

**NATIONAL CREDIT UNION  
ADMINISTRATION****Agency Information Collection  
Activities: Proposed Collections;  
Comment Request****AGENCY:** National Credit Union  
Administration (NCUA).**ACTION:** Notice and request for comment.**SUMMARY:** The National Credit Union  
Administration (NCUA), as part of a  
continuing effort to reduce paperwork  
and respondent burden, invites the  
general public and other Federal  
agencies to comment on the following  
renewals of currently approved  
collections, as required by the  
Paperwork Reduction Act of 1995.**DATES:** Written comments should be  
received on or before February 20, 2018  
to be assured consideration.**ADDRESSES:** Interested persons are  
invited to submit written comments on  
the information collections to Dawn  
Wolfgang, National Credit Union  
Administration, 1775 Duke Street, Suite  
5080, Alexandria, Virginia 22314; Fax  
No. 703-519-8579; or Email at  
[PRAComments@NCUA.gov](mailto:PRAComments@NCUA.gov).**FOR FURTHER INFORMATION CONTACT:**  
Requests for additional information  
should be directed to the address above  
or telephone 703-548-2279.**SUPPLEMENTARY INFORMATION:***OMB Number:* 3133-0183.*Title:* Golden Parachute and  
Indemnification Payments, 12 CFR part  
750.*Abstract:* This rule prohibits, in  
certain circumstances, a federally  
insured credit union (FICU) from  
making golden parachute and  
indemnification payments to an  
institution-affiliated party (IAP). Section  
750.6 requires requests by a troubled  
FICU to make a severance or golden  
parachute payment to an IAP, to be  
submitted in writing to NCUA. The  
information will be used by the NCUA  
to determine whether an exception to  
the general prohibition on golden  
parachute payments should be  
approved.*Type of Review:* Extension of a  
currently approved collection.*Affected Public:* Private Sector: Not-  
for-profit institutions.*Estimated Number of Respondents:* 5.*Estimated Annual Frequency:* 1.2.*Estimated Annual Number of  
Responses:* 6.*Estimated Burden Hours per  
Response:* 3.42.*Estimated Total Annual Burden  
Hours:* 21.*Reason for Change:* Adjustments are  
attributed to updated data since the  
previous submission.*OMB Number:* 3133-0184.*Title:* Requirements for Insurance—  
Interest Rate Risk Policy.*Abstract:* Section 741.3(b)(5) of  
NCUA's rules and regulations requires  
federally-insured credit unions (FICUs)  
with assets of more than \$50 million to  
develop, as a prerequisites for  
insurability of its member deposits, a  
written interest rate risk management  
policy and a program to effectively  
implement the policy. The need for  
FICU to have a written policy to  
establish responsibilities and  
procedures for identifying, measuring,  
monitoring, controlling, and reporting,  
and establishing risk limits are essential  
components of safe and sound credit  
union operations and to ensure the  
security of the National Credit Union  
Share Insurance Fund (NCUSIF).*Type of Review:* Extension of a  
currently approved collection.*Affected Public:* Private Sector: Not-  
for-profit institutions.*Estimated Number of Respondents:*  
2,308.*Estimated Annual Frequency:* 1.*Estimated Annual Number of  
Responses:* 2,308.*Estimated Burden Hours per  
Response:* 0.32.*Estimated Total Annual Burden  
Hours:* 735.*Reason for Change:* Since the  
promulgation of the rule, FICUs have an  
established policy and program in place.  
The majority of the burden is attributed  
to recordkeeping requirements of  
affected FICU. Additional adjustments  
have been made to reflect the current  
number of credit unions complying with  
this rule.*Request for Comments:* Comments  
submitted in response to this notice will  
be summarized and included in the  
request for Office of Management and  
Budget approval. All comments will  
become a matter of public record. The  
public is invited to submit comments  
concerning: (a) Whether the collection  
of information is necessary for the  
proper execution of the function of the  
agency, including whether the  
information will have practical utility;  
(b) the accuracy of the agency's estimate  
of the burden of the collection of  
information, including the validity of  
the methodology and assumptions used;  
(c) ways to enhance the quality, utility,  
and clarity of the information to be  
collected; and (d) ways to minimize the  
burden of the collection of the  
information on the respondents,  
including the use of automatedcollection techniques or other forms of  
information technology.By Gerard Poliquin, Secretary of the  
Board, the National Credit Union  
Administration, on December 14, 2017.

Dated: December 14, 2017.

**BILLING CODE 7535-01-P****NUCLEAR REGULATORY  
COMMISSION****[Docket No. 70-1113; License No. SNM-  
1097; EA-17-090; NRC-2017-0234]****Global Nuclear Fuels—Americas,  
L.L.C.****AGENCY:** Nuclear Regulatory  
Commission.**ACTION:** Confirmatory order; issuance.**SUMMARY:** The U.S. Nuclear Regulatory  
Commission (NRC) issued a  
confirmatory order (Order) to Global  
Nuclear Fuels—Americas, L.L.C., (the  
licensee), confirming the agreement  
reached in an Alternative Dispute  
Resolution mediation session held on  
October 25, 2017. This Order will  
ensure the licensee restores compliance  
with NRC's regulations.**DATES:** The Order was issued on  
December 14, 2017.**ADDRESSES:** Please refer to Docket ID  
NRC-2017-0234 when contacting the  
NRC about the availability of  
information regarding this document.  
You may obtain publicly-available  
information related to this document  
using any of the following methods:

- *Federal Rulemaking website:* Go to  
<http://www.regulations.gov> and search  
for Docket ID NRC-2017-0234. Address  
questions about NRC dockets to Carol  
Gallagher; telephone: 301-415-3463;  
email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). For  
technical questions, contact the  
individual listed in the **FOR FURTHER  
INFORMATION CONTACT** section of this  
document.

- *NRC's Agencywide Documents  
Access and Management System  
(ADAMS):* You may obtain publicly-  
available documents online in the  
ADAMS Public Documents collection at  
[http://www.nrc.gov/reading-rm/  
adams.html](http://www.nrc.gov/reading-rm/<br/>adams.html). To begin the search, select  
"ADAMS Public Documents" and then  
select "Begin Web-based ADAMS  
Search." For problems with ADAMS,  
please contact the NRC's Public  
Document Room (PDR) reference staff at  
1-800-397-4209, 301-415-4737, or by  
email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The  
ADAMS accession number for each

document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

• *NRC's PDR*: You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

**FOR FURTHER INFORMATION CONTACT:** Scott Sparks, Region II, U.S. Nuclear Regulatory Commission, Atlanta, Georgia 30303-1257; telephone: 404-997-4422; email: *Scott.Sparks@nrc.gov*.

**SUPPLEMENTARY INFORMATION:** The text of the Order is attached.

Dated at Atlanta, Georgia, this 14th day of December 2017.

For the Nuclear Regulatory Commission.

**Catherine Haney,**

*Regional Administrator.*

## **NUCLEAR REGULATORY COMMISSION**

[Docket No. 70-1113; License No. SNM-1097; EA-17-090; NRC-2017-0234]

**Global Nuclear Fuels—Americas, L.L.C.**

**In the Matter of Global Nuclear Fuels—Americas, L.L.C.**

### **Confirmatory Order (Effective Upon Issuance)**

#### **I**

Global Nuclear Fuels—Americas, L.L.C. (GNF-A, or the licensee) is the holder of NRC License No. SNM-1097, issued by the U.S. Nuclear Regulatory Commission (NRC or Commission) pursuant to Part 70 of Title 10 of the *Code of Federal Regulations* (10 CFR), on May 19, 2009. The primary purpose of the GNF-A facility is the manufacture of fuel assemblies for commercial nuclear reactors. Nuclear materials enriched to less than or equal to 5 weight percent Uranium-235 are utilized in the product manufacturing operations authorized by the license. The facility is located on the licensee's site in Wilmington, North Carolina.

This Confirmatory Order (CO) is the result of an agreement reached during an alternative dispute resolution (ADR) mediation session conducted on October 25, 2017.

#### **II**

NRC Inspection Report (IR) 70-1113/2017-003, dated July 25, 2017, documented a transportation incident occurring in September of 2016, when GNF-A made arrangements with a private industrial contractor to ship a dumpster of scrap metal piping to a local metal recycling facility. On September 29, 2016, the dumpster was loaded onto a truck and shipped offsite to a scrap metal recycling facility,

located approximately 15 minutes from GNF-A. Prior to entering the recycling facility, the shipment was checked by a radiation portal monitor as part of the normal receipt process of the scrap metal recycling facility. The dumpster of scrap metal piping from GNF-A caused the radiation portal monitor to alarm. The shipment was not allowed to enter the scrap metal facility, and was returned to GNF-A's facility soon thereafter that same day.

The NRC's IR documented five apparent violations (AVs). Three AVs were considered for escalated enforcement:

1. Failure to make or cause to be made surveys of scrap metal piping prior to its release and transportation as required by 10 CFR 20.1501(a).

2. Failure to comply with applicable Department of Transportation (DOT) regulations appropriate to the mode of transport of contaminated materials as required per 10 CFR 71.5(a).

3. Failure to notify the NRC as required by 10 CFR 20.1906(d)(1) when removable radioactive surface contamination exceeds the limits of 10 CFR 71.87(i).

Two additional non-escalated AVs were also documented in the IR:

4. Failure to perform the monitoring within 3 hours after receiving the shipment back at the site as required by 10 CFR 20.1906(c).

5. Failure to maintain records of surveys as required by 10 CFR 20.2103(a).

In response to the NRC's inspection report of July 25, 2017, GNF-A advised the NRC of its desire to participate in the Agency's ADR program to resolve the enforcement aspects of this matter.

#### **III**

On October 25, 2017, the NRC and GNF-A met in an ADR session mediated by a professional mediator, arranged through Cornell University's Institute on Conflict Resolution. The ADR is a process in which a neutral mediator with no decision-making authority assists the parties in reaching an agreement or resolving any differences regarding their dispute. This CO is issued pursuant to the agreement reached during the ADR process. The elements of the agreement consist of the following:

1. During the ADR, GNF-A expressed agreement with the following four AVs: (1) Failure to make or cause to be made surveys of scrap metal piping prior to its release and transportation as required by 10 CFR 20.1501(a); (2) Failure to comply with applicable Department of Transportation (DOT) regulations appropriate to the mode of transport of

contaminated materials as required per 10 CFR 71.5(a); (3) Failure to perform the monitoring within 3 hours after receiving the shipment back at the site as required by 10 CFR 20.1906(c); (4) Failure to maintain records of surveys as required by 10 CFR 20.2103(a).

GNF-A raised reservations regarding the AV associated with notifying the NRC as required by 10 CFR 20.1906(d)(1). In particular, GNF-A questioned whether the circumstances of the contaminated scrap metal required NRC notification per 10 CFR 20.1906(d)(1).

The NRC continues to conclude that this issue represents a violation of 10 CFR 20.1906(d)(1).

At the ADR, the NRC and GNF-A agreed to disagree regarding whether this issue represents a violation of 10 CFR 20.1906(d)(1).

Consequently, within 30 days after the issuance of the CO, GNF-A will make a report to the NRC Operations Center, pursuant to 10 CFR 20.1906(d)(1), stating that the NRC has concluded that GNF-A received a package on September 29, 2016, which had removable radioactive surface contamination on its external surfaces that exceeded the applicable limits set forth in 10 CFR 71.87(i). GNF-A will make this report solely for the purposes of reaching resolution at ADR because it maintains that the removable radioactive surface contamination on the external surfaces of the package (an open metal dumpster) and the removable surface contamination on the scrap pipes contained in the dumpster did not exceed the applicable limits set forth in 10 CFR 71.87(i).

2. The NRC views the safety significance of three violations (i.e., failure to make surveys as required by 10 CFR 20.1501(a), failure to comply with DOT regulations as required by 10 CFR 71.5(a), and failure to notify the NRC as required by 10 CFR 20.1906(d)(1)) as interrelated to one incident and consistent with a Severity Level III problem in accordance with the NRC Enforcement Policy.

The NRC views the safety significance of two additional violations (i.e., failure to perform the monitoring within 3 hours after receiving the shipment back at the site as required by 10 CFR 20.1906(c), and failure to maintain records of surveys as required by 10 CFR 20.2103(a)) as consistent with Severity Level IV violations in accordance with the NRC Enforcement Policy.

Based on GNF-A's view of the low actual and potential safety significance of the shipment, GNF-A does not

believe the violations merited escalated enforcement action.

3. Based on a review of the incident, GNF-A completed a number of corrective actions and enhancements to preclude recurrence of the violations, including but not limited to the following:

a. GNF-A revised its procedures, including, among others:

i. WI-27-105-05 "Control of Radioactive Material," to clarify survey requirements for the release of radioactive material; and

ii. WI-27-105-08 "Contamination Measurement and Control," to provide clear instructions on contamination surveys required.

b. GNF-A provided enhanced training to the Radiation Protection Monitors to include:

i. historical knowledge of facility operations; and

ii. survey practices and the need to select the proper survey instrument for the type of contamination expected.

c. GNF-A revised the Senior Radiological Engineer's and the Radiation Protection Manager's qualification cards to require training on historical knowledge of facility operations.

d. GNF-A augmented its recordkeeping process to ensure radiation protection survey records are properly documented and maintained.

e. Senior management communicated lessons learned from this event to the GNF-A and Hitachi Nuclear Energy—Americas, LLC (GEH-A) organizations.

f. GNF-A conducted a Root Cause Analysis of the transportation incident.

g. GEH-A initiated a Nuclear Safety Culture (NSC) assessment of the Wilmington site. The assessment included a survey, interviews, and data trending to include a review of relevant entries into the corrective action program.

4. Based on GNF-A's review of the incident and NRC's concerns with respect to precluding recurrence of the violations, GNF-A agreed to implement the corrective actions and enhancements delineated in Section V of this CO.

5. Within 3 months of completion of the terms of the CO, GNF-A shall provide the NRC with a letter discussing its basis for concluding that the CO has been satisfied.

6. In consideration of GNF-A's completed corrective actions and enhancements, and GNF-A's commitments delineated herein, the NRC agrees to refrain from proposing a civil penalty or issuing a Notice of Violation for all AVs identified in NRC

Inspection Report 70-1113/2017-003 (EA-17-090).

7. The NRC and GNF-A agree that the above elements shall be incorporated into a CO.

8. This agreement is binding upon successors and assigns of GNF-A.

On December 7, 2017, GNF-A consented to issuance of this CO with the commitments, as described in Section V below. GNF-A further agreed that this CO is to be effective upon issuance and that it has waived its right to a hearing.

#### IV

Because GNF-A has taken corrective actions to address NRC concerns, as set forth in Section III above, and has agreed to take additional corrective actions as set forth in Section V below, the NRC has concluded that its concerns can be resolved through issuance of this CO.

I find that GNF-A's commitments as set forth in Section V are acceptable and necessary and conclude that with these commitments, the public health and safety are reasonably assured. In view of the foregoing, I have determined that public health and safety require that GNF-A's commitments be confirmed by this CO. Based on the above and GNF-A's consent, this CO is effective upon issuance.

#### V

Accordingly, pursuant to Sections 104b., 161b., 161i., 161o., 182, and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202 and 10 CFR part 70, *it is hereby ordered*, that license No. SNM-1097 be modified as follows:

1. Consistent with paragraph III (1) above, within thirty (30) days after the issuance of the CO, GNF-A will make a report to the NRC Operations Center, pursuant to 10 CFR 20.1906(d)(1), stating that the NRC has concluded that GNF-A received a package on September 29, 2016, which had removable radioactive surface contamination on its external surfaces that exceeded the applicable limits set forth in 10 CFR 71.87(i).

2. Within one (1) year after issuance of the CO, GNF-A shall install a vehicle portal monitor with a sensitivity to detect vehicle surface radiation levels specified in 10 CFR 20.1301(a)(2). GNF-A agrees to continue to perform surveys for unrestricted release in accordance with the License Application Section 1.3.2. Procedures shall be developed and implemented to ensure that all non-manifested vehicle shipments from the Controlled Access Area are monitored and to validate, investigate, and to

respond to alarms prior to releasing shipments off-site. Once installed, if for any reason the vehicle portal monitor is not available, compensatory measures shall be taken by GNF-A to detect non-manifested vehicle shipments in excess of radiation levels of 10 CFR 20.1301(a)(2).

3. Within sixty (60) days of issuance of the CO, or within 60 days of completion of the NSC assessment referenced in Section III.3.g, whichever is later, GNF-A shall make the results of the assessment available to the NRC for review.

4. Approximately two (2) years (+/- 6 months) after issuance of the CO, GNF-A shall conduct a NSC assessment of the GNF-A organization by a third party independent of GNF-A who is experienced with NRC nuclear safety culture and safety conscious work environment policies. GNF-A shall compare the results of this assessment to the results of the assessment performed under Section III.3.g of this CO in an effort to identify trends. Corrective actions arising from the assessment and comparison will be entered into the corrective action program and tracked to completion. GNF-A shall make results of the final assessment and comparison available to the NRC for review.

5. Within nine (9) months of issuance of the CO, GNF-A shall augment, with the assistance of an individual independent of GNF-A who is experienced with NRC nuclear safety culture and safety conscious work environment policies, its existing training for all workers with unescorted access to the GNF-A Controlled Access Area, that reinforces nuclear safety culture traits emphasizing questioning attitude, problem identification, effective corrective actions, and effective self-assessment. Training records shall be retained consistent with applicable GNF-A record retention policies and shall be made available to the NRC upon request. New employees shall complete the training prior to the granting of unescorted access to GNF-A. This training shall be provided on an annual basis, for at least three years after issuance of the CO.

6. Within one (1) year after the issuance of the CO, GNF-A shall conduct a benchmark assessment of the GNF-A Radiation Protection Program (RPP) with at least two external RPP organizations in the Fuel Cycle industry, to identify and implement, as GNF-A deems appropriate, best practices and enhancements to increase the effectiveness of its RP program. The benchmark assessment shall be performed by an individual or entity

experienced in Institute of Nuclear Power Operations (INPO) radiation protection standards, and the assessment shall be made available for NRC review.

7. Within one (1) year after issuance of the CO, GNF-A shall expand its Difference of Professional Opinion process to include all technical safety matters related to GNF-A licensed activities.

8. Within one (1) year of issuance of the CO, existing GNF-A supervisors engaged in licensed facility (SNM-1097) activities, as of the date of issuance of the CO, will complete initial Front Line Supervisor Nuclear Safety Leadership training, which will be informed by INPO 04-003, Guidelines for Effective Nuclear Supervisor Performance. For a period of 3 years after issuance of the CO, new GNF-A frontline supervisors engaged in licensed facility (SNM-1097) activities shall complete this training within 6 months of assuming supervisory responsibilities. GNF-A shall make the training materials available to the NRC for review.

9. Within three (3) months of completion of the terms of the CO, GNF-A shall provide the NRC with a letter discussing its basis for concluding that the CO has been satisfied.

The Regional Administrator, Region II, may relax or rescind, in writing, any of the above conditions upon a showing by GNF-A of good cause.

## VI

In accordance with 10 CFR 2.202 and 10 CFR 2.309, any person adversely affected by this CO, other than GNF-A, may request a hearing within 30 calendar days of the date of issuance of this CO. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension.

All documents filed in NRC adjudicatory proceedings, including a request for hearing and petition for leave to intervene (petition), any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities that request to participate under 10 CFR 2.315(c), must be filed in accordance with the NRC's E-Filing rule (72 FR 49139; August 28, 2007, as amended at 77 FR 46562, August 3, 2012). The E-Filing process requires participants to submit and serve all adjudicatory

documents over the internet, or in some cases to mail copies on electronic storage media. Detailed guidance on making electronic submissions may be found in the Guidance for Electronic Submissions to the NRC and on the NRC website at <http://www.nrc.gov/site-help/e-submittals.html>. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by e-mail at [hearing.docket@nrc.gov](mailto:hearing.docket@nrc.gov), or by telephone at 301-415-1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public website at <http://www.nrc.gov/site-help/e-submittals/getting-started.html>. Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit adjudicatory documents. Submissions must be in Portable Document Format (PDF). Additional guidance on PDF submissions is available on the NRC's public website at <http://www.nrc.gov/site-help/electronic-sub-ref-mat.html>. A filing is considered complete at the time the document is submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore,

applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed so that they can obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC's Electronic Filing Help Desk through the "Contact Us" link located on the NRC's public website at <http://www.nrc.gov/site-help/e-submittals.html>, by email to [MSHD.Resource@nrc.gov](mailto:MSHD.Resource@nrc.gov), or by a toll-free call at 1-866-672-7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff. Participants filing adjudicatory documents in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket which is available to the public at <https://adams.nrc.gov/ehd>, unless excluded pursuant to an order of the Commission or the presiding officer. If you do not have an NRC-issued digital ID certificate as described above, click cancel when the link requests certificates and you will be automatically directed to the NRC's electronic hearing dockets where

you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or personal phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. For example, in some instances, individuals provide home addresses in order to demonstrate proximity to a facility or site. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

If a person (other than GNF-A) requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this CO and shall address the criteria set forth in 10 CFR 2.309(d) and (f).

If a hearing is requested by a person whose interest is adversely affected, the Commission will issue an order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this CO should be sustained.

In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section V above shall be final 30 days from the date of this CO without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section V shall be final when the extension expires if a hearing request has not been received.

Dated at Atlanta, Georgia, this 14th day of December, 2017.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

[NRC-2017-0232]

### Biweekly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving No Significant Hazards Considerations

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Biweekly notice.

**SUMMARY:** Pursuant to Section 189a. (2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular biweekly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued, from November 18, 2017, to December 4, 2017. The last biweekly notice was published on December 5, 2017.

**DATES:** Comments must be filed by January 18, 2018. A request for a hearing must be filed by February 20, 2018.

**ADDRESSES:** You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

- *Federal Rulemaking website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2017-0232. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* May Ma, Office of Administration, Mail Stop: OWFN-2-A13, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

**FOR FURTHER INFORMATION CONTACT:** Janet Burkhardt, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-1384, email: [Janet.Burkhardt@nrc.gov](mailto:Janet.Burkhardt@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Obtaining Information and Submitting Comments

###### A. Obtaining Information

Please refer to Docket ID NRC-2017-0232, facility name, unit number(s), plant docket number, application date,

and subject when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2017-0232.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

###### B. Submitting Comments

Please include Docket ID NRC-2017-0232, facility name, unit number(s), plant docket number, application date, and subject in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at <http://www.regulations.gov> as well as entering the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.
