

protective of human health and the environment. No further Superfund response is necessary to protect human health and the environment.

The Site Deletion procedures specified in 40 CFR 300.425(e) have been followed for the deletion of the Site.

V. Deletion Action

EPA, with concurrence of the Commonwealth through PADEP, has determined that all appropriate response actions under CERCLA, have been completed. Therefore, EPA is deleting the Site from the NPL.

Because EPA considers this action to be noncontroversial and routine, EPA is taking it without prior publication. This action will be effective February 26, 2018 unless EPA receives adverse comments by January 25, 2018. If adverse comments are received within the 30-day public comment period, EPA will publish a timely withdrawal of this direct final notice of deletion before the effective date of the deletion, and it will not take effect. EPA will prepare a response to comments and continue with the deletion process on the basis of the notice of intent to delete and the comments already received. There will be no additional opportunity to comment.

Community Right-To-Know; Adopting 2017 North American Industry Classification System (NAICS) Codes for Toxics Release Inventory (TRI) Reporting; Final Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: In the *Federal Register* of August 17, 2017, EPA published both a direct final rule and a proposed rule to update the list of North American Industry Classification System (NAICS) codes subject to reporting under the Toxics Release Inventory (TRI) to reflect the Office of Management and Budget (OMB) 2017 NAICS code revision. As noted in the direct final rule, if EPA received relevant adverse comment on the proposed update, the Agency would publish a timely withdrawal of the direct final rule in the *Federal Register* informing the public that the direct final action will not take effect, and instead proceed to issue a final rule based on the parallel proposed rule. The Agency did receive a relevant adverse comment on the proposed update, and withdrew the direct final rule. This final rule addresses the comment made on EPA’s proposed rulemaking previously published for this action.

DATES: This final rule is effective on January 1, 2018.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA–HQ–OPPT–2017–0197, is available at <http://www.regulations.gov> or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the OPPT Docket is (202) 566–0280. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

SUPPLEMENTARY INFORMATION:

I. Does this action apply to me?

You may be potentially affected by this action if you own or operate facilities that have 10 or more full-time employees or the equivalent of 20,000 employee hours per year that manufacture, process, or otherwise use toxic chemicals listed on the TRI, and that are required under section 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA) or section 6607 of the Pollution Prevention Act (PPA) to report annually to EPA and States or Tribes their environmental releases or other waste management quantities of covered chemicals. (A rule was published on April 19, 2012 (77 FR 23409), requiring facilities located in Indian country to report to the appropriate tribal government official and EPA instead of to the state and EPA).

The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Facilities included in the following 2012 NAICS manufacturing codes (corresponding to Standard Industrial Classification (SIC) codes 20 through 39): 311*, 312*, 313*, 314*, 315*, 316, 321, 322, 323*, 324, 325*, 326*, 327, 331, 332, 333, 334*, 335*, 336, 337*, 339*, 111998*, 211112*, 212324*, 212325*, 212393*, 212399*, 488390*, 511110, 511120, 511130, 511140*, 511191, 511199, 512220, 512230*, 519130*, 541712*, or 811490*.
- (*Exceptions and/or limitations exist for these NAICS codes.)

- Facilities included in the following 2012 NAICS codes (corresponding to SIC codes other than SIC codes 20 through 39): 212111, 212112, 212113 (corresponds to SIC code 12, Coal Mining (except 1241)); or 212221, 212222, 212231, 212234, 212299 (corresponds to SIC code 10, Metal Mining (except 1011, 1081, and 1094)); or 221111, 221112, 221113, 221118, 221121, 221122, 221330 (limited to facilities that combust coal and/or oil for the purpose of generating power for

distribution in commerce) (corresponds to SIC codes 4911, 4931, and 4939, Electric Utilities); or 424690, 425110, 425120 (limited to facilities previously classified in SIC code 5169, Chemicals and Allied Products, Not Elsewhere Classified); or 424710 (corresponds to SIC code 5171, Petroleum Bulk Terminals and Plants); or 562112 (limited to facilities primarily engaged in solvent recovery services on a contract or fee basis (previously classified under SIC code 7389, Business Services, NEC)); or 562211, 562212, 562213, 562219, 562920 (limited to facilities regulated under the Resource Conservation and Recovery Act, subtitle C, 42 U.S.C. 6921 *et seq.*) (corresponds to SIC code 4953, Refuse Systems).

- Federal facilities. Under Executive Order 13693 (80 FR 15871, March 25, 2015), all federal facilities are required to comply with the provisions set forth in section 313 of EPCRA and section 6607 of the PPA. On June 10, 2015, the White House Council on Environmental Quality (CEQ) issued *Instructions for Implementing Executive Order 13693*, requiring federal agencies and contractors to comply with these laws regardless of NAICS code delineations (see 80 FR 34149, June 15, 2015).

If you have any questions regarding the applicability of this action to a

particular entity, consult the technical person listed in the **FOR FURTHER INFORMATION CONTACT** section.

II. Background

A. What is the Agency's authority for taking this action?

EPA is taking final action under sections 313(g)(1) and 328 of EPCRA, 42 U.S.C. 11023(g)(1) and 11048. In general, section 313 of EPCRA requires owners and operators of covered facilities in specified SIC codes that manufacture, process, or otherwise use listed toxic chemicals in amounts above specified threshold levels to report certain facility specific information about such chemicals, including the annual releases and other waste management quantities. Section 313(g)(1) of EPCRA requires EPA to publish a uniform toxic chemical release form for these reporting purposes, and it also prescribes, in general terms, the types of information that must be submitted on the form. Congress also granted EPA broad rulemaking authority to allow the Agency to fully implement the statute. EPCRA section 328 states that: "The Administrator may prescribe such regulations as may be necessary to carry out this chapter." 42 U.S.C. 11048.

B. What action is the Agency taking?

In response to OMB's revisions to the NAICS codes effective January 1, 2017, EPA is amending 40 CFR part 372 to include the relevant 2017 NAICS codes for TRI reporting. EPA is also modifying the list of exceptions and limitations previously included in the CFR for the applicable NAICS codes for TRI reporting purposes.

Under this action, TRI reporting requirements remain unchanged. However, due to the 2017 NAICS modifications, some facilities will need to modify their reported NAICS codes as outlined in the table in Unit II.B., which identifies only the revised TRI NAICS reporting codes and is not an exhaustive list of all NAICS reporting codes subject to EPCRA section 313 and PPA section 6607. A complete listing of all TRI covered facilities can be found in the regulations at 40 CFR 372.23.

The Agency received a comment on the proposed rule, which is addressed more fully in Unit II.C., stating that the listing of updated NAICS codes in the CFR text was incomplete, in that it did not include the update to the code for natural gas extraction facilities. The Agency agrees with that comment and is including the update for that NAICS code in the table in Unit II.B. and in the final CFR text.

541712	Research and Development in the Physical, Engineering, and Life Sciences (except Biotechnology).	541713	Research and Development in Nanotechnology. <i>This merges both TRI-covered and non-TRI-covered NAICS codes. Only 541712 (Research and Development in the Physical, Engineering, and Life Sciences (except Biotechnology)) was covered by TRI. TRI will note that only the "Research and Development in the Physical, Engineering, and Life Sciences (except Biotechnology)" facilities under NAICS code 541713 are required to report. TRI does not include all facilities classified under NAICS code 541712, and the same limitations will be extended to NAICS code 541713.</i>

TRI will specify which facilities under NAICS code 541715 are required to report.</i>

* A conforming update is also being made to 40 CFR 372.38(h).

Crosswalk tables between all 2012 NAICS codes and 2017 NAICS codes can be found on the internet at <http://www.census.gov/epcd/www/naics.html>.

EPA is also modifying the list of exceptions and limitations previously included in the CFR for the applicable NAICS codes for TRI reporting purposes. Because NAICS codes may cross-reference some SIC codes in both TRI-covered and non-covered TRI sectors, EPA has historically included descriptive text in 40 CFR part 372 to help indicate exceptions and limitations to TRI coverage for a specific NAICS code in order to better correspond with the previous SIC code descriptors. However, OMB updates NAICS codes every five years, and these updates may require a corresponding change by EPA to the regulatory text describing any exceptions or limitations to the scope of a particular NAICS code. Consequently, this descriptive text does not always align fully with SIC codes' full descriptions.

For example, historically, 40 CFR part 372 would list NAICS code 323211 with the following exception: "Exception is limited to facilities primarily engaged in reproducing text, drawings, plans, maps, or other copy, by blueprinting, photocopying, mimeographing, or other methods of duplication other than printing or microfilming (*i.e.*, instant printing) (previously classified under SIC 7334, Photocopying and Duplicating Services, (instant printing))". This action simplifies the listing to display only the SIC code and title rather than include the description: "Exception is limited to facilities previously classified under SIC 7334, Photocopying and Duplicating Services". The Agency received no comments, adverse or otherwise, on this type of modification, and so is finalizing this language in the CFR.

Moving forward, in 40 CFR part 372, EPA will not include descriptive text for SIC codes when listing the limitations and exceptions applicable to TRI-covered NAICS codes. Instead, the Agency will simply list the SIC codes, including their titles, as applicable limitations and exceptions. Because exceptions and limitations are included in 40 CFR part 372.23(b) and (c) to align

the listing of NAICS codes with the list of SIC codes covered by TRI reporting requirements as shown in 40 CFR part 372.23(a), the SIC codes rather than the descriptive text defines the types of facilities covered by TRI. By removing the descriptive text from the exceptions and limitations listed in these two paragraphs, this action mitigates potential confusion caused by qualitative descriptions of SIC codes and does not alter the universe of the facilities affected by TRI reporting requirements. Facilities with questions regarding the SIC code descriptions should refer to the SIC manual, available at: <https://www.osha.gov/pls/imis/sicsearch.html>.

C. Why did the Agency withdraw the direct final rule?

EPA previously received relevant adverse public comment on the direct final rule. While the commenter largely supported the update to OMB's 2017 NAICS codes, it noted that the 2012 NAICS code 211112 (Natural Gas Liquid Extraction) was not included in the direct final rule's revised codes, although OMB had updated NAICS code 211112 to NAICS code 211130 (Natural Gas Extraction) in 2017. EPA agrees with this comment. The 2012 NAICS code 211112, which was updated to 211130 in the 2017 NAICS codes revision, was intended to be captured in the direct final rule. The direct final inadvertently omitted this update. Thus, EPA withdrew the direct final and is proceeding to amend the NAICS code list with this final rule.

D. What are the incremental impacts of this action?

EPA analyzed the potential costs and benefits associated with this action, and determined that since this action will not add or remove any reporting requirements, there is no net increase in respondent burden or other economic impacts.

III. Statutory and Executive Order Reviews

Additional information about these statutes and Executive Orders can be found at <http://www2.epa.gov/laws-regulations/laws-and-executive-orders>.

A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This action is not a significant regulatory action and was therefore not submitted to the Office of Management and Budget (OMB) for review.

B. Executive Order 13771: Reducing Regulations and Controlling Regulatory Costs

This action is not expected to be an Executive Order 13771 regulatory action because this action is not significant under Executive Order 12866.

C. Paperwork Reduction Act (PRA)

This action does not impose any new information collection burden. Facilities that are affected by the rule are already required to report their industrial classification codes on the approved reporting forms under section 313 of EPCRA and 6607 of the PPA. In addition, OMB has previously approved the information collection requirements contained in 40 CFR part 372 under the provisions of the PRA, 44 U.S.C. 3501 *et seq.*, and has assigned OMB control number 2025-0009 (EPA ICR No. 1363-21) for Form R and Form A. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

D. Regulatory Flexibility Act (RFA)

I certify that this action will not have a significant economic impact on a substantial number of small entities under the RFA. In making this determination, the impact of concern is any significant adverse economic impact on small entities. An agency may certify that a rule will not have a significant economic impact on a substantial number of small entities if the rule relieves regulatory burden, has no net burden or otherwise has a positive economic effect on the small entities subject to the rule. This final rule adds no new reporting requirements, and there would be no net increase in respondent burden. This rule would only update the NAICS codes already reported by respondents. This final rule will not impose any requirements on small entities.

E. Unfunded Mandates Reform Act (UMRA)

This action does not contain any unfunded mandate as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. The action would impose no enforceable duty on any state, local or tribal governments or the private sector.

F. Executive Order 13132: Federalism

This action does not have federalism implications. It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. The action would impose no enforceable duty on any state, local or tribal governments or the private sector.

G. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications as specified in Executive Order 13175. This final rule will not impose substantial direct compliance costs on Indian tribal governments. Thus, Executive Order 13175 does not apply to this action.

H. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

The EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern environmental health or safety risks that the EPA has reason to believe may disproportionately affect children, per the definition of “covered regulatory

action” in section 2–202 of the Executive Order. This action is not subject to Executive Order 13045 because it does not concern an environmental health risk or safety risk.

I. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution or Use

This action is not subject to Executive Order 13211, because it is not a significant regulatory action under Executive Order 12866.

J. National Technology Transfer and Advancement Act (NTTAA)

This rulemaking does not involve technical standards.

K. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

The EPA believes that this action is not subject to Executive Order 12898 (59 FR 7629, February 16, 1994) because it does not establish an environmental health or safety standard. This regulatory action is a procedural change and does not have any impact on human health or the environment.

IV. Congressional Review Act (CRA)

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

E. Scott Pruitt,
Administrator.

Therefore, 40 CFR chapter I is amended as follows:

PART 372—[AMENDED]

■ 1. The authority citation for part 372 continues to read as follows:

Authority: 42 U.S.C. 11023 and 11048.

■ 2. Amend § 372.22 by revising paragraph (b) introductory text to read as follows:

§ 372.22 Covered facilities for toxic chemical release reporting.

* * * * *

(b) The facility is in a Standard Industrial Classification (SIC) (as in effect on January 1, 1987) major group or industry code listed in § 372.23(a), for which the corresponding North American Industry Classification System (NAICS) (as in effect on January 1, 2017, for reporting year 2018 and thereafter) subsector and industry codes are listed in §§ 372.23(b) and 372.23(c) by virtue of the fact that it meets one of the following criteria:

* * * * *

■ 3. Amend § 372.23 by revising paragraphs (b) and (c) to read as follows:

§ 372.23 SIC and NAICS codes to which this Part applies.

* * * * *

(b) NAICS codes that correspond to SIC codes 20 through 39.

212111—Bituminous Coal and Lignite Surface Mining	
212112—Bituminous Coal and Underground Mining	
212113—Anthracite Mining	
212221—Gold Ore Mining	
212222—Silver Ore Mining	
212230—Copper, Nickel, Lead, and Zinc Mining	
212299—Other Metal Ore Mining	
221111—Hydroelectric Power Generation	Limited to facilities that combust coal and/or oil for the purpose of generating power for distribution in commerce.
221112—Fossil Fuel Electric Power Generation	Limited to facilities that combust coal and/or oil for the purpose of generating power for distribution in commerce.
221113—Nuclear Electric Power Generation	Limited to facilities that combust coal and/or oil for the purpose of generating power for distribution in commerce.
221118—Other Electric Power Generation	Limited to facilities that combust coal and/or oil for the purpose of generating power for distribution in commerce.
221121—Electric Bulk Power Transmission and Control	Limited to facilities that combust coal and/or oil for the purpose of generating power for distribution in commerce.
221122—Electric Power Distribution	Limited to facilities that combust coal and/or oil for the purpose of generating power for distribution in commerce.
221330—Steam and Air Conditioning Supply	Limited to facilities previously classified under SIC 4939, Combination Utility Services, Not Elsewhere Classified.
424690—Other Chemical and Allied Products Merchant Wholesalers	
424710—Petroleum Bulk Stations and Terminals	
425110—Business to Business Electronic Markets	Limited to facilities previously classified in SIC 5169, Chemicals and Allied Products, Not Elsewhere Classified.
425120—Wholesale Trade Agents and Brokers	Limited to facilities previously classified in SIC 5169, Chemicals and Allied Products, Not Elsewhere Classified.
562112—Hazardous Waste Collection	Limited to facilities primarily engaged in solvent recovery services on a contract or fee basis and previously classified under SIC 7389, Business Services, Not Elsewhere Classified;
562211—Hazardous Waste Treatment and Disposal	Limited to facilities regulated under the Resource Conservation and Recovery Act, subtitle C, 42 U.S.C. 6921 <i>et seq.</i>
562212—Solid Waste Landfill	Limited to facilities regulated under the Resource Conservation and Recovery Act, subtitle C, 42 U.S.C. 6921 <i>et seq.</i>
562213—Solid Waste Combustors and Incinerators	Limited to facilities regulated under the Resource Conservation and Recovery Act, subtitle C, 42 U.S.C. 6921 <i>et seq.</i>
562219—Other Nonhazardous Waste Treatment and Disposal	Limited to facilities regulated under the Resource Conservation and Recovery Act, subtitle C, 42 U.S.C. 6921 <i>et seq.</i>
562920—Materials Recovery Facilities	Limited to facilities regulated under the Resource Conservation and Recovery Act, subtitle C, 42 U.S.C. 6921 <i>et seq.</i>

■ 4. Amend § 372.38 by revising paragraph (h) to read as follows:

§ 372.38 Exemptions.

* * * * *

(h) *Metal mining overburden.* If a toxic chemical that is a constituent of overburden is processed or otherwise

used by facilities in SIC code 10, or in NAICS codes 212221, 212222, 212230 or 212299, a person is not required to consider the quantity of the toxic chemical so processed, or otherwise used when determining whether an applicable threshold has been met under § 372.25, § 372.27, or § 372.28, or

determining the amounts to be reported under § 372.30.
