

A notice of consideration of issuance of amendment to facility operating license or COL, as applicable, proposed no significant hazards consideration determination, and opportunity for a hearing in connection with these actions, was published in the **Federal Register** on July 18, 2017 (82 FR 32884). No comments were received during the 30-day comment period.

The Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments.

IV. Conclusion

Using the reasons set forth in the combined safety evaluation, the staff granted the exemption and issued the amendment that the licensee requested on May 5, 2017.

The exemption and amendment were issued on October 20, 2017, as part of a combined package to the licensee (ADAMS Accession No. ML17270A181).

Dated at Rockville, Maryland, this 20th day of November, 2017.

For the Nuclear Regulatory Commission.

B. Submitting Comments

Please include Docket ID NRC-2017-0222 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

In accordance with 10 CFR 110.70(b), the NRC is noticing the receipt of import and export license amendment applications submitted by AREVA Inc. on August 9, 2017, and August 24, 2017, for the import and export of radioactive waste from Germany to the State of Washington, and the return of certain wastes to Germany. This request comes as the result of a company reorganization and name change, detailed in a 2014 letter submitted by AREVA Inc. (ML14129A013). AREVA Inc. has submitted these amendment requests to: (1) Address the company name change, (2) update the licensee

point of contact, and (3) extend the expiration dates of these two licenses.

The current import license—IW009 Amendment No. 2 (ML103010568)—authorizes the import of Class A radioactive waste contaminants on combustible materials from Advanced Nuclear Fuels GmbH in Germany to Richland, Washington. In Washington, the materials will be incinerated and processed to recover uranium. The associated export license—XW015 (ML101760056)—authorizes the export of Class A radioactive waste contaminants on non-combustible material to the Advanced Nuclear Fuels GmbH facility in Germany.

The NRC is opening the opportunity for public comment and opening the opportunity to file a request for a

hearing or petition for leave to intervene with respect to these proposed amendments for 30 days after publication of this notice in the **Federal Register**. Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner upon the applicant; the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555; the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555; and the Executive Secretary, U.S. Department of State, Washington, DC 20520. Hearing requests and intervention petitions must include the information specified in 10 CFR 110.82(b).

A request for a hearing or petition for leave to intervene may be filed with the

NRC electronically in accordance with NRC's E-Filing rule promulgated in August 2007 (72 FR 49139; August 28, 2007). Information about filing electronically is available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. To ensure timely electronic filing, at least 5 days prior to the filing deadline, the petitioner/requestor should contact the Office of the Secretary by email at hearingdocket@nrc.gov, or by calling 301-415-1677, to request a digital ID certificate and allow for the creation of an electronic docket.

The information concerning these applications for import and export license amendment follows.
