Background: The Commission instituted this investigation following receipt of a request from the USTR dated October 23, 2017. The request asked the Commission to provide a report on U.S. trade and investment with sub-Saharan Africa (SSA). It asked that the Commission's report focus primarily on the years 2010-2016, to the extent information is available, but examine longer-term trends since 2000 where appropriate. The request also asked that, to the extent practical, the report provide the most recent 2017 data on U.S. trade flows of goods with SSA and include the following:

1. An overview of the U.S. exports of goods and services to SSA, which should, to the extent information is available:

a. Identify the sectors in which U.S. exports of goods and services to SSA have increased the most, in both value and percentage terms, and indicate the key factors behind this growth.

b. Identify the countries to which U.S. exports of goods and services to SSA have increased the most, in both value and percentage terms, and indicate the key factors behind this growth.

c. Based on a review of available quantitative and qualitative information, identify non-crude petroleum sectors and SSA markets that present the greatest potential for U.S. exports of goods and services and for U.S. foreign direct investment (FDI). Also, identify significant factors impacting U.S. exports and FDI in these sectors, as well as principal third-country suppliers and investors in these sectors and SSA markets.

d. Provide a brief description of the exports of goods and services from U.S. small and medium-sized enterprises (SMEs) to SSA and describe the challenges that U.S. SMEs face when exporting to SSA.

2. An overview of U.S. imports of goods and services from SSA, which should, to the extent information is available:

a. Identify sectors in which SSA exports of goods and services to the United States have increased the most, in both value and percentage terms, and indicate the key factors behind this growth. Data on goods should include both AGOA and non-AGOAs imports.

b. Identify the SSA countries from which imports of goods and services to the United States have increased the most, in both value and percentage terms, and indicate the key factors behind this growth. Data on goods should include both AGOA and non-AGOAs imports.

c. Based on a review of available quantitative and qualitative information, identify non-crude petroleum sectors and SSA markets that present the greatest potential to increase exports of goods under AGOA to the United States. Identify sectors and SSA markets that present the greatest potential to increase services exports and FDI, and indicate significant factors impacting SSA companies achieving such exports and FDI.

3. Provide profiles of the markets in Cameroon, Cote d'Ivoire, Ethiopia, Kenya, Mauritius, Nigeria, and South Africa that include information on macroeconomic indicators, goods and services trade, and FDI flows in those countries.

4. Provide a summary of recent developments of regional integration efforts in SSA, including progress on the negotiation of Continental Free Trade Agreement.

5. Briefly summarize the AGOA strategies that have been developed by SSA countries.
