Information Collection Request Title: Health Professions Student Loan (HPSL) Program and Nursing Student Loan (NSL) Program Administrative Requirements (Regulations and Policy). OMB No. 0915-0047—Revision.

Abstract: The Health Professions Student Loan (HPSL) Program, as authorized by Public Health Service (PHS) Act sections 721-722 and 725-735, provides long-term, low-interest loans to students attending schools of medicine, osteopathic medicine, dentistry, veterinary medicine, optometry, podiatric medicine, and pharmacy. The Nursing Student Loan (NSL) Program, as authorized by PHS Act sections 835-842, provides long-term, low-interest loans to students who attend eligible schools of nursing in programs leading to a diploma, an associate degree, a baccalaureate degree, or graduate degree in nursing. It also contains a number of recordkeeping and reporting requirements for academic institutions and loan applicants. The applicable regulations for these programs under 42 CFR part 57 implement and detail the various statutory requirements (see chart below).

In an effort to consolidate information collection requests and achieve greater programmatic efficiency, HRSA is incorporating the Deferment-HRSA Form 519 and AOR-HRSA Form 501 (OMB No. 0915-0044) into this information collection request. As a result, the OMB No. 0915-0044 package will be discontinued.

Need and Proposed Use of the Information: Participating HPSL and NSL schools are responsible for determining eligibility of applicants, making loans, and collecting monies owed by borrowers on their outstanding loans. The Deferment Form (Deferment-HRSA Form 519), formerly incorporated under OMB No. 0915-0044, provides the schools with documentation of a

borrower's deferment status, as detailed for the HPSL program under 42 CFR part 57.210 and for NSL under 42 CFR part 57.310. The Annual Operating Report (AOR-HRSA Form 501), formerly incorporated under OMB No. 0915-0044, provides the Department of Health and Human Services (HHS) with information from participating schools (including schools that are no longer disbursing loans but are required to report and maintain program records, student records, and repayment records until all student loans are repaid in full and all monies due to the Federal Government are returned) relating to HPSL and NSL program operations and financial activities. Moreover, the HPSL and NSL program requirements are essential for assuring that borrowers are aware of their rights and responsibilities, academic institutions have accurate records of the history and status of each loan account in order to pursue aggressive collection efforts to reduce default rates, and that academic institutions maintain adequate records for audit and assessment purposes to help HHS safeguard federal funds made through the Federal Capital Contribution (FCC). Academic institutions are free to use improved information technology to manage the information required by the regulations.

Likely Respondents: Financial Aid Directors working at institutions participating in the HPSL and/or NSL Programs.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the tables below.
