

collaborative, and actionable communications between the Access Board and its customers and stakeholders.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that

address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results from such quantitatively-inclined information collections are likely to have, such collections might still be

eligible for submission under another type of other generic clearance.

Respondents/Affected Public: Individuals and Households; Businesses and Organizations; State, Local or Tribal Government.

Burden Estimates: In the table below (Table 1), the Access Board provides estimates for the annual reporting burden under this proposed information collection. (The Access Board does not anticipate incurring any capital or other direct costs associated with this information collection. Nor will there be any costs to respondents, other than their time.)

TABLE 1—ESTIMATED ANNUAL BURDEN HOURS

Type of collection	Number of respondents	Frequency of response (per year)	Average response time (mins.)	Total burden (hours)
Customer feedback survey: Training/Webinar	1,200	1	6	120
Customer feedback survey: Technical Assistance	2,700	1	3	135
Customer feedback survey: Compliance & Enforcement	40	1	4	3
Totals	3,940	n/a	n/a	258

(Note: Total burden hours per collection rounded to the nearest full hour.)

Request for Comment: The Access Board seeks comment on any aspect of the proposed renewal of our existing generic clearance for the collection of qualitative feedback on agency service delivery, including (a) whether the proposed collection of information is necessary for the Access Board’s performance; (b) the accuracy of the estimated burden; (c) ways for the Access Board to enhance the quality, utility, and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

Executive Director.
