

the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

All filings must (1) bear in all capital letters the title PROTEST, MOTION TO INTERVENE, COMMENTS, REPLY COMMENTS, RECOMMENDATIONS, PRELIMINARY TERMS AND CONDITIONS, or PRELIMINARY FISHWAY PRESCRIPTIONS; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

o. Procedural Schedule:

The application will be processed according to the following revised Hydro Licensing Schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Filing of recommendations, preliminary terms and conditions, and preliminary fishway prescriptions.	December 2017.
Commission issues Draft Environmental Statement (EIS).	July 2018.
Comments on Draft EIS	September 2018.
Modified Terms and Conditions.	November 2018.
Commission Issues Final EIS	February 2019.

p. Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of this notice.

q. A license applicant must file no later than 60 days following the date of issuance of the notice of acceptance and ready for environmental analysis provided for in 5.22: (1) A copy of the water quality certification; (2) a copy of the request for certification, including proof of the date on which the certifying agency received the request; or (3) evidence of waiver of water quality certification.

Dated: November 30, 2017.

Pacific Connector Gas Pipeline, LP; Notice of Correction to eLibrary System

On September 21, 2017, Pacific Connector Gas Pipeline, LP (Pacific Connector) filed in Docket No. CP17-494-000 an application to construct and operate a new interstate pipeline. On September 29, 2017, Commission staff filed a memo to the public record in this proceeding, explaining that the public files for the application were not viewable or accessible when users of the Commission's eLibrary system queried through the General or Advanced Search options.¹ However, the public files for the application would appear in the results if users queried through the Daily Search or Docket Search options.² The memo provided a link to the public files in the proceeding.³

The Commission has resolved the issues with the eLibrary system as it relates to the public files for the application. The public files now appear using the General Search and Advanced Search options of eLibrary with the same Filed Date as the application. For technical reasons, certain files from the September 21 application were placed separately, and as new entries (with new accession numbers), into eLibrary to allow the General and Advanced Search options to properly return the files in search results; however, this is the exact same filing made by Pacific Connector on September 21, 2017. We are working to resolve similar eLibrary

¹ There are five options for searching files on eLibrary: General Search, Advanced Search, New Docket Search, Docket Search, and Daily Search. There is a hyperlink for each search option on the left side of the eLibrary page.

² The Daily Search and Docket Search options continue to properly display the public files for the application.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-R09-OW-2017-0478; FRL-9969-70-Region 9]

Notice of Availability of Proposed National Pollutant Discharge Elimination System (NPDES) General Permit for Low Threat Discharges in Navajo Nation and NPDES General Permit for Bulk Fuel Storage Facilities in Guam.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Availability of Proposed NPDES General Permits.

SUMMARY: EPA Region 9 is proposing to issue a general NPDES permit for discharges from facilities with discharges classified as low threat located in the Navajo Nation (Permit No. NNG990001) and a general NPDES permit for discharges from bulk fuel storage facilities located in Guam (Permit No. GUG000001). These are new proposed permits which will be issued upon completion of the notice and comment period and after due consideration has been given to all comments received.

Use of a general permit in the two categories and locations described above allows EPA and dischargers to allocate resources in a more efficient manner, obtain timely permit coverage, and avoid issuing resource intensive individual permits to each facility, while simultaneously providing greater certainty and efficiency to the regulated community while ensuring consistent permit conditions for comparable facilities.

⁴ The list of privileged files for the application can be found here: https://elibrary.ferc.gov/idmws/File_list.asp?document_id=14604356.

This notice announces the availability of the proposed general permits and the corresponding fact sheets for public comment which can be found on Region 9's Web site at: <http://www.epa.gov/region09/water/npdes/pubnotices.html>.

DATES: Comments on the proposed permits must be received or postmarked no later than February 5, 2018.

ADDRESSES: Public comments on the proposed permits may be submitted by U.S. Mail to: Environmental Protection Agency, Region 9, Attn: Gary Sheth, NPDES Permits Section, Water Division (WTR-2-3), 75 Hawthorne Street, San Francisco, California 94105-3901, or by email to: sheth.gary@epa.gov. Please include the following Docket No. in the email subject line:

EPA-R09-OW-2017-0478.

FOR FURTHER INFORMATION CONTACT: Gary Sheth, EPA Region 9, NPDES Permits Section, Water Division (WTR-2-3), 75 Hawthorne Street, San Francisco, California 94105-3901, or telephone (415) 972-3516. A copy of the proposed permits and fact sheets will be provided upon request and are also available on Region 9's Web site at: <http://www.epa.gov/region09/water/npdes/pubnotices.html>.

Administrative record: The proposed permits and other related documents in the administrative record are on file and may be inspected any time between 8:30 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays, at the following address: U.S. EPA Region 9, NPDES Permits Section, Water Division (WTR-2-3), 75 Hawthorne Street, San Francisco, CA 94105-3901.

SUPPLEMENTARY INFORMATION:

A. Does this action apply to me?

The proposed NPDES General Permit for Low Threat Discharge in Navajo Nation is intended to provide coverage to entities that discharge wastewater that is relatively pollutant free, below a specified volume, and/or for a limited time, within the Navajo Nation. The proposed NPDES General Permit for Bulk Fuel Storage Facilities in Guam replaces individual NPDES permits for five bulk fuel storage facilities and provides coverage for new eligible bulk fuel facilities in Guam.

B. How can I submit comments?

- * Identify which General Permit included in this notice you are commenting on.
- * Include documentation to support your comments.
- * Submit comments by the deadline identified in this **Federal Register** notice.
