

adverse comments were submitted by December 7, 2017, the rule would be withdrawn and not take effect. EPA received an adverse comment prior to the close of the comment period and, therefore, is withdrawing the direct final rule. EPA will address the comment in a subsequent final action based upon the proposed action also published on November 7, 2017 (82 FR 51594). EPA will not institute a second comment period on this action.

[EPA–R06–OAR–2015–0832; FRL–9972–00–Region 6]

Approval and Promulgation of Implementation Plans; Texas; Reasonably Available Control Technology for Volatile Organic Compound Emissions in the Dallas-Fort Worth Ozone Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: Pursuant to the Federal Clean Air Act (CAA or the Act), the Environmental Protection Agency (EPA) is approving revisions to the State Implementation Plan (SIP) submitted by the State of Texas. The Texas SIP submission revises rules for control of volatile organic compounds (VOC) to assist the Dallas-Fort Worth (DFW) moderate nonattainment area (NAA) in attaining the 2008 8-hour ozone (O₃) National Ambient Air Quality Standards (NAAQS) and demonstrates that Reasonably Available Control

Technology (RACT) requirements are met for the DFW NAA. The submission includes Wise County, a county added as part of the DFW moderate NAA. We are approving the submitted rules and RACT demonstration as part of the DFW moderate NAA SIP and as meeting RACT requirements.

DATES: This rule is effective on January 22, 2018.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R06–OAR–2015–0832. All documents in the docket are listed on the <http://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *e.g.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the EPA Region 6, 1445 Ross Avenue, Suite 700, Dallas, Texas 75202–2733.

FOR FURTHER INFORMATION CONTACT: Robert Todd, 214–665–2156, todd.robert@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document “we,” “us,” and “our” means the EPA.

I. Background

On July 10, 2015 the Texas Commission on Environmental Quality (TCEQ) submitted rule revisions to their 30 TAC, Chapter 115 “Control of Air Pollution from Volatile Organic Compounds” and a demonstration that RACT requirements are met in the DFW NAA for inclusion into the Texas SIP. The background for this action is discussed in detail in our October 5, 2017 proposal, 82 FR 46450. In that document we proposed to approve the submitted TAC Chapter 115 SIP revisions into the SIP because these revisions will assist the DFW area reach attainment under the 2008 8-Hour O₃ NAAQS by reducing VOC emissions for affected sources in the DFW area. We also proposed approval of all revisions for the amended, repealed, and new sections of Chapter 115 that were submitted for inclusion into the SIP. Additionally, the EPA proposed determining the TCEQ rules included in these revisions would meet the CAA § 182(b) RACT requirements for the 2008 O₃ NAAQS in the DFW NAA. We also proposed approval of the RACT demonstration, including the negative declarations for certain RACT categories of emission sources provided by the

TCEQ. We did not receive any comments regarding our proposal.

II. Final Action

We are approving the revisions to 30 TAC Chapter 115 submitted to the EPA on July 10, 2015, for inclusion into the Texas SIP. We are also approving the DFW RACT demonstration submitted by the TCEQ. For complete details of the SIP revisions we are approving please see the proposal to this action and the accompanying Technical Support Document included in the public docket for this rule. This action is being taken under section 110 of the Act.

III. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the revisions to the Texas regulations as described in the Final Action section above. The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and/or at the EPA Region 6 Office (please contact Robert Todd for more information). Therefore, these materials have been approved by EPA for inclusion in the SIP, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA’s approval, and will be incorporated by reference by the Director of the Federal Register in the next update to the SIP compilation (62 FR 27968, May 22, 1997).

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory

action because SIP approvals are exempted under Executive Order 12866;

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal

governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by February 20, 2018. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: December 15, 2017.

Samuel Coleman,

Acting Regional Administrator, Region 6.

40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart SS—Texas

- 2. In § 52.2270:
 - a. In paragraph (c), the table titled “EPA Approved Regulations In The Texas SIP” is amended:
 - i. By revising the entries for sections 115.10, 115.110–115.115, 115.117–115.119, 115.121 and 115.122, 115.125–115.127, 115.129, 115.139, 115.215, 115.219, 115.229, 115.239, and 115.359;
 - ii. By adding entries for 115.410 and 115.411;
 - iii. By revising the entries for 115.415 and 115.416;
 - iv. By removing the entry for 115.417;
 - v. By revising the entries for 115.419–115.423, 115.425–115.427, 115.429, 115.440–115.442, 115.446, 115.449–115.451, 115.453, 115.459–115.461, 115.469, 115.471, 115.473, 115.479, and 115.519;
 - b. In paragraph (e), the second table titled “EPA Approved Nonregulatory Provisions and Quasi-Regulatory Measures in the Texas SIP” is amended by adding an entry for “DFW VOC RACT Demonstration” at the end.

The revisions and additions read as follows:

§ 52.2270 Identification of plan.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[EPA–R09–RCRA–2017–0523; FRL–9972–09–Region 9]

Arizona: Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: Arizona applied to the EPA for final authorization of changes corresponding to certain federal hazardous waste rules promulgated between May 26, 1998, and July 28, 2006 (also known as RCRA Cluster VIII (checklist 167D) and Clusters IX through XVII) to its hazardous waste program under the Resource Conservation and

Recovery Act (RCRA). On October 5, 2017, EPA proposed to authorize the State’s changes. During the 30-day comment period no adverse comments were received.

DATES: The final authorization is effective January 22, 2018.

FOR FURTHER INFORMATION CONTACT: Laurie Amaro, U.S. Environmental Protection Agency, Region 9, Land Division, 75 Hawthorne Street (LND–1–1), San Francisco, CA 94105, phone number: 415–972–3364, email: amaro.laurie@epa.gov.

SUPPLEMENTARY INFORMATION:

A. What decisions has EPA made in this rule?

On July 14, 2017, Arizona applied to EPA for final authorization of changes to the State hazardous waste program. EPA concludes that Arizona’s application to revise its authorized program meets all statutory and regulatory requirements established by RCRA, as set forth in RCRA sec. 3006(b), 42 U.S.C. 6926(b), and 40 CFR part 271. Therefore, EPA

grants Arizona final authorization to operate as part of its hazardous waste program the changes listed below in Section E of this document, as further described in the authorization application.

Arizona has responsibility for permitting treatment, storage, and disposal facilities within its borders (except in Indian country) and for carrying out the aspects of the RCRA program described in its revised program application, subject to the limitations of the Hazardous and Solid Waste Amendments of 1984 (HSWA).

B. What is the effect of today’s authorization decision?

The effect of this decision is that the changes described in Arizona’s authorization application will become part of the authorized State hazardous waste program, and therefore will be federally enforceable. Arizona will continue to have primary enforcement authority and responsibility for its State hazardous waste program. EPA retains its authorities under RCRA secs. 3007,
