

countries are Burkina Faso, Mongolia, Senegal, Sri Lanka, and Tunisia. The Board reselected these countries based on their continued or improved policy performance since their prior selection. Lesotho, which had originally been selected for compact assistance for FY 2014, received vote deferrals for reselection in FY 2016 and FY 2017. Due to positive actions taken by the Government of Lesotho this year, the Board has once again selected the country for compact assistance for FY 2018.

#### *Countries Selected To Receive Threshold Program Assistance*

The Board selected The Gambia to receive threshold program assistance.

*The Gambia:* The Gambia offers MCC the opportunity to support the government as it continues its democratic transition following the inauguration of its new president in early 2017 and successful legislative elections in April 2017. While it has historically struggled to pass the MCC scorecard due to its performance on the democratic rights hard hurdle, the recent transition and reforms being pursued suggest the country will see strong improvements on these indicators in the coming years. The Gambia meets 12 of 20 indicators overall on the scorecard and demonstrates good performance on the control of corruption indicator.

#### *Ongoing Review of Partner Countries' Policy Performance*

The Board emphasized the need for all partner countries to maintain or improve their policy performance. If it is determined during compact implementation that a country has demonstrated a significant policy reversal, MCC can hold it accountable by applying MCC's Suspension and Termination Policy.<sup>4</sup>

## NATIONAL SCIENCE FOUNDATION

### Agency Notice of Record of Decision for the Arecibo Observatory in Puerto Rico

**AGENCY:** National Science Foundation.

**ACTION:** Notice of Record of Decision.

**SUMMARY:** On November 15, 2017, the National Science Foundation (NSF) signed a Record of Decision (ROD) for the Arecibo Observatory in Puerto Rico. This important step concludes the agency's decision-making process with respect to the general path forward for facility operations in a budget-constrained environment, and provides the basis for a future decision regarding a new collaborator.

**FOR FURTHER INFORMATION CONTACT:**

Elizabeth A. Pentecost, Project Administrator, National Science Foundation, Division of Astronomical Sciences, 2415 Eisenhower Avenue, Room W 9152, Alexandria, VA 22314. Telephone: 703-292-4907, Email: [epenteco@nsf.gov](mailto:epenteco@nsf.gov).

**SUPPLEMENTARY INFORMATION:** NSF issued its ROD following authorization from the National Science Board on November 9, 2017. The ROD was preceded by an extensive environmental impact analysis and broad input from the public and the scientific community, including the National Academies 6th Decadal Survey released in 2010, the NSF Division of Astronomical Sciences Portfolio Review Committee Report released in 2012, and the NSF Geospace Sciences Portfolio Review Committee Report released in 2016.

The ROD formalizes the selection of NSF's Preferred Alternative: collaboration with interested parties to maintain science-focused operations at the Observatory with reduced agency funding. The selection of this Alternative will allow important research to continue while accommodating the agency's budgetary constraints and its core mission to
