

showcase initiatives during lunchtime, and breakout sessions and a plenary discussion in the afternoon. A transcript and videos of the public meeting are available at: <https://www.uspto.gov/learning-and-resources/ip-policy/public-meeting-developing-digital-marketplace-copyrighted-works-dec>.

Finally, the internet Policy Task Force notes that the United States Copyright Office, in terms of its administration of the Copyright Act via registration and recordation as well as through its law and policy work, is involved in several initiatives that may inform this January event. The Copyright Office is actively engaged in a number of public processes, such as: Modernizing its information technology to improve registration and recordation;³ reengineering its document recordation system; continuing its multiyear project to make historical copyright records created between 1860 and 1977 accessible online; producing studies that address issues affecting online licensing such as *Copyright and the Music Marketplace*⁴ and *Transforming Document Recordation*;⁵ and developing regulations, including those on registration and recordation practices, that improve the current system and will pave the way to support a modernized IT infrastructure.⁶

The Focus of This Meeting

In the previous public comments and meetings, the Task Force heard from stakeholders that the government can play a useful role by facilitating dialogues between and among industry sectors and by convening stakeholder groups to make recommendations on specific issues. Based on this feedback, the Task Force is organizing this meeting to build on the work of the December 2016 meeting and facilitate constructive, cross-industry dialogue among stakeholders about ways to promote a more robust and collaborative online marketplace for copyrighted works. We will discuss the potential for interoperability across digital registries and standards work in this field, and

consider how the relevant emerging technologies (e.g., blockchain technology, open source platforms) are developing. We will also explore potential approaches to guide their future adoption and integration into the online marketplace.

Topics to be covered will include: (1) Initiatives to advance the digital content marketplace, with a focus on standards, interoperability, and digital registries and database initiatives to track ownership and usage rights; (2) innovative technologies designed to improve the ways consumers access and use different types of digital content (e.g., photos, film, music); (3) ways that different sectors can collaborate to promote a robust and interconnected digital content marketplace; and (4) the role of government in facilitating such initiatives and technological development. Members of the public will have opportunities to participate at the meeting.

Public Meeting

On January 25, 2018, the Task Force will hold a public meeting to hear stakeholder input and to consider future work in this area. The event will seek participation and comments from interested stakeholders, including creators, right holders, and online services that produce and distribute copyright protected digital content, as well as technologists, cultural heritage institutions, public interest groups, and academics.

The meeting will be webcast. The agenda and webcast information will be available no later than the week prior to the meeting on the internet Policy Task Force website, at <http://www.ntia.doc.gov/internetpolicy/taskforce>, and the USPTO's website at <https://www.uspto.gov/learning-and-resources/ip-policy/copyright/developing-digital-marketplace-copyrighted-works-second>.

The meeting will be open to members of the public to attend, space permitting, on a first-come, first-served basis. Online registration for the meeting, which is not mandatory, is available at <https://www.uspto.gov/learning-and-resources/ip-policy/copyright/developing-digital-marketplace-copyrighted-works-second>. The meeting will be physically accessible to people with disabilities. Individuals requiring accommodation, such as sign language interpretation, real-time captioning of the webcast or other ancillary aids, should communicate their needs to Hollis Robinson, Office of Policy and International Affairs, United States Patent and Trademark Office, Madison Building, 600 Dulany Street,

Alexandria, Virginia 22314; telephone (571) 272-9300; email Hollis.Robinson@USPTO.gov, at least seven business days prior to the meeting. Attendees should arrive at least one-half hour prior to the start of the meeting and must present a valid government-issued photo identification upon arrival. Persons who have pre-registered (and received confirmation) will have seating held until 15 minutes before the program begins.

Dated: December 19, 2017.

Joseph Matal,

Performing the functions and duties of the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

David J. Redl,

Assistant Secretary for Communications and Information, National Telecommunications and Information Administration.

BILLING CODE 6353-01-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DOD-2017-OS-0066]

Guantanamo Bay to Punta Salinas, Toa Baja, Puerto Rico Submarine Fiber Optic Cable System (GTMO-PR SFOC); Environmental Assessment (EA)/Finding of No Significant Impact (FONSI)

AGENCY: U.S. Defense Information Systems Agency, DoD.

ACTION: Notice of availability.

SUMMARY: The Defense Information Systems Agency (DISA) is announcing that it has prepared an Environmental Assessment (EA) and issued a Finding of No Significant Impact (FONSI) relating to DISA's evaluation of the Proposed Action and Alternatives to installing Submarine Fiber Optic Cable (SFOC) for communication purposes between the DISN Facilities at U.S. Naval Station Guantanamo Bay, Cuba (GTMO) and Ft. Buchanan, Puerto Rico in order to supply high Bandwidth and restoration capability to DoD activities at GTMO. This SFOC will improve long-haul communications between the continental U.S. (CONUS), Puerto Rico and GTMO. The FONSI reports the studies that prove that there will be no significant environmental impact from the installation of this SFOC. This notice announces the availability of the final EA and FONSI to concerned agencies and the public.

DATES: The public comment period will end on January 22, 2018.

ADDRESSES: Requests to receive a copy of the EA or FONSI should be mailed to Defense Information Systems Agency, Public Affairs Officer, P.O. Box 549, Ft. Meade, MD 20755-0549. Arrangements must be made in advance to pick up the documents, due to facility security requirements.

You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
