

display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1240-0046. The current approval is scheduled to expire on January 31, 2018; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notices published in the **Federal Register** on April 6, 2017 (82 FR 16858) and August 3, 2017 (82 FR 36159).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1240-0046. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL-OWCP.

Title of Collection: Federal Employees' Compensation Act Medical Reports and Compensation Claims.

OMB Control Number: 1240-0046.

Affected Public: Individuals or Households.

Total Estimated Number of Respondents: 282,353.

Total Estimated Number of Responses: 282,353.

Total Estimated Annual Time Burden: 25,605 hours.

Total Estimated Annual Other Costs Burden: \$110,118.

Authority: 44 U.S.C. 3507(a)(1)(D).

Dated: November 14, 2017.

Michel Smyth,

Departmental Clearance Officer.

BILLING CODE 4510-CH-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219-0148]

Proposed Extension of Information Collection; Proximity Detection Systems for Continuous Mining Machines in Underground Coal Mines

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to assure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Proximity Detection Systems for Continuous Mining Machines in Underground Coal Mines.

DATES: All comments must be received on or before January 23, 2018.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number MSHA-2017-0033.

- *Regular Mail:* Send comments to USDOL-MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202-5452.

- *Hand Delivery:* USDOL-Mine Safety and Health Administration, 201 12th Street South, Suite 4E401, Arlington, VA 22202-5452. Sign in at the receptionist's desk on the 4th floor via the East elevator.

FOR FURTHER INFORMATION CONTACT: Sheila McConnell, Director, Office of

Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); (202) 693-9440 (voice); or (202) 693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. Section 813(h), authorizes MSHA to collect information necessary to carry out its duties in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor (Secretary) to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal or other mines.

On January 15, 2015, MSHA published a final rule that requires underground coal mine operators to equip continuous mining machines, except full-face continuous mining machines, with proximity detection systems (80 FR 2188). Miners working near continuous mining machines face pinning, crushing, and striking hazards that result in accidents involving life-threatening injuries and death.

Proximity detection is a technology that uses electronic sensors to detect the motion or the location of one object relative to another. Proximity detection systems provide a warning and stop mining machines before a pinning, crushing, or striking accident occurs that could result in injury or death to a miner. The information collections contained in this final rule were approved under the Paperwork Reduction Act of 1995 (PRA).

Title 30 CFR 75.1732(d)(1) requires at the completion of the check of the machine-mounted components of the proximity detection system under section 75.1732(c)(1), a certified person under section 75.100 must certify by initials, date, and time that the check was conducted. Defects found as a result of the check, including corrective actions and dates of corrective actions, must be recorded.

Section 75.1732(d)(2) requires the operator to make a record of the defects found as a result of the checks of miner-wearable components required under section 75.1732(c)(2), including corrective actions and dates of corrective actions.

Section 75.1732(d)(3) requires the operator to make a record of the persons trained in the installation and maintenance of proximity detection systems under section 75.1732(b)(6).

Section 75.1732(d)(4) requires the records to be maintained in a secure book or electronically in a secure computer system not susceptible to alteration.

Section 75.1732(d)(5) requires records to be retained for a period of at least one year and that they be made available for inspection by authorized representatives of the Secretary and representatives of miners.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Proximity Detection Systems for Continuous Mining Machines in Underground Coal Mines. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at USDOL-Mine Safety and Health Administration, 201 12th South, Suite 4E401, Arlington, VA 22202-5452. Sign in at the receptionist's desk on the 4th floor via the East elevator.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Proximity Detection Systems for Continuous Mining Machines in

Underground Coal Mines. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219-0148.

Affected Public: Business or other for-profit.

Number of Respondents: 209.

Frequency: On occasion.

Number of Responses: 291,137.

Annual Burden Hours: 828 hours.

Annual Respondent or Recordkeeper Cost: \$0.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Sheila McConnell,

Certifying Officer.

BILLING CODE 4510-43-P

OFFICE OF MANAGEMENT AND BUDGET

Designation of Databases for Treasury's Working System Under the Do Not Pay Initiative

AGENCY: Office of Management and Budget.

ACTION: Notice of designation.

SUMMARY: Section 5(b)(1)(B) of the Improper Payments Elimination and Recovery Improvement Act of 2012 (IPERIA) provides that the Director of the Office of Management and Budget (OMB), in consultation with agencies, may designate additional databases for inclusion under the Do Not Pay (DNP) Initiative. IPERIA further requires OMB to provide public notice and an opportunity for comment prior to designating additional databases. In fulfillment of this requirement, on September 13, 2017, OMB published a Notice of Proposed Designation (82 FR 43041) for six additional databases. OMB did not receive any comments during the 30-day comment period for this notice. Effective immediately OMB designates the following six databases: (1) The Department of the Treasury's (Treasury) Office of Foreign Assets Control's Specially Designated Nationals List (OFAC List), (2) data from the General Services Administration's

(GSA) System for Award Management (SAM) sensitive financial data from entity registration records (including those records formerly housed in the legacy Excluded Parties List System), (3) the Internal Revenue Service's (IRS) Automatic Revocation of Exemption List (ARL), (4) the IRS's Exempt Organizations Select Check (EO Select Check), (5) the IRS's e-Postcard database, and (6) the commercial database American InfoSource (AIS) Deceased Data for inclusion in the Do Not Pay Initiative.

FOR FURTHER INFORMATION CONTACT: Brian Nichols at the OMB Office of Federal Financial Management at 202-395-3993.

Mark Reger,

Deputy Controller.

BILLING CODE 3110-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 52-025 and 52-026; NRC-2008-0252]

Southern Nuclear Operating Company, Inc., Vogtle Electric Generating Plant, Units 3 and 4; Fire Protection System Piping That Must Remain Functional Following a Safe Shutdown Earthquake

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption and combined license amendment; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is granting an exemption to allow a departure from the certification information of Tier 1 of the generic design control document (DCD) and is issuing License Amendment Nos. 92 and 91 to Combined Licenses (COL), NPF-91 and NPF-92, respectively. The COLs were issued to Southern Nuclear Operating Company, Inc., and Georgia Power Company, Oglethorpe Power Corporation, MEAG Power SPVM, LLC, MEAG Power SPVJ, LLC, MEAG Power SPVP, LLC, Authority of Georgia, and the City of Dalton, Georgia (the licensee); for construction and operation of the Vogtle Electric Generating Plant (VEGP) Units 3 and 4, located in Burke County, Georgia.

The granting of the exemption allows the changes to Tier 1 information asked for in the amendment. Because the acceptability of the exemption was determined in part by the acceptability of the amendment, the exemption and amendment are being issued concurrently.
