SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), invite the public to comment on applications for permits to conduct activities intended to promote recovery of endangered species. With some exceptions, the ESA prohibits certain activities with endangered species unless a Federal permit allows such activity. The ESA also requires that we invite public comment before issuing these permits.

Background

The ESA prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. The ESA and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations (CFR) provide for the issuance of such permits and require that we invite public comment before issuing permits for activities involving endangered species.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.
