The term “U.S. facilities” as used in this permit means those parts of the facilities in the United States, as described in the Application.

This permit is subject to the following conditions:

**Article 1.** (1) The U.S. facilities herein described, and all aspects of their operation, shall be subject to all the conditions, provisions, and requirements of this permit, and any amendment thereof. This permit may be terminated at the will of the Secretary of State or the Secretary’s delegate or may be amended by the Secretary of State or the Secretary’s delegate at will or upon proper application therefore. The permittee shall make no substantial change in the U.S. facilities, the location of the U.S. facilities, or in the operation authorized by this permit until such changes have been approved by the Secretary of State or the Secretary’s delegate.

(2) The construction, connection, operation, and maintenance of the facilities shall be in all material respects as described in the Application.

**Article 2.** The standards for, and the manner of, the construction, connection, operation, and maintenance of the U.S. facilities shall be subject to inspection and approval by the representatives of appropriate federal, state, and local agencies. The permittee shall allow duly authorized officers and employees of such agencies free and unrestricted access to said facilities in the performance of their official duties.

**Article 3.** The permittee shall comply with all applicable federal, state, local, and tribal laws and regulations regarding the connection, construction, operation, and maintenance of the U.S. facilities and with all applicable industrial codes. The permittee shall obtain all requisite permits from the relevant Canadian authorities as well as from the relevant state and local government entities and relevant federal agencies.

**Article 4.** Upon the termination, revocation, or surrender of this permit, and unless otherwise agreed by the Secretary of State or the Secretary’s delegate, the U.S. facilities in the immediate vicinity of the international boundary shall be removed by and at the expense of the permittee within such time as the Secretary of State or the Secretary’s delegate may specify, and upon failure of the permittee to remove, or to take such other appropriate action with respect to this portion of the U.S. facilities as ordered, the Secretary of State or the Secretary’s delegate may direct that possession of such facilities be taken and that they be removed or other action taken, at the expense of the permittee; and the permittee shall have no claim for damages by reason of such possession or removal or other action.

**Article 5.** All construction, connection, operation and maintenance of the U.S. facilities under this permit shall be subject to the limitations, terms, and conditions issued by any competent agency of the U.S. Government, including but not limited to the Department of Homeland Security and the General Services Administration. This permit shall continue in force and effect only so long as the permittee shall continue the operations hereby authorized in accordance with such limitations, terms, and conditions.

**Article 6.** When, in the opinion of the President of the United States, the national security of the United States demands it, due notice being given by the Secretary of State or the Secretary’s delegate, the United States shall have the right to enter upon and take possession of any of the U.S. facilities or parts thereof; to retain possession, management, or control thereof for such length of time as may appear to the President to be necessary; and thereafter to restore possession and control to the permittee. In the event that the United States shall exercise such right, it shall pay to the permittee just and fair compensation for the use of such U.S. facilities upon the basis of a reasonable profit in normal conditions and the cost of restoring said facilities to as good condition as existed at the time of entering and taking over the same, less the reasonable value of any improvements that may have been made by the United States.

**Article 7.** Any transfer of ownership or control of the U.S. facilities or any part thereof shall be immediately notified in writing to the Department of State for approval, including identification of the transferee. In the event of such transfer of ownership or control, this permit shall remain in force and the U.S. facilities shall be subject to all the conditions, permissions, and requirements of this permit and any amendments thereof unless subsequently terminated or amended by the Secretary of State or the Secretary’s delegate.

**Article 9.** The North Dakota Department of Transportation shall provide the General Services Administration an adequate Federal inspection facility at the United States terminal of the port of entry.

**Article 10.** The permittee shall take all appropriate measures to prevent or mitigate adverse impacts on or disruption of the human environment in connection with the construction, operation and maintenance of the U.S. facilities, including those mitigation measures set forth in the Final Environmental Assessment dated February 17, 2016 and any additional measures that may be required as result of any reevaluation of the foregoing consistent with 23 C.F.R. Sec. 771.129(b).

**Article 11.** The permittee shall not begin construction until it has been informed that the Government of the United States and the Government of Canada have exchanged diplomatic notes confirming that both governments authorized the commencement of a proposed expansion of the port of entry.

**Article 12.** The permittee shall provide information upon request to the Department of State with regard to the U.S. facilities. Such requests could include, for example, information concerning current conditions or anticipated changes in ownership or control, construction, connection, operation or maintenance of the U.S. facilities.

**Article 13.** The permittee shall provide written notice to the Department of State at such time as the construction authorized by this permit is begun and again at such time as construction is completed, interrupted, or discontinued.

**Article 14.** The permittee shall file with the appropriate agencies of the U.S. government such statements or reports under oath with respect to the U.S. facilities, and/or the permittee’s actions and operations in connection therewith, as are now, or may hereafter be, required under any laws or regulations of the U.S. government or its agencies.
