625–0030.

Previous Request for Comments

This request provides a 30-day comment period required by OIRA. The Coast Guard published the 60-day Notice (82 FR 35980, August 2, 2017) required by 44 U.S.C. 3506(c)(2).

We received three comments from two commenters to the 60-day Notice. The first comment was about the language used in our Notice. The commenter stated that the 33 CFR 155.720 transfer procedure requirements apply to a vessel with a capacity of 250 barrels or more of oil or hazardous materials, rather than our Notice language of a vessel with a cargo capacity of 250 barrels or more of oil or hazardous materials (emphasis added). We agree and have revised the language in our 30-day Notice to correct the error. While the language we used in the 60-day Notice was inaccurate, our burden calculation did include vessels with a capacity of 250 barrels or more of oil or hazardous materials.

The second and third comments were about the lightering requirements in 33 CFR 156.210(b). While these comments relate to ICR 1625–0042 “Requirements for Lightering of Oil and Hazardous Material Cargoes” and not the subject of this ICR Notice, we have responded to the comments below. The second comment stated that the Coast Guard should update the Headquarters point of contact (POC) in the regulations for submitting hazardous material lightering operation requests. We agree that the POC is unclear; submissions should be made to Commandant (CG–ENG) vice Commandant (CG–5). We will revise this item in an upcoming technical amendment rulemaking. The third comment requested that the Coast Guard update the regulation that they consider outdated. We will consider updating this requirement in a future rulemaking. The comments result in no changes to the Collection.

Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection’s purpose, the Collection’s likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) the practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. In response to your comments, we may revise this ICR or decide not to seek an extension of approval for the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request [USCG–2017–0955], and must be received by January 2, 2018.
