

the public interest would be adversely affected.

Applicant asserts that there are no significant fixed charges associated with the contemplated transaction. Applicant also states that it does not anticipate a measurable reduction in force or changes in compensation levels or benefits to employees. Applicant submits, however, that staffing redundancies could result in limited downsizing of back-office or managerial level personnel.

The Board finds that the acquisition proposed in the application is consistent with the public interest and should be tentatively approved and authorized. If any opposing comments are timely filed, these findings will be deemed vacated, and, unless a final decision can be made on the record as developed, a procedural schedule will be adopted to reconsider the application. See 49 CFR 1182.6(c). If no opposing comments are filed by the expiration of the comment period, this notice will take effect automatically and will be the final Board action.

### Fiscal Year 2017 Positive Train Control Grant Program Project Selections

**AGENCY:** Federal Transit Administration (FTA), Federal Railroad Administration (FRA), DOT.

**ACTION:** Notice.

**SUMMARY:** The U.S. Department of Transportation's (DOT) Federal Transit Administration (FTA) and Federal Railroad Administration (FRA) announce the selection of projects for the Fiscal Year (FY) 2017 Positive Train Control (PTC) Grant Program. A total of \$197.01 million in the PTC grant funding, authorized under the Fixing America's Surface Transportation (FAST) Act, will be provided to 17 projects in 13 states. On July 29, 2016, FTA and FRA published a Notice of Funding Opportunity (NOFO) announcing the availability of Federal funding for the PTC Grant Program. These funds will provide financial assistance to states, local governments, and public agencies for the implementation of positive train control systems to improve safety. Funds allocated in this announcement must be obligated in a grant by September 30, 2018.

**FOR FURTHER INFORMATION CONTACT:** Recipients selected for competitive funding in Table 1 should contact the appropriate FTA Regional Office for information regarding applying for the funds or program-specific information. A list of FTA's Regional Offices can be found at [www.fta.dot.gov](http://www.fta.dot.gov). For questions regarding PTC technology or statutory and regulatory requirements, please contact Mr. Devin Rouse, Program Manager, Federal Railroad Administration (phone: (202) 493-6185, email: [devin.rouse@dot.gov](mailto:devin.rouse@dot.gov)). A TDD is available at 1-800-877-8339 (TDD/FIRS).

**SUPPLEMENTARY INFORMATION:** In response to the NOFO, FTA and FRA received 27 proposals from 16 states requesting \$455 million in Federal funds, indicating significant demand for funding to expedite the implementation

of PTC systems. Project proposals were evaluated based on each applicant's responses to the program evaluation criteria outlined in the NOFO.

FTA is funding the 17 projects shown in Table 1 for a total of \$197.01 million. Recipients selected for competitive funding should work with their FTA Regional Office to submit a grant application in FTA's transit award management system (TrAMS) for the projects identified in the attached table to quickly obligate funds. As funds must be obligated by September 30, 2018, all grant applications must be submitted to FTA by June 30, 2018. Grant applications must include the eligible activities applied for in the original project application. Funds must be used consistent with the competitive proposal and for the eligible capital purposes established in the NOFO.

In cases where the award amount is less than the proposer's total requested amount, recipients must submit grant applications to fund the scalable project option as described in the project's application. If the award amount does not correspond to the scalable option, for example due to a cap on the award amount, the recipient should work with the FTA Regional Office to reduce scope or scale the project so that a complete phase or project is accomplished. Recipients are reminded that program requirements such as cost sharing or local match can be found in the NOFO. A discretionary project identification number has been assigned to each project for tracking purposes and must be used in the TrAMS application.

On October 16, 2008, Congress enacted the Railroad Safety Improvement Act of 2008 (RSIA), which required Class 1 railroad main lines and commuter railroad passenger service to fully implement positive train control by December 31, 2015. In the Positive Train Control Enforcement and Implementation Act of 2015, Congress extended the deadline for implementing positive train control to December 31, 2018. FTA will streamline the grant application process to help commuter railroads meet the approaching deadline. FTA is providing pre-award authority and will reimburse eligible project costs on successful projects consistent with the selected project proposals. The eligibility for reimbursement using pre-award authority is contingent upon the project meeting other Federal requirements, such as environmental requirements, prior to costs being incurred. FTA is not applying its regulation, 49 CFR part 633 Project Management Oversight to this program. Furthermore, FTA waives the requirement that projects be listed in the
