INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-588 and 731-TA-1392-1393 (Preliminary)]

Polytetrafluoroethylene ("PTFE") Resin From China and India

Determinations

On the basis of the record¹ developed in the subject investigations, the United

States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of PTFE resin from China and India, provided for in statistical reporting numbers 3904.61.0010 and 3904.61.0090 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value ("LTFV") and by reason of imports of PTFE resin from India that are alleged to be subsidized by the government of India.

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce ("Commerce") of affirmative preliminary determinations in the investigations under sections 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under sections 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On September 28, 2017, The Chemours Company FC LLC, Wilmington, Delaware, filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV and subsidized imports of PTFE resin from India and LTFV imports of PTFE resin from China. Accordingly, effective September 28, 2017, the Commission, pursuant to sections 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)), instituted countervailing duty investigation No.

701-TA-588 and antidumping duty investigation Nos. 731-TA-1392 and 1393 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of October 4, 2017 (82 FR 46284). The conference was held in Washington, DC, on October 19, 2017, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to sections 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on November 13, 2017. The views of the Commission are contained in USITC Publication 4741 (November 2017), entitled *Polytetrafluoroethylene ("PTFE") Resin from China and India: Investigation Nos. 701-TA-588 and 731-TA-1392-1393 (Preliminary)*.
