

it finds compelling reasons to deny the request.

On November 27, 2017, the petitioner submitted a timely request that the Department postpone the preliminary CVD determination.<sup>3</sup> The petitioner stated that it requests postponement because of the complexity of the investigation and the schedule.<sup>4</sup> Further, the petitioner stated that “the deadlines for responding to Sections II and III of the questionnaire fall after the scheduled preliminary determination. Without extending the preliminary determination, Chemours would be unable to comment on the responses or suggest follow-up questions prior to a preliminary determination. The Department would be similarly unable to issue supplemental questionnaires.”<sup>5</sup>

In accordance with 19 CFR 351.205(e), the petitioner has stated the reasons for requesting a postponement of the preliminary determination, and the Department finds no compelling reason to deny the request. Therefore, in accordance with section 703(c)(1)(A) of the Act, the Department is postponing the deadline for the preliminary determination to no later than 130 days after the date on which this investigation was initiated, *i.e.*, to February 26, 2018.<sup>6</sup> Pursuant to section 705(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determination of this investigation will continue to be 75 days after the date of the preliminary determination.

This notice is issued and published pursuant to section 703(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: November 30, 2017.

<sup>6</sup> Postponing the preliminary determination to 130 days after initiation would place the deadline on Sunday, February 25, 2018. The Department’s practice dictates that where a deadline falls on a weekend or Federal holiday, the appropriate deadline is the next business day. ### ESA-Listed Species Covered in This Notice

Steelhead (*Oncorhynchus mykiss*): Threatened, naturally produced and artificially propagated Puget Sound.

Chinook salmon (*O. tshawytscha*): Threatened, naturally produced and artificially propagated Puget Sound.

### Background

The Sauk-Suiattle Indian Tribe, Swinomish Indian Tribal Community, Upper Skagit Indian Tribe, and the Skagit River System Cooperative and the Washington Department of Fish and Wildlife have jointly submitted a steelhead fishery RMP to NMFS pursuant to the limitation on take prohibitions for actions conducted under Limit 6 of the 4(d) Rule for salmon and steelhead promulgated under the Endangered Species Act (ESA). The plan was submitted in November of 2016, pursuant to limit 6 of the 4(d) Rule for ESA-listed salmon and steelhead. The RMP would manage the harvest of Skagit River natural-origin steelhead in the Skagit River and in the terminal marine area of the Skagit River (Marine Area 8).

As required by the ESA 4(d) Rule (65 FR 42422, July 10, 2000, as updated in 70 FR 37160, June 28, 2005), the Secretary is seeking public comment on this proposed evaluation and pending determination as to whether the RMP meets the criteria under Limit 6 of the 4(d) Rule and as to whether implementation of the RMP will appreciably reduce the likelihood of survival and recovery of ESA-listed Puget Sound steelhead and Puget Sound Chinook.

### Authority

Under section 4 of the ESA, the Secretary of Commerce is required to adopt such regulations as he deems necessary and advisable for the conservation of species listed as threatened. The ESA salmon and steelhead 4(d) Rule (65 FR 42422, July 10, 2000, as updated in 70 FR 37160, June 28, 2005) specifies categories of activities that contribute to the conservation of listed salmonids and sets out the criteria for such activities. Limit 6 of the updated 4(d) Rule (50 CFR 223.203(b)(6)) further provides that the prohibitions of paragraph (a) of the updated 4(d) Rule (50 CFR 223.203(a)) do not apply to activities associated with a joint state/tribal artificial propagation plan provided that the joint plan has been determined by NMFS to be in accordance with the salmon and steelhead 4(d) Rule (65 FR 42422, July 10, 2000, as updated in 70 FR 37160, June 28, 2005).
