#### SUPPLEMENTARY INFORMATION:

#### I. Introduction

In an application dated June 1, 2017 (ADAMS Accession No. ML17158B356), the Army requested an amendment to correct sizing/scaling errors in Figure 1-2 of the Fort Polk, Fort Riley, and PTA Site-Specific ERMP annexes to the Programmatic ERMP, incorporated by reference in Source Materials License No. SUC-1593 (ADAMS Accession No. ML16343A164). In addition, the Army requested an amendment to the license that would allow the Army to make future changes to correct similar "minor errors" in annexes to the Programmatic ERMP without submittal of a license amendment request.

The staff completed its administrative acceptance review of the application and determined that the request to correct specific figure sizing/scaling errors in the identified Site-Specific ERMP annexes contains sufficient information for the staff to begin a detailed technical review. However, the staff determined that the Army's proposal to make similar future "minor changes" to annexes to the Programmatic ERMP without NRC approval did not contain enough information to accept the request for detailed technical review. In the staff's acceptance review letter (ADAMS Accession No. ML17226A205), the staff informed the Army that the staff will begin its detailed technical review of the changes to correct figure sizing/scaling errors in the Site-Specific ERMP annexes for Fort Polk, Fort Riley, and PTA.<sup>1</sup> In order to issue the requested

<sup>1</sup> In the acceptance review letter, the NRC also informed the Army that if the Army wishes to pursue the change process portion of its license amendment request, it would need to supplement its application within 30 calendar days, by October

amendment, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the NRC's regulations. The NRC's findings will be documented in a safety evaluation report.

#### II. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in part 2 of title 10 of the *Code of Federal Regulations (10 CFR)*. Interested persons should consult a current copy of 10 CFR 2.309. The NRC's regulations are accessible electronically from the NRC Library on the NRC's Web site at <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. Alternatively, a copy of the regulations is available at the NRC's Public Document Room, located at One White Flint North, Room O1-F21, 11555 Rockville Pike (1st floor), Rockville, Maryland 20852. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

As required by 10 CFR 2.309(d) the petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements for standing: (1) The name, address, and telephone number of the petitioner; (2) the nature of the petitioner's right under the Act to be made a party to the proceeding; (3) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the petitioner's interest.

In accordance with 10 CFR 2.309(f), the petition must also set forth the specific contentions which the petitioner seeks to have litigated in the proceeding. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner must provide a brief explanation of the

20, 2017, of the date of the acceptance review letter. If this supplementary information was not received by then, the staff would continue to process the license amendment request, to include the appropriate noticing in the **Federal Register**, without further consideration of the change process portion. The Army has not provided any supplemental information to date. As a result, the NRC will not consider the change process portion of the Army's June 1, 2017 amendment application.
