Agenda

The Committee will review Framework Adjustment 57/ Specifications and Management Measures, review the draft alternatives under consideration, the Groundfish Plan Development Team's (PDT) impact analysis, and make recommendations on preferred alternatives to the Council. They will also discuss Amendment 23/ Groundfish Monitoring and review an updated draft outline prepared by the PDT of the likely range of alternatives and make recommendations to the Council. The committee will also hold a discussion of possible groundfish priorities for 2018 and make recommendations to the Council. They also plan to discuss several recent Executive Orders that have been issued about streamlining current regulations, and NOAA is seeking public input on the efficiency and effectiveness of current regulations and whether they can be improved. Discuss whether there are any regulations in the Northeast Multispecies fishery management plan that could be eliminated, improved, or streamlined. The committee will also review Groundfish Advisory Panel and Recreational Advisory Panel recommendations and make recommendations to the council. Other business will be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

SUPPLEMENTARY INFORMATION:

Agenda

The Scallop Advisory Panel will review Framework 29 (FW 29) alternatives and analyses, and make final recommendations. FW 29 will set specifications including acceptable biological catch/annual catch limit (ABC/ACLs), Days at Sea (DAS), access area allocations for Limited Access (LA) and Limited Access General Category (LAGC), Total Allowable Catch (TAC) for Northern Gulf of Maine (NGOM) management area, target-TAC for LAGC

incidental catch and set-asides for the observer and research programs for fishing year 2018 and default specifications for fishing year 2019. Make final recommendations for potential FW 29 specifications that includes areas that may open through Omnibus Habitat Amendment 2 (OHA2). The Advisory Panel will also review FW 29 management measures and make final recommendations. These measures may include, but are not limited to: (1) NGOM management measures; (2) Flatfish accountability measures for Northern windowpane flounder, Georges Bank yellowtail flounder, and Southern New England yellowtail flounder; (3) Measures to modify and/or create access area and open area boundaries, consistent with potential changes to habitat and groundfish closed areas; (4) measures to allocate unused CAI carryover pounds under certain scenarios of OHA2 approval. Other business may be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
