

the Commission issued a *Notice of Intent to Prepare an Environmental Impact Statement for the Planned Midcontinent Supply Header Interstate Pipeline Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Sessions*. On March 22, 2017, the Commission issued a *Supplemental Notice* to seek comments on additional facilities identified by Midship Pipeline as part of the MIDSHP Project. The notices were sent to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; affected property owners; other interested parties; and local libraries and newspapers. Major issues raised include the potential for induced seismicity; possible alternative routes; and potential impacts on agricultural lands, cattle grazing, threatened and endangered species, surface water and groundwater resources, air quality and noise, and safety. The U.S. Environmental Protection Agency is a cooperating agency in the preparation of the EIS.
