II. Discussion

On October 17, 2017 (82 FR 48283), the NRC requested public comment on the draft regulatory analysis, "Draft Regulatory Analysis for Final Rule: Low-Level Radioactive Waste Disposal." The purpose of the draft regulatory analysis is to support development of the new supplemental proposed rule as directed by the Commission in the staff requirements memorandum to SECY-16-0106 (ADAMS Accession No. ML17251B147), dated September 8, 2017. The NRC staff is seeking comment on how to improve the approach/methodology and actual cost data currently used in the draft final rule regulatory analysis (ADAMS Accession No. ML16189A050) to provide more accurate cost and benefit data in the final regulatory analysis.

The NRC received several requests from public stakeholders to extend the comment period for the draft regulatory analysis. Public stakeholders noted in their requests that more time is needed to allow for the gathering of actual cost data. The comment period is being reopened and now closes on December 18, 2017.

Dated at Rockville, Maryland, this 17th day of November, 2017.

For the Nuclear Regulatory Commission.
Patricia Holahan,
Director, Division of Rulemaking, Office of Nuclear Material Safety and Safeguards.

[Docket No. R-1569]

RIN 7100-AE82

Large Financial Institution Rating System; Regulations K and LL

AGENCY: Board of Governors of the Federal Reserve System (Board).

ACTION: Notice of proposed rulemaking; extension of comment period.

SUMMARY: On August 17, 2017, the Board published in the *Federal Register* a proposed new rating system for its supervision of large financial institutions. To facilitate effective public comment on the proposal, the Board previously extended the comment period from October 16, 2017, to November 30, 2017. The Board has determined that a further extension of the comment period until February 15, 2018, is appropriate. This action will allow interested persons additional time to analyze the proposal and prepare their comments.

DATES: Comments on the proposed rule published August 17, 2017, 82 FR 39049, are extended and must be received on or before February 15, 2018.

ADDRESSES: You may submit comments by any of the methods identified in the proposal. Please submit your comments using only one method.

FOR FURTHER INFORMATION CONTACT:

Richard Naylor, Associate Director, (202) 728-5854, Vaishali Sack, Manager, (202) 452-5221, April Snyder, Manager, (202) 452-3099, Bill Charwat, Senior Project Manager, (202) 452-3006, Division of Supervision and Regulation, Scott Tkacz, Senior Counsel, (202) 452-2744, or Christopher Callanan, Senior Attorney, (202) 452-3594, Legal Division, Board of Governors of the Federal Reserve System, 20th and C Streets NW., Washington, DC 20551. SUPPLEMENTARY INFORMATION: On August 17, 2017, the Board published in the *Federal Register* a proposed new rating system for its supervision of large

financial institutions.¹ The proposed “Large Financial Institution Rating System” is closely aligned with the Federal Reserve’s new supervisory program for large financial institutions. The proposed rating system would apply to all bank holding companies with total consolidated assets of \$50 billion or more; all non-insurance, non-commercial savings and loan holding companies with total consolidated assets of \$50 billion or more; and U.S. intermediate holding companies of foreign banking organizations established pursuant to the Federal Reserve’s Regulation YY. The proposed rating system includes a new rating scale under which component ratings would be assigned for capital planning and positions, liquidity risk management and positions, and governance and controls. The Federal Reserve proposes to assign initial ratings under the new rating system during 2018. The Federal Reserve is also seeking comment on proposed revisions to existing provisions in Regulations K and LL so they would remain consistent with certain features of the proposed rating system.

The proposal stated that the public comment period would close on October 16, 2017, which the Board previously extended to November 30, 2017.²

An additional extension of the comment period will provide an opportunity for the public to comment on the ratings framework and related supervisory expectations as a whole. Therefore, the Board is extending the end of the comment period for the proposal from November 30, 2017, to February 15, 2018.

By order of the Board of Governors of the Federal Reserve System, acting through the Secretary of the Board under delegated authority, November 17, 2017.

Ann E. Misback,

Secretary of the Board.

Recognition of Pilot in Command Experience in the Military and in Part 121 Air Carrier Operations

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice of proposed rulemaking (NPRM) would allow pilots who obtained pilot in command (PIC) experience prior to July 31, 2013, in certain air carrier operations, to count that time towards the 1,000 hours of air carrier experience required to serve as a PIC in air carrier operations today. This would correct an inadvertent omission in the *Pilot Certification and Qualification Requirements for Air Carrier Operations* final rule that established the air carrier experience requirement. It would also broaden the existing 500-hour credit military pilots of fixed-wing airplanes can use towards the 1,000 hours of air carrier experience by permitting pilots of select powered-lift aircraft operations to receive credit. This NPRM would also allow credit for select military time in a powered-lift aircraft flown in horizontal flight towards the 250 hours of airplane time as PIC, or second in command (SIC) performing the duties of PIC, required for an airline transport pilot (ATP) certificate.
