

use exemptions process; and grazing guidelines.

The Forest Service coordinated with the Sage Grouse Task Force and the BLM to identify the preliminary issues with current plan direction. The Forest Service intends to continue to work as a cooperating agency with the BLM in their planning process. This notice and the potential planning effort do not preclude the Forest Service from addressing issues through other means, including policy, training, or administrative changes, nor does it commit the Forest Service to amending some, all, or none of the greater sage-grouse plans.

If the Forest Service amends land management plans, we hereby give notice that substantive requirements of the 2012 Planning Rule (36 CFR 219) likely to be directly related, and therefore applicable, to the amendments are in sections 219.8(b) (social and economic sustainability), 219.9 (diversity of plant and animal communities), and 219.10(a)(1) (integrated resource management).

In addition to requesting comment on the topics identified in this notice, the Forest Service requests input on whether, if it undertakes plan amendments, the planning effort should occur on a regional, state-by-state, or forest-by-forest basis. In particular, the Forest Service looks forward to receiving the comments of the governors of each affected State.

Lead and Cooperating Agencies

If any further analysis and associated decision documents are completed, the Forest Service will be the lead agency, but will invite the BLM to act as a cooperating agency. The Forest Service will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed action, are invited to participate in the scoping process and, if eligible, may request or be asked by the Forest Service to participate in the development of the environmental analysis as a cooperating agency.

The public is encouraged to help identify any issues, management questions, or concerns that should be addressed in plan amendment(s) or policy or administrative action. The Forest Service will work collaboratively with interested parties to identify the management direction that is best suited to local, regional, and national needs and concerns. The Forest Service will use an interdisciplinary approach as it

considers the variety of resource issues and concerns.

SUPPLEMENTARY INFORMATION:

Title: Financial Information Security Request Form.

OMB Number: 0596-0204.

Expiration Date of Approval: 02/28/18.

Type of Request: Extension without Revision.

Abstract: The majority of the Forest Service's financial records are in databases stored at the National Finance Center (NFC). The Forest Service uses employees and contractors to maintain these financial records. The employees

and contractors must have access to NFC to perform their duties.

The Forest Service uses an electronic form FS-6500-214, Financial Information Security Request Form, to apply to NFC for access for a specific employee or contractor. Due to program management decisions and budget constraints, it has been determined that contractors will need to complete and submit the form.

The contractor and the Forest Service systems provide the information necessary to complete form FS-6500-214. The contractor verifies completion of two courses within the last year: Privacy Act Basics and IT (Information Technology) Security. The contractor then enters their short name assigned by the Forest Service. Using the short name, the screen is populated with information that the contractor can change if incorrect. The information includes: Name, work email, work telephone number, and job title. The contractor checks the box for a non-federal employee and provides the expiration date of the contract. The contractor then selects the databases and actions needed. Based on the database(s) selected, the contractor provides additional information regarding the financial systems, work location, access scope, etc. Once the form is submitted to the client security officer, a one-page agreement automatically prints, which the contractor and client security officer sign. The agreement is a certification statement that acknowledges the contractor's recognition of the sensitive nature of the information and agrees to use the information only for authorized purposes. The information collected is shared with those managing or overseeing the financial systems used by the Forest Service, this includes auditors.

Estimate of Annual Burden: 10 minutes.

Type of Respondents: Contracted employees.

Estimated Annual Number of Respondents: 9,549.

Estimated Annual Number of Responses per Respondent: 3.

Estimated Total Annual Burden on Respondents: 4,774 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance

the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the request for Office of Management and Budget approval.

Dated: November 3, 2017.
