Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

#### Overview of This Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Petition for a CNMI-Only Nonimmigrant Transitional Worker.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* Form I-129CW; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* *Primary:* Individuals or households; Business or other for-profit. USCIS uses the data collected on this form to determine eligibility for the requested immigration benefits. An employer uses this form to petition USCIS for an alien to temporarily enter as a nonimmigrant into the CNMI to perform services or labor as a CNMI-Only Transitional Worker (CW-1). An employer also uses this form to request an extension of stay or change of status on behalf of the alien worker. The form serves the purpose of standardizing requests for these benefits, and ensuring that the basic information required to determine eligibility, is provided by the petitioners.

USCIS collects biometrics from aliens present in the CNMI at the time of requesting initial grant of CW-1 status. The information is used to verify the alien's identity, background information and ultimately adjudicate their request for CW-1 status.

The CW-1 classification is unique in that Form I-129CW is a petition for the CW-1 classification as well as a "grant of status." A "grant of status" allows beneficiaries lawfully present in the CNMI to change status directly from their CNMI classification or DHS-issued parole to the CW-1 classification. *See* 8

CFR 214.2(w)(1)(v). When a beneficiary is granted CW-1 status, the adjudicating officer is granting admission and status to the beneficiary without requiring the beneficiary to depart the CNMI, obtain a visa abroad, and seek admission with CBP. Because we are granting the CW-1 status to the beneficiary, we use biometrics to make a determination of admissibility prior to adjudicating the Form I-129CW petition. The checks are used to confirm identity and ensure that CW-1 status is not granted to anyone who is inadmissible. As the CW program progresses, the need to take biometrics in most cases has diminished, as the Form I-129CW is increasingly used for extension of status of persons who had already had their biometrics taken at the initial grant stage rather than for initial grants of status in the CNMI, but the authority will continue to be used in those initial grant cases that do arise.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I-129CW is 3,749 and the estimated hour burden per response is 3 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 11,247 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$459,252.50.

Dated: December 19, 2017.

**SUPPLEMENTARY INFORMATION:** This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on October 20, 2017 at 82 FR 48844.

**A. Overview of Information Collection**

*Title of Information Collection:* 2018 Rental Housing Finance Survey.

*OMB Approval Number:* 2528-0276.

*Type of Request:* Revision of currently approved collection.

*Agency Form Numbers:* No agency forms will be used.

*Description of the need for the information and proposed use:* The Rental Housing Finance Survey (RHFS) provides a measure of financial, mortgage, and property characteristics of rental housing properties in the United States. RHFS focuses on

mortgage financing of rental housing properties, with emphasis on new originations for purchase-money mortgages and refinancing, and the characteristics of these new originations.

The RHFS will collect data on property values of residential structures, characteristics of residential structures, rental status and rental value of units within the residential structures, commercial use of space within residential structures, property management status, ownership status, a detailed assessment of mortgage financing, and benefits received from Federal, state, local, and non-governmental programs.

Many of the questions are the same or similar to those found on the 1995 Property Owners and Managers Survey, the rental housing portion of the 2001 Residential Finance Survey, the 2012 Rental Housing Finance Survey, and the 2015 Rental Housing Finance Survey. This survey does not duplicate work done in other existent HUD surveys or studies that deal with rental units financing.

Policy analysts, program managers, budget analysts, and Congressional staff can use the survey's results to advise executive and legislative branches about the mortgage finance characteristics of the rental housing stock in the United States and the suitability of public policy initiatives. Academic researchers and private organizations will also be able to utilize the data to facilitate their research and projects. The Department of Housing and Urban Development (HUD) needs the RHFS data for the following two reasons:

1. This is the only source of information on the rental housing finance characteristics of rental properties.

2. HUD needs this information to gain a better understanding of the mortgage finance characteristics of the rental housing stock in the United States to evaluate, monitor, and design HUD programs.

*Members of affected public:* Owners and managers of rental properties.

*Respondents:*

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Rental properties .....	10,000.00	1.00	10,000.00	1.00	10,000.00	\$0.00	\$0.00
