Animal & Plant Health Inspection Service

Title: Gypsy Moth Identification Worksheet.

OMB Control Number: 0579–0104.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701— *et seq.*), the Secretary of Agriculture either independently or in cooperation with the States, is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pest new to the United States or not widely distributed throughout the United States. The Plant Protection and Quarantine (PPQ), a program within the Animal and Plant Health Inspection Service (APHIS), is responsible for implementing the intent of this Act, and does so through the enforcement of its Domestic Quarantine Regulations contained in Title 7 of the Code of Federal Regulations (CFR) Part 301. The European gypsy moth is one of the most destructive pests of fruit and ornamental trees as well as hardwood forests. The Asian gypsy moth is an exotic strain of gypsy moth that is closely related to the European variety already established in the U.S. Due to significant behavioral differences, this strain is considered to pose an even greater threat to trees and forested areas. In order to determine the presence and extent of a European gypsy moth or an Asian gypsy moth infestation, APHIS sets traps in high-risk areas to collect specimens.

Need and Use of the Information: APHIS will collect information from the Specimens for Determination, PPQ Form 391, to identify and track specific specimens that are sent to the Otis Development Center for identification tests based on DNA analysis. This

information collected is vital to APHIS' ability to monitor, detect, and eradicate gypsy moth infestations and the worksheet is completed only when traps are found to contain specimens.

Information on the worksheet includes the name of the submitter, the submitter's agency, the date collected, the trap number, the trap's location (including the nearest port of entry), the number of specimens in the trap, and the date the specimen was sent to the laboratory. APHIS will also use the Gypsy Moth Checklist and Record Your Self-Inspection, PPQ Form 377 to collect information on required inspection of outdoor household articles that are to be moved from a gypsy moth quarantined area to a non-quarantined area to ensure that they are free of all life stages of gypsy moth.

Description of Respondents:

Individuals or households; State, Local or Tribal Government; and Business.

Number of Respondents: 2,500,100.

Frequency of Responses:

Recordkeeping; Reporting; On occasion.

Total Burden Hours: 2,711,543.

Animal and Plant Health Inspection Service

Title: Karnal Bunt; Revision of Regulations for Importing Wheat.

OMB Control Number: 0579–0240.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701–7772), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The Animal and Plant Health Inspection Service (APHIS), domestic Karnal bunt regulations are contained in Subpart-Karnal Bunt (7 CFR 301.89–1 through 301.89–16). Karnal bunt is a fungal disease of wheat. Karnal bunt is caused by the smut fungus *Tilletia indica* (Mitra) Mundkur and is spread by spores, primarily through the movement of infected seed.

Need and Use of the Information: In order for APHIS to verify that the articles are being imported in compliance with the regulations, the articles would have to be accompanied by a phytosanitary certificate issued by the national plant protection organization of the region of origin. The certificate must include a declaration stating that the regulated articles originated in areas where Karnal bunt is not known to occur, as attested to either by survey resulting or by testing for bunted karnals or spores.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 4.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 150.

BILLING CODE P

SUMMARY: The Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of the firms contributed importantly to the total or partial separation of the firms' workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

SUPPLEMENTARY INFORMATION:

Any party having a substantial interest in these proceedings may request a public hearing on the matter. A written request for a hearing must be submitted to the Trade Adjustment Assistance Division, Room 71030, Economic Development Administration, U.S. Department of Commerce, Washington, DC 20230, no later than ten (10) calendar days following publication of this notice. These petitions are received pursuant to section 251 of the Trade Act of 1974, as amended.
