SUMMARY: Due to an adverse comment, the Environmental Protection Agency (EPA) is withdrawing the direct final rule for “Approval of Implementation Plans; State of Iowa; Elements of the Infrastructure SIP Requirements for the 2012 Annual Fine Particulate Matter (PM_{2.5}) National Ambient Air Quality Standard (NAAQS)” published in the *Federal Register* on September 29, 2017. Infrastructure SIPs address the applicable requirements of Clean Air Act (CAA) section 110, which requires that each state adopt and submit a SIP for the implementation, maintenance, and enforcement of each new or revised NAAQS promulgated by the EPA. These SIPs are commonly referred to as “infrastructure” SIPs. The infrastructure requirements are designed to ensure that the structural components of each state’s air quality management program are adequate to meet the state’s responsibilities under the CAA.

DATES: The direct final rule published at 82 FR 45479, September 29, 2017, is withdrawn effective November 20, 2017.

In the direct final rule published on September 29, 2017, (82 FR 45479), we stated that if we received adverse comment by October 30, 2017, the rule would be withdrawn and not take effect. SUMMARY: The Legal Services Corporation (LSC) is correcting a final rule that appeared in the *Federal Register* on August 10, 2017. The document also contained an incorrect cross-reference to another section. This document corrects the final rule by revising that cross-reference.
