Because the Department is rescinding this administrative review in its entirety, the entries to which this administrative review pertains shall be assessed antidumping duties that are equal to the cash deposits of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions to CBP within 15 days after the publication of this notice in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

Background

On June 26, 2000, and August 10, 2000, the Department published the AD orders on large diameter pipe from Japan and small diameter pipe from Japan and Romania, respectively.¹ On September 1, 2016, the Department published the notice of initiation of the third sunset review of the antidumping duty orders on large diameter pipe from Japan and small diameter pipe from Japan and Romania pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² On December 16, 2016, the USITC instituted its review of the orders.³

As a result of its review, the Department determined that revocation of the antidumping duty orders on large diameter pipe from Japan and small diameter pipe from Japan and Romania would likely lead to continuation or recurrence of dumping and, therefore, notified the USITC of the magnitude of the margins of dumping likely to prevail should the orders be revoked.⁴

On October 16, 2017, the USITC published its determination, pursuant to section 751(c)(1) of the Act, that revocation of the antidumping duty orders on large diameter pipe from Japan and small diameter pipe from Japan and Romania would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On September 8, 2017, the United States Court of International Trade (CIT) entered final judgment sustaining the Department of Commerce's (the Department's) final results of remand redetermination pertaining to the countervailing duty

(CVD) investigation of certain crystalline silicon photovoltaic products (solar products) from the People's Republic of China (PRC). The Department is notifying the public that the CIT's final judgment in this case is not in harmony with the Department's final determination, as amended, in the CVD investigation of solar products from the PRC.

DATES: Applicable September 18, 2017.

SUPPLEMENTARY INFORMATION:

Background

On December 23, 2014, the Department published its final determination in the CVD investigation of solar products from the PRC.¹ On February 18, 2015, the Department published an amended final determination and CVD order.² In the *Final Determination*, the Department found that certain unreported assistance discovered during the investigation was countervailable using adverse facts available (AFA) pursuant to section 776 of the Tariff Act of 1930, as amended (the Act).³ Additionally, the Department determined not to initiate investigations into the mandatory respondents' creditworthiness in certain years, finding that SolarWorld Americas, Inc.'s (SolarWorld) creditworthiness allegation failed to satisfy the threshold initiation requirements of 19 CFR 351.505(a)(6)(i).⁴ In the *Amended Final Determination*, the Department found that it made a ministerial error in countervailing one of the unreported programs, and removed that program from the net countervailable subsidy rate calculated for Changzhou Trina Solar Energy Co., Ltd. (Trina Solar).⁵

Trina Solar and SolarWorld appealed the *Amended Final Determination* to the CIT, and on December 30, 2016, the CIT
