**DEPARTMENT OF JUSTICE**

**Notice of Lodging of Proposed Consent Decree Under the Clean Air Act**

On December 22, 2017, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Middle District of Louisiana in the lawsuit entitled *United States et al. v. Sid Richardson Carbon, LTD.*, (M.D. La.), Civil Case. No. 3:17-cv-01792-SDD-RLB.

In this civil enforcement action under the federal Clean Air Act (“Act”), the United States, the Louisiana Department of Environmental Quality, and the State of Texas allege that Sid Richardson Carbon, LTD. (“Defendant”), failed to comply with certain requirements of the Act intended to protect air quality at three carbon black manufacturing facilities in Addis, Louisiana and Borger and Big Spring, Texas. The complaint seeks injunctive relief and civil penalties for violations of the Clean Air Act’s Prevention of Significant Deterioration (“PSD”) provisions, 42 U.S.C. 7470-92; the Act’s Nonattainment New Source Review provisions, 42 U.S.C. 7501-7515; the Act’s National Emissions Standards for Hazardous Air Pollutants, 42 U.S.C. 7412; and various Clean Air Act implementing regulations. The complaint alleges that Defendant failed to obtain appropriate permits and failed to install and operate required pollution control devices to reduce emissions of sulfur dioxide (“SO<sub>2</sub>”), nitrogen oxides (“NO<sub>x</sub>”), and/or particulate matter (“PM”) at the Addis, Borger, and Big Spring facilities.

The proposed Consent Decree would resolve violations for certain provisions of the Act at the three facilities, and would require the Defendant to reduce harmful SO<sub>2</sub>, NO<sub>x</sub>, and PM emissions through the installation and operation of

pollution controls. The Defendant will also spend \$490,000 to fund environmental mitigation projects that will further reduce emissions and benefit communities adversely affected by the pollution from the facilities, and pay a civil penalty of \$999,000.
