

sustained, in part, and remanded, in part, the *Amended Final Determination*.⁶ First, the CIT remanded the *Amended Final Determination* for the Department to make the necessary factual findings to support its determinations, based upon AFA, to countervail the unreported government subsidies discovered during the investigation.⁷ The CIT further held that should the Department continue to find those government subsidies countervailable on remand, the Department must then explain how it selected the AFA rates for those subsidies.⁸ Second, the CIT granted the Department's request for a voluntary remand to reconsider its determination not to initiate creditworthiness investigations for Trina Solar and the other mandatory company respondent, Wuxi Suntech Power Co., Ltd. (Suntech).

In accordance with the CIT's remand order, the Department reconsidered these issues and submitted its Final Remand Results with the CIT on April 28, 2017.⁹ In the Final Remand Results, the Department continued to countervail all but one of the unreported programs using AFA. The Department also revised its determination regarding whether to initiate creditworthiness investigations for Trina Solar and Suntech, in part, and ultimately found Trina Solar and Suntech to be uncreditworthy in certain years. As a result of these changes, on remand, the Department determined revised countervailable subsidy rates of 39.50 percent for Trina Solar, 27.65 percent for Suntech, and 33.58 percent for all other producers/exporters of solar products from the PRC.¹⁰ On September 8, 2017, the CIT sustained the Department's Final Remand Results in full.¹¹

Court of Appeals for the Federal Circuit held that, pursuant to section 516A(e) of the Act, the Department must publish a notice of a court decision that is not "in harmony" with a Department determination and must suspend liquidation of entries pending a "conclusive" court decision. The CIT's September 8, 2017, judgment sustaining the Final Remand Results constitutes a final decision of the CIT that is not in harmony with the Department's *Amended Final Determination*. This notice is published in fulfillment of the publication requirement of *Timken*.

Amended Final Determination

As there is now a final court decision with respect to the *Amended Final Determination*, the Department amends its *Amended Final Determination*. The Department finds that the revised net countervailable subsidy rates exist:

Company	Subsidy rate (<i>ad valorem</i>) (%)
Changzhou Trina Solar Energy Co., Ltd	33.50
Wuxi Suntech Power Co., Ltd	27.65
All Others	33.58

Cash Deposit Requirements

Because there has been a subsequent administrative review for Trina Solar, the cash deposit rate for Trina Solar will remain the rate established in the final results of the administrative review of solar products from the PRC covering the period June 10, 2014, through December 31, 2015, which is 13.93 percent.¹⁴ As there have been no subsequent administrative reviews for Suntech, the Department will instruct U.S. Customs and Border Protection (CBP) to set the cash deposit rate for Suntech as listed above.

Finally, the Department will instruct CBP that the all-others cash deposit rate is to be amended to reflect the simple average of the revised subsidy rates calculated for Trina Solar and for Suntech, as listed above.

This notice is issued and published in accordance with sections 516(e), 705(c)(1)(B), and 777(i)(1) of the Act.
