

with interim recommendations on conditions for authorization of service providers (MSC.1/Circ.1277). The USCG released the Navigation and Vessel Inspection Circular (NVIC) 04-07 "Servicing and Maintenance of lifeboats, launching appliances and on-load release gear" to provide guidance to US flag vessels subject to SOLAS. Subsequently, the Contracting Governments to SOLAS agreed to adopt mandatory requirements for servicing and service providers through IMO Resolution MSC.402(96), implemented by amendments to SOLAS Chapter III by Resolution MSC.404(96).

These SOLAS amendments enter into force on January 1, 2020. After that date, we expect that U.S. flag vessels subject to SOLAS could be subject to detention in foreign ports if their lifeboat service records do not comply with SOLAS Chapter III as amended.

The key substantive requirements are:

- That maintenance, thorough examination, operational testing, overhaul and repair on board its ships is conducted in accordance with relevant regulations in SOLAS Chapter III.
- Administrations (*i.e.* USCG) shall ensure that the thorough examination, operational testing, repair and overhaul of equipment shall be carried out in accordance with SOLAS regulation III/20 by authorizing service providers.
- That personnel carrying out maintenance, thorough examination, operational testing overhaul and repair as described above shall be certified by an authorized service provider.

SUPPLEMENTARY INFORMATION: The Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93–288, as amended, is the legal basis for FEMA to provide financial assistance and services to individuals who apply for disaster assistance benefits in the event of a federally-declared disaster. 44 CFR 206.110 implements the policy and procedures set forth in section 408 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5174, as amended by the Disaster Mitigation Act of 2000. This program provides financial assistance and, if necessary, direct assistance to eligible individuals and households who, as a direct result of a major disaster or emergency, have uninsured or under-insured necessary expenses and serious needs and are unable to meet such expenses or needs through other means. Individuals and households that apply for this assistance must provide information detailing their losses and need.

FEMA requires the ability to collect information regarding the housing needs of survivors in shelters to provide services and assistance to transition them out of shelters and into temporary housing solutions as quickly as possible. Survivor-specific data collected in the shelters would be compared to survivor registration data to determine:

- Has the survivor in the shelter registered for FEMA assistance?
- If registered, what is the status of the survivor's registration? Do they have resources such as Transitional

Sheltering Assistance (TSA) eligibility or financial rental assistance, available to them?

- If registered and not eligible for FEMA assistance, is there casework that could be performed to find eligibility?

- If not registered, information would be provided to the Joint Field Office (JFO) to have a registration strike team travel to the shelter and register the survivor.

Aggregated reports resulting from the individualized data collection will support JFO planning activities for shelter depopulation to ensure that survivors are transitioned as quickly as possible to housing solutions that best meet their need.
