

will be used. The bridge has a vertical clearance of 14 feet above mean high water in the closed position and unlimited feet above mean high water in the open position. The bridge will open on signal at all other times. The current operating schedule is set out in 33 CFR 117.5.

The AICW, Alligator River is used by a variety of vessels including, small commercial vessels, tug and barge traffic, and recreational vessels. The Coast Guard has carefully coordinated the restrictions with waterway users in publishing this temporary deviation.

Vessels able to pass through the bridge in the closed-to-navigation position may do so at any time. During the closure periods, the bridge will not be able to open for emergencies and the Croatan Sound to the Pamlico Sound can be used as an alternative route for vessels unable to pass through the bridge in the closed position. During the closure periods with scheduled openings at noon, the bridge will be able to open up for emergencies, if at least one hour notice is given. The Coast Guard will also inform the users of the waterway through our Local Notice and Broadcast Notices to Mariners of the change in operating schedule for the bridge so vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: December 18, 2017.

Hal R. Pitts,

Bridge Program Manager, Fifth Coast Guard District.

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R01-OAR-2017-0695, FRL-9972-39-Region 1]

Finding of Failure To Submit a Section 110 State Implementation Plan for Interstate Transport for the 2012 Annual National Ambient Air Quality Standards for Fine Particles; Massachusetts

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action finding that Massachusetts failed to submit an infrastructure State Implementation Plan (SIP) to satisfy certain interstate transport requirements of the Clean Air Act (CAA) with respect to the 2012 annual fine particles (PM_{2.5}) national ambient air quality standard (NAAQS). Specifically, these requirements pertain to significant contribution to nonattainment, or interference with maintenance, of the 2012 annual PM_{2.5} NAAQS in other states. This finding of failure to submit establishes a 2-year deadline for the EPA to promulgate a Federal Implementation Plan (FIP) to address the interstate transport SIP requirements pertaining to significant contribution to nonattainment, interference with maintenance, interference with Prevention of Significant Deterioration, and interference with visibility protection, unless, prior to the EPA promulgating a FIP, the state submits, and the EPA approves, a SIP that meets these requirements.

DATES: This final rule is effective on January 25, 2018.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R01-OAR-2017-0695. All documents in the dockets are listed on <http://www.regulations.gov>. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available at <http://www.regulations.gov> or at the U.S. Environmental Protection Agency, EPA New England Regional Office, Office of Ecosystem Protection, Air Quality Planning Unit, 5 Post Office Square—Suite 100, Boston, MA. The EPA requests that if at all possible, you contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section to view the hard copy of the docket. The Regional Office's official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m., excluding federal holidays.

FOR FURTHER INFORMATION CONTACT: Alison C. Simcox, Environmental Scientist, Air Quality Planning Unit, Air Programs Branch (Mail Code OEP05-02), U.S. Environmental Protection Agency, Region 1, 5 Post Office Square, Suite 100, Boston, Massachusetts 02109-3912; (617) 918-1684; simcox.alison@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Notice and Comment Under the Administrative Procedures Act (APA)

Section 553 of the APA, 5 U.S.C. 553(b)(3)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. The EPA has determined that there is good cause for making this rule final without prior proposal and opportunity for comment because no significant EPA judgment is involved in making a finding of failure to submit SIPs, or elements of SIPs, required by the CAA, where states have made no submissions or incomplete submissions, to meet the requirement. Thus, notice and public procedure are unnecessary. The EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(3)(B).

B. How is the Preamble Organized?

Table of Contents

- I. General Information
- II. Background and Overview
 - A. Interstate Transport SIPs
 - B. Background on the 2012 Annual PM_{2.5} NAAQS
- III. Finding of Failure To Submit for Massachusetts
- IV. Environmental Justice Considerations
- V. Statutory and Executive Order Reviews

II. Background and Overview

A. Interstate Transport SIPs

CAA section 110(a) imposes an obligation upon states to submit SIPs that provide for the implementation, maintenance and enforcement of a new or revised NAAQS within three years following the promulgation of that NAAQS. Section 110(a)(2) lists specific requirements that states must meet in these SIP submissions, as applicable. The EPA refers to this type of SIP submission as the “infrastructure” SIP because it ensures that states can implement, maintain and enforce the air standards. Within these requirements, section 110(a)(2)(D)(i) contains requirements to address interstate transport of NAAQS pollutants. A SIP revision submitted for this sub-section is referred to as an “interstate transport SIP.” In turn, section 110(a)(2)(D)(i)(I) requires that such a plan contain adequate provisions to prohibit emissions from the state that will contribute significantly to nonattainment of the NAAQS in any other state (“prong 1”) or interfere with maintenance of the NAAQS in any other state (“prong 2”). Section

110(a)(2)(D)(i)(II) requires that such a plan contain adequate provisions to prohibit emissions from the state that will interfere with measures required of any other state to prevent significant deterioration of air quality (“prong 3”) or that will interfere with measures required of any other state to protect visibility (“prong 4”). These are the requirements relevant to this finding.

Pursuant to CAA section 110(k)(1)(B), the EPA must determine no later than six months after the date by which a state is required to submit a SIP whether a state has made a submission that meets the minimum completeness criteria established per section 110(k)(1)(A). The EPA refers to the determination that a state has not submitted a SIP submission that meets the minimum completeness criteria as a “finding of failure to submit.” If the EPA finds a state has failed to submit a SIP to meet its statutory obligation to address section 110(a)(2)(D)(i), pursuant to section 110(c)(1) the EPA has not only the authority, but the obligation, to promulgate a FIP within two years to address the CAA requirement. This finding therefore starts a two-year clock for promulgation by the EPA of a FIP, in accordance with section 110(c)(1), unless prior to such promulgation the state submits, and the EPA approves, a submittal to meet the requirements of section 110(a)(2)(D)(i) for the 2012 annual PM_{2.5} NAAQS. The EPA will work with the state subject to this finding of failure to submit and provide assistance as necessary to help the state develop an approvable submittal in a timely manner. The EPA notes this action does not start a mandatory sanctions clock pursuant to CAA section 179 because this finding of failure to submit does not pertain to a part D plan for nonattainment areas required under section 110(a)(2)(I) or a SIP call pursuant to section 110(k)(5).

B. Background on the 2012 Annual PM_{2.5} NAAQS

On December 14, 2012, the EPA promulgated a revised primary annual PM_{2.5} NAAQS to provide increased protection of public health and welfare from fine particle pollution.¹ In that action, the EPA revised the primary annual PM_{2.5} standard, strengthening it from 15.0 micrograms per cubic meter (µg/m³) to 12.0 µg/m³, which is attained when the three-year average of the annual arithmetic means does not exceed 12.0 µg/m³. Infrastructure SIPs addressing the revised standard were

due on December 14, 2015. CAA § 110(a)(1).

III. Finding of Failure To Submit for Massachusetts

To date, Massachusetts has not submitted a good neighbor SIP for the 2012 annual PM_{2.5} NAAQS. Accordingly, the EPA is issuing a finding that Massachusetts has failed to submit a SIP addressing the requirements of section 110(a)(2)(D)(i) of the CAA, 42 U.S.C. 7410(a)(2)(D)(i) (prongs 1–4), for the 2012 annual PM_{2.5} NAAQS.

IV. Environmental Justice Considerations

This notice is making a procedural finding that Massachusetts has failed to submit a SIP to address CAA section 110(a)(2)(D)(i) for the 2012 annual PM_{2.5} NAAQS. The EPA did not conduct an environmental analysis for this rule, because this rule would not directly affect the air emissions from particular sources. Because this rule will not directly affect the air emissions from particular sources, it does not affect the level of protection provided to human health or the environment. Therefore, this action will not have potential disproportionately high and adverse human health or environmental effects on minority, low-income or indigenous populations.

V. Statutory and Executive Order Reviews

A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This action is not a significant regulatory action and was therefore not submitted to the Office of Management and Budget (OMB) for review.

B. Executive Order 13771: Reducing Regulations and Controlling Regulatory Costs

This action is not an Executive Order 13771 regulatory action, because it is not a significant regulatory action under Executive Order 12866.

C. Paperwork Reduction Act (PRA)

This action does not impose an information collection burden under the provisions of the PRA, 44 U.S.C. 3501 *et seq.* This final rule does not establish any new information collection requirement apart from what is already required by law.

D. Regulatory Flexibility Act (RFA)

This action is not subject to the RFA. The RFA applies only to rules subject to notice and comment rulemaking

requirements under the APA, 5 U.S.C. 553, or any other statute. This rule is not subject to notice and comment requirements, because the agency has invoked the APA “good cause” exemption under 5 U.S.C. 553(b).

E. Unfunded Mandates Reform Act of 1995 (UMRA)

This action does not contain any unfunded mandate as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. The action implements mandates specifically and explicitly set forth in the CAA under section 110(a) without the exercise of any policy discretion by the EPA.

F. Executive Order 13132: Federalism

This action does not have federalism implications. It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

G. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications as specified in Executive Order 13175. This rule responds to the requirement in the CAA for states to submit SIPs under section 110(a) to address CAA section 110(a)(2)(D)(i) for the 2012 annual PM_{2.5} NAAQS. No tribe is subject to the requirement to submit an implementation plan under section 110(a) within 3 years of promulgation of a new or revised NAAQS. Thus, Executive Order 13175 does not apply to this action.

H. Executive Order 13045: Protection of Children From Environmental Health and Safety Risks

The EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern environmental health or safety risks that the EPA has reason to believe may disproportionately affect children, per the definition of “covered regulatory action” in section 2–202 of the Executive Order. This action is not subject to Executive Order 13045, because it does not concern an environmental health risk or safety risk.

I. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution or Use

This action is not subject to Executive Order 13211, because it is not a significant regulatory action under Executive Order 12866.

¹ 78 FR 3086; January 15, 2013.

J. National Technology Transfer and Advancement Act

This rulemaking does not involve technical standards.

K. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

The EPA believes the human health or environmental risk addressed by this action will not have potential disproportionately high and adverse human health or environmental effects on minority, low-income or indigenous populations, because it does not affect the level of protection provided to human health or the environment. The EPA's evaluation of environmental justice considerations is contained in section IV of this notice.

L. Congressional Review Act (CRA)

This action is subject to the CRA, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

M. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by February 26, 2018. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

[EPA-R03-OAR-2017-0509; FRL-9972-52-Region 3]

Full Withdrawal of Approval and Promulgation of State Air Quality Plans for Designated Facilities and Pollutants; City of Philadelphia; Control of Emissions From Existing Sewage Sludge Incineration Units

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: Due to the receipt of an adverse comment, the Environmental Protection Agency (EPA) is withdrawing the October 26, 2017 direct final rule (DFR) that approved a negative declaration submitted by the City of Philadelphia. The negative declaration certified that no existing sewage sludge incineration (SSI) units exist within the City of Philadelphia. EPA stated in the direct final rule that if EPA received adverse comments by November 27, 2017, the rule would be withdrawn and not take effect. EPA subsequently received an adverse comment. This withdrawal action is being taken under sections 129 and 111(d) of the Clean Air Act.

DATES: The direct final rule published at 82 FR 49511 on October 26, 2017, is withdrawn effective December 26, 2017.

ADDRESSES: EPA has established docket number EPA-R03-OAR-2017-0509 for this action. The index to the docket is available electronically at <http://www.regulations.gov> and in hard copy at Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.

FOR FURTHER INFORMATION CONTACT: Mr. Mike Gordon, (215) 814-2039, or by email at gordon.mike@epa.gov.

SUPPLEMENTARY INFORMATION: Philadelphia Air Management Services submitted a negative declaration letter to EPA certifying on March 28, 2012 that there are no SSI units subject to the requirements of sections 111(d) and 129 of the CAA in its respective air pollution control jurisdiction. The negative declaration letter and EPA's technical support document for this action are available in the docket for this rulemaking and available online at www.regulations.gov.

Please see additional information provided in the direct final action published in the **Federal Register** on October 26, 2017 (82 FR 49511) and in

the companion proposed rule which was also published on October 26, 2017 (82 FR 49563). In the DFR, we stated that if we received adverse comment by November 27, 2017, the rule would be withdrawn and not take effect. EPA subsequently received an adverse comment. EPA will address the comment received in a subsequent final action based upon the proposed action also published on October 26, 2017. EPA will not institute a second comment period on this action. As a result of the comment received, EPA is withdrawing the direct final rule approving the negative declaration submitted by the City of Philadelphia for existing SSI units.

List of Subjects in 40 CFR Part 62

Environmental protection, Administrative practice and procedure, Air pollution control, Intergovernmental relations, Reporting and recordkeeping requirements, Waste treatment and disposal.

Dated: December 15, 2017.

Approval and Promulgation of Air Quality Implementation Plans; Maryland; Continuous Opacity Monitoring Requirements for Municipal Waste Combustors; Withdrawal of Direct Final Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: Due to the receipt of an adverse comment, the Environmental Protection Agency (EPA) is withdrawing the November 6, 2017 direct final rule (DFR) that approved revisions to the State of Maryland's Clean Air Act (CAA) section 111(d)/129 State Plan for municipal waste combustors (MWCs). The revisions contain Maryland's amendments to Regulations .07 and .08 under the Code of Maryland Regulations (COMAR) 26.11.08. This withdrawal
