

1. GUPS submission (electronic): The Census Bureau uses several formats to collect information and updates for statistical boundaries during the internal review, delineation, and verification phases. The Census Bureau collects updated contact information from participants who choose to

participate in the program online, by email, and by telephone. The Census Bureau-provided software, GUPS, is the only method of response for state and local governments. However, tribal participants reviewing TBGs, TCTs, or CDPs may elect to use GUPS or Census Bureau provided paper map products to

review and edit tribal statistical geographies.

2. Paper map submission: Participants reviewing ANVSAs, OTSAs, OTSA tribal subdivisions, TDSAs, or SDTSAs are provided Census Bureau paper map products to review and edit tribal statistical areas.

2020 CENSUS PSAP SCHEDULE

Date	Event
March–May 2018 .....	Contact 2010 Census PSAP participants to inquire about 2020 Census PSAP participation.
July 2018 .....	PSAP invitation materials sent to PSAP participants.
January 2019 .....	PSAP delineation phase begins. Participants have 120 calendar days to submit updates.
February 2019 .....	PSAP Webinar trainings begin.
July 2019 .....	Send PSAP participants communication notifying closeout of delineation phase.
January 2020 .....	PSAP verification phase begins. Participants have 90 calendar days to review updates.

*Affected Public:* All federally or state recognized American Indian tribes and Alaska Natives in the United States, states, counties, local governments, and planning agencies.

*Frequency:* PSAP occurs once per decade in order to support the Decennial Census, the American Community Survey, and other Census Bureau programs and surveys.

*Respondent's Obligation:* Voluntary.

*Legal Authority:* Title 13 U.S.C. Section 6.

This information collection request may be viewed at [www.reginfo.gov](http://www.reginfo.gov). Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [OIRA\\_Submission@omb.eop.gov](mailto:OIRA_Submission@omb.eop.gov) or fax to (202) 395–5806.

**DEPARTMENT OF COMMERCE**

**Foreign-Trade Zones Board**

[B–73–2017]

**Foreign-Trade Zone (FTZ) 39—Dallas/Fort Worth, Texas; Notification of Proposed Production Activity; Dallas Airmotive, Inc (Aircraft Engine Disassembly), DFW Airport, Texas**

Dallas Airmotive, Inc (DAI) submitted a notification of proposed production activity to the FTZ Board for its facility in DFW Airport, Texas. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR

400.22) was received on November 20, 2017.

The DAI facility is located within Site 1 of FTZ 39. The facility is used for the disassembly of aircraft engines. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt DAI from customs duty payments on the foreign-status components used in export production. On its domestic sales, for the foreign-status materials/components noted below, DAI would be able to choose the duty rates during customs entry procedures that apply to: AC generators; accumulators; linear actuators; valve and gear adapters; airflow control regulators; aluminum tubes and pipe fittings; fuel control arms; attenuators; autostart kits; auxiliary power units; rubber gearshaft baffles; mounting ball assemblies; aluminum ball floats; exhaust duct bands; roller bearing assemblies; ball bearings; roller bearings; cylindrical roller bearings; spherical roller bearings; bellcranks; metal bellows; turbofan and rotorcraft fan blades; insulation blankets; metal blocks for turbofans; nickel and steel bolts; container and engine brackets; fabric braids; plastic bumpers; plastic and metal bushing; bypass ducts; electric cables; steel cables; bearing cages; cam propeller controller engines; plastic and aluminum fuel caps; carbon face seal assemblies; oil seal carriers; turbofan and rotorcraft cases; turbofan chambers; chip detectors; signaling sensor chips; steel circlips; circuit breakers; steel clamps; clevis rod ends; sprag clutches; turbofan coils; turbofan pump collars; turbine module

combusters; temperature compensators; turbine stator compressors; electrical conduits; turbofan cones; plug and field connectors; electrical contacts; universal torque, bleed valve and starting controls; ceramic fiber cords; steel cotter pins; turbofan and rotorcraft counter weights; magnesium and steel couplings; turbofan and rotorcraft covers; silicon and rubber cushions; torquemeter cylinders; steel vibration dampers; data collections units; paper, aluminum and steel decals; pump and gear deflectors; bagged, 8-unit dessicants; turbofan, valve and gear diaphragms; turbofan discs; steel dowels; dynamostarters; ejector pumps; tank assemblies; magnesium gear elbows; electronic engine controls; plastic envelopes; exciters; fairings; steel ferrules; filler caps; water and fuel filters; aluminum flanges; valve and automatic fuel controls; fuel pumps; fuel shut off cables; fuel/oil heat exchangers; oil tank gauges; silicone, rubber, paper, stone, asbestos, steel, copper, nickel, turbofan, valve and two-layer gaskets; gear; gearshafts; glow plugs; pin-valve guides; harness clips; heat shields; non-metallic hoses; turbofan, pump, gearbox and check valve housings; turbofan pump impellers; mechanical, humidity, oil level and electrical indicators; injectors; inner compressor modules; steel and nickel inserts; seal retaining plate insulation; thermocouple insulators; ITT indicators; ITT probes; steel keys; air pressure valves; rubber O-ring kits; fuel pump and filter seals parts kits; electrical leads; negative lead thermocouples; turbofan and overspeed control levers; turbofan and bleed valve liners; steel lock tabs; stainless steel locking nuts; logbooks; measurement interfaces; metering plugs; pushrod modification kits; heated P3 line modification kits; monitors; rubber,

shipping container and vibration mounts; steel nipples; turbo and rotorcraft nozzles; steel, nickel and titanium nuts; oil coolers; turbofan orifices; overspeed governors; overtorque limiters; aluminum packing; turbofan pad assemblies; turbofan panels; oil filter replacement parts kits; filter parts kits; fuel filter replacement parts kits; steel, copper, nickel and aluminum pins; turbofan pipes; turbofan valve pistons; plastic, glass, steel, identification, pump, gear and thermocouple plates; shipping, metal, electrical, chip and collector plugs; plungers; potentiometers; power section modules; pressure transmitters; propeller governor controls; oil and fuel pumps; turbofan quadrants; steel turbofan receptacles; reducing unions; reduction gear boxes; oil level indicator reflectors; regulators; variable and fixed resistors; retainer turbofans; plastic, rubber, steel and nickel turbofan rings; steel, nickel and aluminum tubular rivets; plain bearing rod ends; steel, nickel, turbofan, pump and valve rods; roller bearings; turbo and rotorcraft rotors; turbine helicopter engines; pulse pick-up runners; scavenge pumps; oil scoops; turbofan pump and valve screens; steel, nickel and aluminum screws; silicon, rubber, textile, nickel, turbofan, valve, mechanical, oil and electrical motor seals; turbofan and valve seats; oil, rotational speed and option sensors; air-oil separators; turbofan and rotorcraft shafts; fuel nozzle sheaths; electrical connector shells; shield assemblies; aluminum, turbofan and rotorcraft shims; shipping container skid base assemblies; plastic, steel, turbofan, rotorcraft, valve, gear and insulated sleeves; slider blocks; steel snap rings; turbofan and rotorcraft spacers; speed sensors and probes; steel spindles; spinners; steel springs; starter generators; power turbine stators; bleed check valve stoppers; oil strainers; plastic and steel straps; felt and fiberglass strips; steel and nickel studs; sump accessory gearboxes; rotorcraft and turbofan supports; shock absorber suspenders; switch assemblies; swivel joint casings; tape with a width less than 20cm; insulating, electrical and rubber tape; steel and aluminum tees; temperature sensors; plastic plate templates; terminal assemblies; terminal boards; terminal lugs; thermal couplings; immersion and T6 thermocouples; tie rods; torque transducers; bearing tracks; train idlers; transducers; transformer liners; transmitters; turbofan traps; steel trunnions; plastic, steel and aluminum tubes; turbine stator assemblies; turbofan engines; turboshaft gas turbine

A/C engine; vacuum capsules; pressure reducing, hydraulic, safety, solenoid and regulator valves; turbo and rotorcraft vanes; silicone, fabric, steel locking, steel, copper, nickel and aluminum washers; wheels; nickel wire; steel wire rope; wiring harnesses; wrapper assemblies; and, yokes (duty rate ranges from duty-free to 49.5¢/kg + 7.5%). DAI would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components and materials sourced from abroad include: Turbojet aircraft engines; and, turbopropeller engines (duty rate ranges from duty-free to 2.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 8, 2018.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

For further information, contact Elizabeth Whiteman at [Elizabeth.Whiteman@trade.gov](mailto:Elizabeth.Whiteman@trade.gov) or (202) 482-0473.

Dated: November 21, 2017.

**Andrew McGilvray,**  
*Executive Secretary.*

## DEPARTMENT OF COMMERCE

### Foreign-Trade Zones Board [S-185-2017]

#### Foreign-Trade Zone 144—Brunswick, Georgia; Application for Subzone Orgill, Inc. Tifton, Georgia

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Brunswick and Glynn County Development Authority, grantee of FTZ 144, requesting subzone status for the facility of Orgill, Inc. (Orgill), located in Tifton, Georgia. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally docketed on November 22, 2017.

The proposed subzone (50 acres) is located at 260 Jordan Road, Tifton, Georgia (Tift County). The proposed subzone would be subject to the existing activation limit of FTZ 144. No authorization for production activity has been requested at this time.

In accordance with the Board's regulations, Qahira El-Amin of the FTZ Staff is designated examiner to review the application and make recommendations to the Executive Secretary.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 8, 2018. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to January 22, 2018.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

For further information, contact Qahira El-Amin at [Qahira.El-Amin@trade.gov](mailto:Qahira.El-Amin@trade.gov) or (202) 482-5928.

Dated: November 22, 2017.

## DEPARTMENT OF COMMERCE

### Foreign-Trade Zones Board [B-48-2017]

#### Foreign-Trade Zone (FTZ) 230—Piedmont Triad Area, North Carolina; Authorization of Production Activity Klausner Home Furnishings (Upholstered Furniture) Asheboro and Candor, North Carolina

On July 24, 2017, Klausner Home Furnishings submitted a notification of proposed production activity to the FTZ Board for its facility within Subzone 230D, in Asheboro and Candor, North Carolina.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (82 FR 37191-37192, August 9, 2017). On November 21, 2017, the applicant was notified of the FTZ
