

applications (RFA) for the Retirement and Disability Research Consortium (RDRC) during FY18. The RDRC will consolidate the current RRC and DRC into a single program with a scope equivalent to the two current programs. These programs support “centers” at universities and other private research institutions. The centers organize experts from around the country to produce research on Social Security programs and related topics. Both programs consist of five-year agreements and both five-year cycles are set to end in FY 2018. RFAs for the current programs are archived at https://www.ssa.gov/oag/grants/ssagrant_archive.htm. This anticipated single program will address issues related to the SSI and RSDI programs.

We intend to award five-year cooperative agreements to research centers of high merit that provide a comprehensive research program addressing issues in Social Security, retirement, and disability policy. This realignment in the research program will benefit the agency by increasing administrative efficiency and coordination. It may also provide greater flexibility for research centers; we will consider applications from research centers that provide both retirement and disability research as well as from smaller, specialized research centers (e.g., a center focused on issues relevant to the SSI program).

For the anticipated RFA, the Grants Management Official (GMO) will use the policies in 2 CFR 200 in conjunction with the policies and procedures for solicitation, evaluation, and award prescribed in the Social Security Administration’s internal Grants Administration Manual. The project period for all cooperative agreements awarded will cover the timeframe of September 2018 through September 2023. Section 1110 of the Social Security Act authorizes the agency to conduct research through cooperative agreements. We will make awards using a competitive review and approval process subject to open and free competition.

The following is an estimated timeline of actions associated with this program:

Action	Date*
1. Release of RFA package.	On or about February 2018.
2. Notice of Intent Due Date (Optional).	On or about April 2018.
3. Application Due Date ..	On or about May 2018.
4. Anticipated Award(s) ..	On or about September 2018.

*Dates may change based upon administrative approval.

The GMO will publish the agency’s RFA, along with any amendments, and relevant questions and answers, electronically through the government-wide point of entry at www.grants.gov. Interested parties can sign up for notifications of funding opportunities at: <https://www.grants.gov/web/grants/manage-subscriptions.html>.

We are soliciting public comments to permit the Department to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Department.
- Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

The Department proposes requesting the following information, if not already included in an application, from a subset of visa applicants worldwide, in order to more rigorously evaluate such applicants for terrorism, national security-related, or other visa ineligibilities:

- Travel history during the last fifteen years, including source of funding for travel;
- Address history during the last fifteen years;
- Employment history during the last fifteen years;
- All passport numbers and country of issuance held by the applicant;
- Names and dates of birth for all siblings;
- Name and dates of birth for all children;

- Names and dates of birth for all current and former spouses, or civil or domestic partners;
- Social media platforms and identifiers, also known as handles, used during the last five years; and
- Phone numbers and email addresses used during the last five years.

Regarding travel history, applicants may be requested to provide details of their international or domestic (within their country of nationality) travel, if it appears to the consular officer that the applicant has been in an area while the area was under the operational control of a terrorist organization as defined in section 212(a)(3)(B)(vi) of the Immigration and Nationality Act, 8 U.S.C. 1182(a)(3)(B)(vi). Applicants may be asked to recount or explain the details of their travel, and when possible, provide supporting documentation.

This information collection continues implementation of the directive of the President, in the *Memorandum for the Secretary of State, the Attorney General, the Secretary of Homeland Security* of March 6, 2017, to implement additional protocols and procedures focused on “ensur[ing] the proper collection of all information necessary to rigorously evaluate all grounds of inadmissibility or deportability, or grounds for the denial of other immigration benefits.” In substance, this proposed collection is the same as the collection that was requested through the emergency procedures in May 2017. The emergency approval limited the collection to a temporary six month approval, and these materials seek to extend that approval for three years. Consular posts worldwide regularly engage with U.S. law enforcement and partners in the U.S. intelligence community to identify characteristics of applicant populations warranting increased scrutiny. The additional information collected will facilitate consular officer efforts to apply more rigorous evaluation of these applicants for visa ineligibilities. In accordance with existing authorities, visas may not be denied on the basis of race, religion, ethnicity, national origin, political views, gender, or sexual orientation.

Based upon the data since this collection began implementation in May 2017, the Department estimates that 70,500 applicants annually will be requested to respond to this collection. The Department bases this estimate on the fact that consular officers worldwide asked an approximately 25,000 applicants questions contained in this information collection between May 2017 and October 2, 2017.

Failure to provide requested information will not necessarily result in visa denial, if the consular officer determines the applicant has provided a credible explanation why he or she cannot answer a question or provide requested supporting documentation, such that the consular officer is able to conclude that the applicant has provided adequate information to determine the applicant’s eligibility to receive the visa. The collection of social media platforms and identifiers will not be used to deny visas based on applicants’ race, religion, ethnicity, national origin, political views, gender, or sexual orientation.

Methodology

Department of State consular officers at visa-adjudicating posts worldwide will ask the proposed additional questions to resolve questions about an applicant’s identity or to vet for terrorism, national security-related, or other visa ineligibilities when the consular officer determines that the circumstances of a visa applicant, a review of a visa application, or responses in a visa interview indicate a need for greater scrutiny. The additional questions may be sent electronically to the applicant or be presented orally or in writing at the time of the interview. Consular officers will be mindful that, unlike some other forms of personal information required from visa applicants, social media identifiers may afford the user anonymity. Posts will assess their respective operating environments and collect the social media identifier information from applicants in a manner that best safeguards its transmission from applicant to post. In furtherance of this collection, consular officers are directed not to request user passwords; engage or interact with individual visa applicants on or through social media when conducting assessments of visa eligibility; not to violate or attempt to violate individual privacy settings or controls; and not to use social media or assess an individual’s social media presence beyond established Department guidance. Consular staff are also directed in connection with this collection to take particular care to avoid collection of third-party information when conducting any social media reviews.

Edward Ramotowski,

Deputy Assistant Secretary, Bureau of Consular Affairs, Department of State.
