### Appendix

#### Scope of the Order

The merchandise covered by this order is softwood lumber, siding, flooring and certain other coniferous wood (softwood lumber products). The scope includes:

- Coniferous wood, sawn, or chipped lengthwise, sliced or peeled, whether or not planed, whether or not sanded, or whether or

not finger-jointed, of an actual thickness exceeding six millimeters.

- Coniferous wood siding, flooring, and other coniferous wood (other than moldings and dowel rods), including strips and friezes for parquet flooring, that is continuously shaped (including, but not limited to, tongued, grooved, rebated, chamfered, V-jointed, beaded, molded, rounded) along any of its edges, ends, or faces, whether or not planed, whether or not sanded, or whether or not end-jointed.

- Coniferous drilled and notched lumber and angle cut lumber.

- Coniferous lumber stacked on edge and fastened together with nails, whether or not with plywood sheathing.

- Components or parts of semi-finished or unassembled finished products made from subject merchandise that would otherwise meet the definition of the scope above.

Finished products are not covered by the scope of this investigation. For the purposes of this scope, finished products contain, or are comprised of, subject merchandise and have undergone sufficient processing such that they can no longer be considered intermediate products, and such products can be readily differentiated from merchandise subject to this investigation at the time of importation. Such differentiation may, for example, be shown through marks of special adaptation as a particular product. The following products are illustrative of the type of merchandise that is considered "finished" for the purpose of this scope: I-joists; assembled pallets; cutting boards; assembled picture frames; garage doors.

The following items are excluded from the scope of this investigation:

- Softwood lumber products certified by the Atlantic Lumber Board as being first produced in the Provinces of Newfoundland and Labrador, Nova Scotia, or Prince Edward Island from logs harvested in Newfoundland and Labrador, Nova Scotia, or Prince Edward Island.

- U.S.-origin lumber shipped to Canada for processing and imported into the United States if the processing occurring in Canada is limited to one or more of the following: (1) Kiln drying; (2) planing to create smooth-to-size board; or (3) sanding.

- Box-spring frame kits if they contain the following wooden pieces—two side rails, two end (or top) rails and varying numbers of slats. The side rails and the end rails must be radius-cut at both ends. The kits must be individually packaged and must contain the exact number of wooden components needed to make a particular box-spring frame, with no further processing required. None of the components exceeds 1" in actual thickness or 83" in length.

- Radius-cut box-spring-frame components, not exceeding 1" in actual thickness or 83" in length, ready for assembly without further processing. The radius cuts must be present on both ends of the boards and must be substantially cut so as to completely round one corner.

Softwood lumber product imports are generally entered under Chapter 44 of the Harmonized Tariff Schedule of the United States (HTSUS). This chapter of the HTSUS covers "Wood and articles of wood."

Softwood lumber products that are subject to this investigation are currently classifiable under the following ten-digit HTSUS subheadings in Chapter 44: 4407.10.01.01; 4407.10.01.02; 4407.10.01.15; 4407.10.01.16; 4407.10.01.17; 4407.10.01.18; 4407.10.01.19; 4407.10.01.20; 4407.10.01.42; 4407.10.01.43; 4407.10.01.44; 4407.10.01.45; 4407.10.01.46; 4407.10.01.47; 4407.10.01.48; 4407.10.01.49; 4407.10.01.52; 4407.10.01.53; 4407.10.01.54; 4407.10.01.55; 4407.10.01.56; 4407.10.01.57; 4407.10.01.58; 4407.10.01.59; 4407.10.01.64; 4407.10.01.65; 4407.10.01.66; 4407.10.01.67; 4407.10.01.68; 4407.10.01.69; 4407.10.01.74; 4407.10.01.75; 4407.10.01.76; 4407.10.01.77; 4407.10.01.82; 4407.10.01.83; 4407.10.01.92; 4407.10.01.93; 4409.10.05.00; 4409.10.10.20; 4409.10.10.40; 4409.10.10.60; 4409.10.10.80; 4409.10.20.00; 4409.10.90.20; 4409.10.90.40; and 4418.99.10.00.

Subject merchandise as described above might be identified on entry documentation as stringers, square cut box-spring-frame components, fence pickets, truss components, pallet components, flooring, and door and window frame parts. Items so identified might be entered under the following ten-digit HTSUS subheadings in Chapter 44:

4415.20.40.00; 4415.20.80.00; 4418.99.90.05; 4418.99.90.20; 4418.99.90.40; 4418.99.90.95; 4421.99.70.40; and 4421.99.97.80.

Although these HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On November 22, 2017, Commerce published the *Preliminary Determination*.<sup>1</sup> On November 24, 2017, Commerce disclosed to interested parties its calculations for the *Preliminary Determination*. On November 27, 2017, Commerce extended the period to submit ministerial error comments to December 1, 2017.<sup>2</sup> On December 1, 2017, Zhangjiagang Huacheng Import & Export Co., Ltd. (Huacheng) alleged certain ministerial errors in the *Preliminary Determination*.<sup>3</sup> Commerce did not receive ministerial error allegations from any other interested party.

##### **Period of Investigation**

The period of investigation is October 1, 2016, through March 31, 2017.

##### **Scope of the Investigation**

This investigation covers cold-drawn mechanical tubing from China. Since the publication of the *Preliminary Determination* and preliminary scope language contained therein, Commerce has evaluated relevant comments and issued its *Final Scope Determination Memorandum*.<sup>4</sup> For a complete description of the final scope of this investigation, see the Appendix to this notice.

##### **Analysis of Significant Ministerial Error Allegation**

Commerce will analyze any comments received and, if appropriate, correct any significant ministerial error by amending the preliminary determination according to 19 CFR 351.224(e). A ministerial error is defined in 19 CFR 351.224(f) as "an

<sup>2</sup> See the Department's memorandum, "Deadline for Ministerial Error Comments for the Preliminary Determination," dated November 27, 2017.

<sup>3</sup> See Huacheng's letter, "Certain Cold-Drawn Mechanical Tubing of Carbon and Alloy Steel from People's Republic of China: Ministerial Error Comments," dated December 1, 2017 (Hongyi's Ministerial Error Allegation).

<sup>4</sup> See the Department's memorandum, "Certain Cold-Drawn Mechanical Tubing of Carbon and Alloy Steel from the Federal Republic of Germany, India, Italy, the Republic of Korea, the People's Republic of China, and Switzerland: Scope Comments Decision Memorandum for the Final Determinations," dated December 4, 2017 (Scope Comments Decision Memo).

error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial."<sup>5</sup> A significant ministerial error is defined as an error, the correction of which, singly or in combination with other errors, would result in: (1) A change of at least five absolute percentage points in, but not less than 25 percent of, the antidumping duty rate calculated in the original (erroneous) preliminary determination; or (2) a difference between an antidumping duty rate of zero (or *de minimis*) and an antidumping duty rate of greater than *de minimis* or vice versa.<sup>6</sup>

Pursuant to 19 CFR 351.224(e) and (g)(1), Commerce is amending the *Preliminary Determination* to reflect the correction of four ministerial errors made in the calculation of the estimated weighted-average dumping margin for Huacheng.<sup>7</sup> These errors are significant ministerial errors within the meaning of 19 CFR 351.224(g) because Huacheng's margin decreases from 61.59 percent to 24.30 percent as a result of correcting these ministerial errors, exceeding the specified threshold, *i.e.*, a change of at least five absolute percentage points in, but not less than 25 percent of, the antidumping duty rate calculated in the original (erroneous) preliminary determination.<sup>8</sup>

Huacheng is the only mandatory respondent for which Commerce calculated a weighted-average dumping margin. For this reason, we assigned Huacheng's calculated rate to the non-examined respondents that preliminarily received a separate rate. As part of this amended preliminary determination, Commerce will accordingly amend the estimated weighted-average dumping margin for each non-examined respondent that preliminarily received a separate rate to 24.30 percent.

<sup>5</sup> See Section 735(e) of the Tariff Act of 1930, as amended (the "Act").

<sup>6</sup> See 19 CFR 351.224(g).

The Department is also correcting an additional error made in the calculation of surrogate value ratios.
