Foreign Operations, and Related Programs Appropriations Act, 2017, the Millennium Challenge Corporation (MCC) is publishing a summary of the Millennium Challenge Compact between the United States of America, acting through MCC, and the Republic of Côte d’Ivoire. **Summary of the Côte d’Ivoire Compact**

*Overview of MCC Côte d’Ivoire Compact*

MCC has signed a five-year, \$524,740,000 compact with the Government of Côte d’Ivoire that is aimed at reducing poverty and accelerating economic growth. The compact seeks to address two binding constraints to economic growth in Côte d’Ivoire: (i) Low levels of basic, technical, and vocational skills; and (ii) barriers to moving goods and people, especially in Abidjan. The compact will address these constraints through two projects designed to support the diversification of the Ivorian economy in its drive for emergence: (i) the Skills for Employability and Productivity Project (“Skills Project”); and (ii) the Abidjan Transport Project.

*Background and Context*

After passing only five MCC policy indicators in fiscal year 2012, Côte d’Ivoire began a systematic effort to improve its policy performance in order to qualify for MCC funding. As a result of those efforts, Côte d’Ivoire has consistently passed the MCC scorecard since FY 2015, and in FY 2017 the country passed 14 indicators. In FY 2015, MCC’s Board of Directors selected Côte d’Ivoire for a threshold program and in FY 2016, based on continued policy improvement, for development of a compact proposal. The compact is seen in Côte d’Ivoire as the fruit of a long journey of sustained engagement with MCC and is poised to become a central pillar of the country’s relationship with the United States.

Côte d’Ivoire is located in the coastal zone of West Africa and has a population of 22.7 million people, 41.5 percent of whom are under the age of 14, and a gross national income per capita of \$1,420. With five major ethnic groups, a sizeable immigrant population making up a quarter of the population, and more than 60 local languages
