[Docket No. CP17–458–000]

Midship Pipeline Company, LLC; Notice of Schedule for Environmental Review of the Midcontinent Supply Header Interstate Pipeline Project

On May 31, 2017, Midship Pipeline Company, LLC (Midship Pipeline) filed an application with the Federal Energy Regulatory Commission (FERC or Commission) in Docket No. CP17–458–000 requesting a Certificate of Public Convenience and Necessity pursuant to section 7(c) of the Natural Gas Act (NGA) and part 157 of the Commission's regulations to construct, own, operate, and maintain a new 233.6-mile-long natural gas pipeline system and associated facilities in Oklahoma. The proposed project, known as the Midcontinent Supply Header Interstate Pipeline Project (MIDSHIP Project), would provide 1,440 million standard cubic feet per day of natural gas transportation capacity from the Anadarko Basin in Oklahoma to existing natural gas pipelines near Bennington, Oklahoma, for transport to growing Gulf Coast and Southeast markets.

FERC issued its Notice of Application for the MIDSHIP Project on June 14, 2017. Among other things, the notice alerted other agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on the request for a federal authorization within 90 days of the date of issuance of the Commission staff's final environmental impact statement (EIS) for the MIDSHIP Project. This notice identifies the FERC staff's planned schedule for completion of the final EIS for the MIDSHIP Project, which is based on an issuance of the draft EIS in February 2018.

Schedule for Environmental Review

Issuance of Notice of Availability of the final EIS: June 21, 2018.

90-day Federal Authorization Decision Deadline: September 19, 2018.

If a schedule change becomes necessary, an additional notice will be provided so that the relevant agencies are kept informed of the MIDSHIP Project's progress.

Background

On November 9, 2016, the Commission staff granted Midship Pipeline's request to use FERC's pre-filing environmental review process and assigned the MIDSHIP Project Docket No. PF17–3–000. On January 27, 2017,
