SUPPLEMENTARY INFORMATION:**Background**

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The CCFA establishes or endorses permitted maximum levels for individual food additives; prepares priority lists of food additives for risk assessment by the Joint FAO/WHO Expert Committee on Food Additives (JECFA); assigns functional classes and International Numbering System (INS) numbers to individual food additives; recommends specifications of identity and purity for food additives for adoption by Codex; considers methods of analysis for the determination of additives in food; and considers and elaborates standards or codes for related subjects, such as labeling of food additives when sold as such. The CCFA is hosted by China.

Issues To Be Discussed at the Public Meeting

The following items on the agenda for the 50th Session of the CCFA will be discussed during the public meeting:

- Matters referred by the Codex and other subsidiary bodies;
- Matters of Interest arising from FAO/WHO and from the 84th Meeting of the Joint FAO/WHO Expert Committee on Food Additives (JECFA)
- Proposed draft specifications for identity and purity of food additives arising from the 84th JECFA meeting
 - Endorsement and/or revision of maximum levels for food additives and processing aids in Codex Standards
 - Alignment of the food additive provisions of commodity standards/ Report of the EWG on Alignment;

- General Standard for Food Additives (GSFA): Report of the EWG on the GSFA;
 - General Standard for Food Additives (GSFA): Proposals for new and/or revision of food additive provisions
 - Discussion paper on the use of nitrates and nitrites
 - Discussion paper on the use of the terms “unprocessed” and “plain” in the GSFA
 - Proposed draft revision to the International Numbering System (INS) for Food Additives
 - Proposals for additions and changes to the Priority List of Substances Proposed for evaluation by JECFA
 - Discussion paper on “Future Strategies for CCFA”
 - Other Business and Future Work.
- Each issue listed will be fully described in documents distributed, or to be distributed, by the Codex Secretariat before the meeting. Members of the public may access these documents at <http://www.fao.org/fao-who-codexalimentarius/meetings-reports>.

Public Meeting

At the February 13, 2018 public meeting, draft U.S. positions on the agenda items will be described, discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to the U.S. Delegate for the 50th Session of the CCFA, Paul Honigfort, Ph.D. at the following address: ccfa@fda.hhs.gov. Written comments should state that they relate to activities of the 50th Session of the CCFA.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS web page. Through the web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to

selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.
