SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–81997; File No. SR–NASDAQ–2017–116]

Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to an Incentive to the Market Access and Routing Subsidy Program

November 2, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on October 31, 2017, The Nasdaq Stock Market LLC (“Nasdaq” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to

solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Exchange's pricing at Chapter XV, Section 2 entitled “Nasdaq Options Market—Fees and Rebates,” which governs pricing for Nasdaq Participants using The Nasdaq Options Market LLC (“NOM”), Nasdaq's facility for executing and routing standardized equity and index options. The Exchange proposes to amend an incentive offered today related to its subsidy program, the Market Access and Routing Subsidy or “MARS.”

While changes to the Pricing Schedule pursuant to this proposal are effective upon filing, the Exchange has designated these changes to be operative on November 1, 2017.

The text of the proposed rule change is available on the Exchange's Web site at <http://nasdaq.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**1. Purpose**

NOM proposes to amend the Exchange's pricing at Chapter XV, Section 2 entitled “Nasdaq Options Market—Fees and Rebates.” Specifically, the Exchange proposes to amend an incentive in note “d” offered to NOM Participants that qualify for any MARS Payment Tier in Chapter XV, Section 2(6) related to the MARS subsidy program. MARS pays a subsidy to NOM Participants that provide certain order routing functionalities to

other NOM Participants and/or use such functionalities themselves.³

Background on MARS

Today, to qualify for MARS, a NOM Participant's routing system (hereinafter “System”) is required to meet certain criteria.⁴

MARS Payments are made to NOM Participants that have System Eligibility and have routed the requisite number of Eligible Contracts daily in a month (“Average Daily Volume”), which were executed on NOM.⁵ Today, NOM Participants that have System Eligibility and have executed the requisite number of Eligible Contracts in a month will be paid the following rebates:⁶

³ Generally, under MARS, the Exchange pays participating NOM Participants to subsidize their costs of providing routing services to route orders to NOM. The Exchange believes that the proposed amendment to MARS will continue to attract higher volumes of electronic equity and ETF options volume to the Exchange from non-NOM Participants as well as NOM Participants. The order routing functionalities permit NOM Participants to provide access and connectivity to other Participants as well as utilize such access for themselves. The Exchange notes that one NOM Participant is eligible for payments under MARS, while another NOM Participant might potentially be liable for transaction charges associated with the execution of the order, because those orders were delivered to the Exchange through a NOM Participant's connection to the Exchange and that Participant qualified for the MARS Payment.

⁴ Specifically the Participant's System is required to: (1) Enable the electronic routing of orders to all of the U.S. options exchanges, including NOM; (2) provide current consolidated market data from the U.S. options exchanges; and (3) be capable of interfacing with NOM's API to access current NOM match engine functionality. The NOM Participant's System would also need to cause NOM to be one of the top three default destination exchanges for (a) individually executed marketable orders if NOM is at the national best bid or offer (“NBBO”), regardless of size or time, (b) orders that establish a new NBBO on NOM's Order Book, but allow any user to manually override NOM as the default destination on an order-by-order basis. Any NOM Participant is permitted to avail itself of this arrangement, provided that its order routing functionality incorporates the features described herein and the Participant satisfies NOM that it appears to be robust and reliable. Participants remain solely responsible for implementing and operating its System.

⁵ For the purpose of qualifying for the MARS Payment, Eligible Contracts may include Firm, Non-NOM Market Maker, Broker-Dealer, or Joint Back Office or “JBO” equity option orders that add liquidity and are electronically delivered and executed. Eligible Contracts do not include Mini Option orders.

⁶ The specified MARS Payments are paid on all executed Eligible Contracts that add liquidity, which are routed to NOM through a participating NOM Participant's System and meet the requisite Eligible Contracts ADV. No payments are made with respect to orders that are routed to NOM, but not executed. Also, a Participant is not entitled to receive any other revenue from the Exchange for the use of its System specifically with respect to orders routed to NOM. Specifically, the specified MARS Payments are paid on all executed Eligible Contracts that add liquidity, which are routed to NOM through a participating NOM Participant's
