

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. As discussed above, the proposed change simply aligns the eligible order size for the Floor Broker guarantee with that of another exchange with a trading floor. As such, the proposed change will allow the Exchange to compete with other options exchanges currently offering a reduced eligible order size with regard to the Floor Broker guarantee.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

[Release No. 34-82111; File No. SR-MIAX-2017-47]

Self-Regulatory Organizations; Miami International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend MIA X Options Rule 612, Aggregate Risk Manager ("ARM")

November 17, 2017.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 14, 2017, Miami International Securities Exchange, LLC

⁸ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

("MIA X Options" or "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend Exchange Rule 612, Aggregate Risk Manager ("ARM").

The text of the proposed rule change is available on the Exchange's Web site at <http://www.miaxoptions.com/rule-filings>, at MIA X's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Exchange Rule 612, Aggregate Risk Manager ("ARM"), subsection (b)(1) Aggregate Risk Manager, and Interpretations and Policies .01, to make non-substantive technical changes to add additional detail to the rule text, all existing Exchange functionality discussed in this proposal will remain intact.

Exchange Rule 612(b)(1) provides that the System³ will engage the Aggregate Risk Manager in a particular option class when the counting program has determined that a Market Maker⁴ has traded during the specified time period

³ The term "System" means the automated trading system used by the Exchange for the trading of securities. See Exchange Rule 100.

⁴ The term "Market Makers" refers to "Lead Market Makers", "Primary Lead Market Makers" and "Registered Market Makers" collectively. See Exchange Rule 100.

a number of contracts equal to or above their Allowable Engagement Percentage.⁵ Further, the rule provides that the Aggregate Risk Manager will then automatically remove the Market Maker's quotations from the Exchange's disseminated quotation in all series of that particular option class until the Market Maker sends a notification to the System of the intent to reengage quoting and submits a new revised quotation.⁶

The Exchange proposes to amend the second sentence of the rule to provide that, "[t]he Aggregate Risk Manager will then automatically remove the Market Maker's Standard quotations and Day eQuotes from the Exchange's disseminated quotation" Exchange Rule 100 provides that, "the term 'quote' or 'quotation' means a bid or offer entered by a Market Maker that is firm and may update the Market Maker's previous quote, if any. The Rules of the Exchange provide for the use of different types of quotes, including Standard quotes and eQuotes, as more fully described in Rule 517."⁷ The Exchange believes that adding additional detail to the current rule text to identify which specific types of quotes are being removed adds clarity and precision to the rule text.

The Exchange also proposes to amend Interpretations and Policies .01 to add additional detail and specificity to the rule text. Currently, the rule provides that, "[t]he System does not include contracts traded through the use of an eQuote that is not a Day eQuote in the counting program for purposes of this Rule. eQuotes will remain in the System available for trading when the Aggregate Risk Manager is engaged." The Exchange proposes to amend the second sentence such that it reads, "eQuotes, other than Day eQuotes, will remain in the System available for trading and may continue to be submitted to the Exchange when the Aggregate Risk Manager is engaged." The Exchange believes that this proposed change more clearly articulates that eQuotes both (i) remain in the System, and (ii) may continue to be submitted to the System to facilitate trading, while the Aggregate Risk Manager is engaged. The Exchange believes the proposed changes add additional detail and clarity in describing existing Exchange functionality.

2. Statutory Basis

The Exchange believes that its proposed rule change is consistent with

Section 6(b) of the Act⁸ in general, and furthers the objectives of Section 6(b)(5) of the Act⁹ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in, securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes the proposed changes promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system because they provide additional detail and clarity concerning how Day eQuotes and eQuotes are handled when the Aggregate Risk Manager is engaged. Clarifying that eQuotes remain in the System available for trading and may continue to be submitted to the Exchange while the Aggregate Risk Manager is engaged benefits Members and investors by providing increased transparency of Exchange functionality. The Exchange notes that the proposed changes are non-substantive and do not affect current Exchange functionality in any way.

The Exchange believes the proposed changes promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system because they seek to improve the accuracy of the Exchange's rules. In particular, the Exchange believes that including additional detail describing existing Exchange functionality in the Exchange's rules will provide greater clarity to Members¹⁰ and the public regarding the Exchange's Rules, and it is in the public interest for rules to be accurate and concise so as to eliminate the potential for confusion.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The

proposed rule changes are not designed to address any competitive issues but rather are designed to add additional clarity and detail to the Exchange's rules.

The Exchange does not believe that the proposed rule changes will impose any burden on inter-market competition as the Rules apply equally to all Exchange Members.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to 19(b)(3)(A) of the Act¹¹ and Rule 19b-4(f)(6)¹² thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
