SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for Citizen Science Projects.

OMB Number: 0596—NEW.

Expiration Date of Approval: NEW.

Type of Request: NEW.

Abstract: Citizen science brings together two important Forest Service

values—using sound science to guide our management and decision making, and connecting our work to the public that we serve. In order to ensure a timely and consistent process for Paperwork Reduction Act compliance, the Forest Service is proposing to develop a Generic Information Collection Request to be utilized for citizen science projects that support that Agency's mission.

Citizen science can support the Forest Service's mission by allowing the Agency to collect qualitative and quantitative data that can help inform scientific research; ecological, social and biological assessments and monitoring efforts; validate environmental models or tools; and enhance the quantity and quality of data collected across the country's diverse communities and ecosystems. Citizen science also creates an avenue to incorporate local knowledge and needs, and can contribute to increased data sharing, open data, and government transparency. The Forest Service may sponsor the collection of this type of information in connection with citizen science projects. When applicable, all such collections will accord with Agency policies and regulations related to human subjects and research. If a new collection is not within the parameters of this generic Information Collection Request (ICR), the Agency will submit a separate information collection request to Office of Management and Budget (OMB) for approval.

Collections under this generic ICR will be from volunteers who participate on their own initiative through an open and transparent process; the collections will be low-burden for participants; collections will be low-cost for both the participants and the Federal Government; and data will be available to support the scientific endeavors of the Agency, states, tribal or local entities where data collection occurs.

Estimate of Annual Burden on Respondents: 4,533,333 hours/year.

Type of Respondents: Participants/respondents will be individuals, not specific entities.

Estimated Annual Number of Respondents: 160,000/year.

Estimated Annual Number of Responses per Respondent: 9 responses/respondent.

Comment is Invited:

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the

collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. The Forest Service will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission request for final Office of Management and Budget approval.

Dated: November 28, 2017.

DEPARTMENT OF AGRICULTURE**Rural Housing Service****Notice of Request for Extension of a Currently Approved Information Collection****AGENCIES:** Rural Housing Service, USDA.**ACTION:** Proposed collection; comments requested.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Rural Housing Service (RHS), the Rural Business-Cooperative Service (RBS), and Rural Utilities Service (RUS) intention to request an extension for a currently approved information collection in support of compliance with Civil Rights laws.

DATES: Comments on this notice must be received by February 20, 2018 to be assured of consideration.

FOR FURTHER INFORMATION CONTACT: Angilla Denton, Equal Opportunity Specialist, Rural Development, Civil Rights Staff, U.S. Department of Agriculture, STOP 0703, 1400 Independence Ave. SW, Washington, DC 20250-0703, Telephone (202) 692-0099 (voice) or 692-0107 (TDD).

SUPPLEMENTARY INFORMATION:

Title: 7 CFR 1901-E, Civil Rights Compliance Requirements.

OMB Number: 0575-0018.

Expiration Date of Approval: March 31, 2018.

Type of Request: Extension of a Currently Approved Information Collection.

Abstract: The information collection under OMB Number 0575–0018 enables the RHS, RBS, and RUS, to effectively monitor a recipient's compliance with the civil rights laws, and to determine whether or not service and benefits are being provided to beneficiaries on an equal opportunity basis.

The RBS, RHS, and RUS are required to provide Federal financial assistance through its housing and community and business programs on an equal opportunity basis. The laws implemented in 7 CFR part 1901, subpart E, require the recipients of RBS, RHS, and RUS Federal financial assistance to collect various types of information, including information on participants in certain of these agencies' programs, by race, color, and national origin.

The information collected and maintained by the recipients of certain programs from RBS, RHS, and RUS is used internally by these agencies for monitoring compliance with the civil rights laws and regulations. This information is made available to USDA officials, officials of other Federal agencies, and to Congress for reporting purposes. Without the required information, RBS, RHS, RUS and its recipients will lack the necessary documentation to demonstrate that their programs are being administered in a nondiscriminatory manner, and in full compliance with the civil rights laws. In addition, the RBS, RHS, RUS and their recipients would be vulnerable in lawsuits alleging discrimination in the affected programs of these agencies, and would be without appropriate data and documentation to defend themselves by demonstrating that services and benefits are being provided to beneficiaries on an equal opportunity basis.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 7.5 hours per response.

Respondents: Recipients of RBS, RHS, and RUS Federal financial assistance, loan, and loan guarantee programs.

Estimated Number of Respondents: 27,000.

Estimated Number of Responses per Respondent: 2.72.

Estimated Number of Responses: 73,559.

Estimated Total Annual Burden on Respondents: 550,276.

Copies of this information collection can be obtained from Jeanne Jacobs, Regulations and Paperwork

Management Branch, Support Services Division, at (202) 692–0040.

Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Rural Development, including whether the information will have practical utility; (b) the accuracy of the Agencies' estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Jeanne Jacobs, Regulations and Paperwork Management Branch, Support Services Division, Rural Development, U.S. Department of Agriculture, STOP 0742, Washington, DC 20250–0742. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: December 4, 2017.
