

about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human

environment. This rule involves a safety zone lasting only during inbound transit and cargo operations of the M/V SWAN. It is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. A Record of Environmental Consideration supporting this determination is available in the docket where indicated under **ADDRESSES**.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

Needs and Uses: On April 28, 2017, the Commission released the *Business Data Services Order*, WC Docket No. 16-143 et al., FCC 17-43, reforming the business data services/special access regulations for incumbent and competitive LECs. The Commission's

reforms included replacing the application-based pricing flexibility rules with a new framework under which: (a) Packet-based services, time division multiplexing (TDM) services with bandwidth greater than 45 mbps, and TDM transport services are not subject to ex ante pricing regulation; (b) a new standard is applied to determine the extent to which the Commission regulates price cap LECs' TDM end user channel terminations with bandwidth less than 45 mbps and certain other low bandwidth business data services. Under this standard, a price cap LEC is not subject to ex ante pricing regulation in the provision of these services in counties deemed competitive under the Commission's competitive market test or for which the price cap LEC previously obtained Phase II pricing flexibility; (c) the price cap LEC is subject to ex ante pricing regulation in other counties where it is the incumbent LEC, but in these counties the price cap LEC has downward pricing flexibility (*i.e.*, the equivalent of Phase I pricing flexibility under the prior rules); and (d) the Commission will update the competitive market test results every three years using data already collected in FCC Form 477.

Among other rules changes, the *Business Data Services Order* repealed § 1.774, which set forth requirements for pricing flexibility applications, and added § 1.776, which limits the circumstances under which price cap LECs must file their business data services contracts as contract-based tariffs. The Commission also amended § 69.701 of its rules to specify that its pricing flexibility rules no longer apply to business data services.
