Semiannual Regulatory Agenda

AGENCY: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council pursuant to Executive Order 12866 “Regulatory Planning and Review,” 58 FR 51735 (1993), with particular adherence to EO 13771, “Reducing Regulation and Controlling Costs,” 82

348. Federal Acquisition Regulation (FAR); FAR Case 2017–014, Use of Acquisition 360 To Encourage Vendor Feedback

E.O. 13771 Designation: Other.
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113

Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to address the solicitation of contractor feedback on both contract formation and contract administration activities. Agencies would consider this feedback, as appropriate, to improve the efficiency

and effectiveness of their acquisition activities. The rule would create FAR policy to encourage regular feedback in accordance with agency practice (both on contract formation and administration activities) and a standard FAR solicitation provision to support a sustainable model for broadened use of Acquisition 360 survey to elicit feedback on the pre-award and debriefing processes in a consistent and standardized manner. Agencies would be able to use the solicitation provision to notify interested sources that a procurement is part of the Acquisition 360 survey and encourage stakeholders to voluntarily provide feedback on their experiences on the pre-award process.

349. Federal Acquisition Regulation (FAR); FAR Case 2015-021; Determination of Fair and Reasonable Prices on Orders Under Multiple Award Contracts

E.O. 13771 Designation: Other.
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113
Abstract: DoD, GSA and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to direct ordering activity contracting officers to make a determination of fair and reasonable pricing when placing an order against using GSA's Federal Supply Schedules (FSS). The Federal Acquisition Streamlining Act (FASA) of 1994 established a preference for the types of information used to assess price reasonableness.

This rule establishes a practice that will ensure that prices are fair and reasonable at the time the order is placed under the GSA's Federal Supply Schedules. This government-wide FAR rule will ensure uniform implementation of this FAR change across FAR-based contracts and avoid the proliferation of agency-wide rules and actions (e.g. revisions to FAR supplements or issuance of policy guidance) implementing this requirement.

350. Federal Acquisition Regulation (FAR); FAR Case 2015-014; Prohibition on Providing Funds to the Enemy

E.O. 13771 Designation: Other.
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to implement subtitle E of title VIII of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization

Act (NDAA) for Fiscal Year (FY) 2015, which prohibits the Government from providing funds to the enemy. The Act requires the Secretary of Defense to notify executive agencies of persons or entities providing funds under certain contracts to persons or entities that are actively opposing the United States or coalition forces where the Armed Forces are actively engaged in a contingency operation; or has failed to exercise due diligence to ensure that none of the funds under certain contracts are provided to those persons or entities. After receiving such notification, the executive agency's Head of the Contracting Activity (HCA) may rescind, void the contract or terminate for default. The HCA's decision is entered into the Federal Awardee Performance and Integrity Information System (FAPIIS), or other formal system of records. Since, review of FAPIIS is required before making certain award decision, this rule helps to prevent the flow of funds to such persons or entities. The statute does not apply to contracts that are equal to or less than \$50,000, and contracts performed inside the United States or its outlying areas, or contracts subject to a national security exception.

351. FAR Acquisition Regulation (FAR); FAR Case 2015-038, Reverse Auction Guidance

E.O. 13771 Designation: Other.
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to implement policies addressing the effective use of reverse auctions. Reverse auctions involve offerors lowering their pricing over rounds of bidding in order to win federal contracts. This change incorporates guidance from the Office of Federal Procurement Policy (OFPP) memorandum, "Effective Use of Reverse Auctions," which was issued in response to recommendations from the

GAO report, *Reverse Auctions: Guidance is Needed to Maximize Competition and Achieve Cost Savings* (GAO-14-108). Reverse auctions are one tool used by federal agencies to increase competition and reduce the cost of certain items. Reverse auctions differ from traditional auctions in that sellers compete against one another to provide the lowest price or highest-value offer to a buyer. This change to the FAR will include guidance that will standardize agencies' use of reverse auctions help agencies maximize competition and savings when using reverse auctions.

352. Federal Acquisition Regulation (FAR); FAR Case 2017-005, Whistleblower Protection for Contractor Employees

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to implement 41 U.S.C. 4712, Enhancement of contractor protection from reprisal for disclosure of certain information and makes the pilot program permanent. The pilot was enacted on January 2, 2013, by section 828 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2013. The rule makes clear that contractors and subcontractors are prohibited from discharging, demoting, or otherwise discriminating against an employee as a reprisal for disclosing, to any of the entities such as agency Inspector Generals and Congress, information the employee reasonably believes is evidence of gross mismanagement of a Federal contract; a gross waste of Federal funds; an abuse of authority relating to a Federal contract; a substantial and specific danger to public health or safety; or violation of law, rule, or regulation related to a Federal contract (including the competition for or negotiation of a contract. This rule enhances

whistleblower protections for contractor employees, by making permanent the protection for disclosure of the aforementioned information, and ensuring that the prohibition on reimbursement for legal fees accrued in defense against reprisal claims applies to subcontractors, as well as contractors.

353. Federal Acquisition Regulation; FAR Case 2016-002, Applicability of Small Business Regulations Outside the United States

E.O. 13771 Designation: Other.
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch. 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) consistent with SBA’s regulation at 13 CFR 125.2 as finalized in their rule Acquisition Process: Task and Delivery Order Contracts, Bundling, Consolidation” issued on October 2, 2013, to clarify that overseas contracting is not excluded from agency responsibilities to foster small business participation (78 FR 61113).

In its final rule, SBA has clarified that, as a general matter, its small business contracting regulations apply regardless of the place of performance. In light of these changes, there is a need to amend the FAR both to bring its coverage into alignment with SBA’s regulation and to give agencies the tools they need especially the ability to use set-asides to maximize opportunities for small businesses overseas.

SBA intends to include contracts performed outside of the United States in agencies’ prime contracting goals beginning in FY 2016. Although inclusion for goaling purposes is not dependent on FAR changes, amending FAR part 19 will allow agencies to take advantage of the tools authorized for providing small business opportunities for contracts awarded outside of the United States.

This rule will allow agencies to take advantage of the tools authorized for providing small business opportunities

for contracts awarded outside of the United States. This will make it easier for small businesses to receive additional opportunities for contracts performed outside of the United States.

Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to change

the kinds of assets that individual sureties must use as security for their individual surety bonds. This change will implement section 874 of the NDAA for FY 2016 (Pub. L. 114-92), codified at 31 U.S.C. 9310, Individual Sureties. Individual sureties will no longer be able to pledge real property, corporate stocks, corporate bonds, or irrevocable letters of credit. Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to require the use of Department of Defense (DoD) Wide Area Workflow (WAWF) for the electronic submission of the DD Form 254, Contract Security Classification Specification. This form is used to convey security requirements regarding classified information to contractors and subcontractors and must be submitted to the Defense Security Services (DSS) when contractors or subcontractors require access to classified information under contracts awarded by agencies covered by the National Industrial Security Program (NISP). By changing the submittal process of the form from a manual process to an automated one, the government will reduce the cost of maintaining the forms, while also providing a centralized repository for classified contract security requirements and supporting data.

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113

Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to incorporate revisions and updates to standards in section 508 of the Rehabilitation Act of 1973, developed by the Architectural and Transportation Barriers Compliance Board (also referred to as the “Access Board”). This FAR change incorporates the U.S. Access Board’s final rule, Information and Communication Technology (ICT) Standards and Guidelines, published on January 18, 2017, which implemented revisions and updates to the section 508-based standards and section 255-

based guidelines. This rule is expected to impose additional costs on federal agencies. The purpose is to increase productivity for federal employees with disabilities, time savings due to improved accessibility of federal websites for members of the public with disabilities, and reduced call volumes to federal agencies. Additionally, this rule harmonizes standards with national and international consensus standards which would assist American ICT companies by helping to achieve economies of scale created by wider use of these technical standards.

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113

Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to allow for incrementally funding of certain fixed-price contracting action to help minimize disruptions to agency operations, and provide Federal acquisition professionals with new funding flexibility for fixed-price contracting actions. The FAR addresses incremental funding on cost reimbursement contracts, however, does not provide coverage on fixed price contracts. Because the FAR is silent on the incremental funding of fixed-price contracts, contracting professionals endorse the full funding of fixed-price contracts as a best practice, however, in many cases full funding is not possible. Implementing this policy will provide the flexibility sought by several agencies. Although individual agencies have implemented policy changes for themselves, making this change to the FAR will provide consistency across Government agencies, from both policy and procedural perspectives.

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113

Abstract: DoD, GSA and NASA are proposing to amend the FAR Clause 52.232-32, Performance-Based Payments, to include the text for subcontract flowdown addressed at FAR 32.504(f), but not currently specified in the clause itself. No new requirements are added. This rule takes guidance to prime contractors on the terms and conditions for flowdown of performance-based payments currently in the FAR text and places it in the

applicable contract clause so that the contractor can readily see what language is to be used in subcontracts authoring performance-based payments.

362. Federal Acquisition Regulation (FAR); FAR Case 2015-004, Provisions and Clauses for Acquisitions of Commercial Items and Acquisitions That Do Not Exceed the Simplified Acquisition Threshold

E.O. 13771 Designation: Other.
Legal Authority: Not Yet Determined
Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) with an internal administrative change to support the use of automated contract writing systems and reduce FAR maintenance when clauses are updated. Currently, the FAR provides a single, consolidated list of all provisions and clauses applicable to the acquisition of commercial items. When new clauses applicable to commercial items are added the FAR, a manual process of cross checking and renumbering of the list is employed to conform the FAR. The process is cumbersome and inefficient, and challenging to maintain, especially for contract writing systems. The proposed rule would propose a change to each clause prescription and each clause flowdown for commercial items to specify required information within the prescription/clause itself, without having to cross-check another clause, list or other parts of the FAR.

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113
Abstract: The proposed rule implements section 822 of the NDAA for FY 2017 (Pub. L. 114-328) to modify the Federal Acquisition Regulation (FAR) for DoD, NASA, and the Coast Guard to amend the FAR to implement exceptions from certified cost or pricing data requirements when price is based on adequate price competition at FAR 15.403(c)(1). This rule also limits the exception for price based on adequate price competition to circumstances in which there is adequate competition that results in at least two or more responsive and viable competing bids.

364. Federal Acquisition Regulation (FAR); FAR Case 2017-010, Evaluation Factors for Multiple-Award Contracts

E.O. 13771 Designation: Other.
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to implement section 825 of the NDAA for FY 17 (Pub. L. 114-328). Section 825 amends 10 U.S.C. 2305(a)(3) to change the requirement regarding the consideration of cost or price to the Government as a factor in the evaluation of proposals for certain multiple-award task order contracts awarded by DoD, NASA, or the Coast Guard. At the Government's discretion, solicitations for multiple-award contracts, which intend to award the same or similar services to each qualifying offeror, do not require price or cost as an evaluation factor for the base contract award. This will streamline the award of contracts for DoD, NASA, and Coast Guard because they won't have to consider cost or price in the evaluation

of the award decision. Relieving the requirement to account for cost or price when evaluating proposals for these types of contracts, which feature competitive orders, will enable procurement officials to focus their energy on establishing and evaluating the non-price factors that will result in more meaningful distinctions among offerors.

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to implement the National Archives and Records Administration (NARA) Controlled Unclassified Information (CUI) program of Executive Order 13556 of Nov 4, 2010. As the executive agent designated to oversee the Governmentwide CUI program, NARA issued implementing regulations in late 2016 designed to address agency policies for designating, safeguarding, disseminating, marking, decontrolling and disposing of CUI. The NARA rule affects contractors that handle, possess, use, share or receive CUI. The NARA regulation is codified at 32 CFR 2002. This FAR rule is necessary to ensure uniform implementation of the requirements of the CUI program in contracts across the government, thereby avoiding potentially inconsistent agency-level action.

E.O. 13771 Designation: Regulatory.
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch. 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are issuing a final rule to amend the Federal Acquisition Regulation (FAR) to expand Government and contractor requirements for reporting of nonconforming items. This rule partially implements section 818 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2012 and implement requirements of the Office of Federal Procurement Policy (OFPP) Policy Letter 91-3, entitled Reporting Nonconforming Products," dated April 9, 1991. This change will help mitigate the growing threat that counterfeit items pose when used in systems vital to an agency's mission. The primary benefit of this rule is to reduce the risk of counterfeit items entering the supply chain by ensuring that contractors report suspect items to a widely available database. This will allow the

contracting officer to provide disposition instructions for counterfeit or suspect counterfeit items in accordance with agency policy. In some cases, agency policy may require the contracting officer to direct the contractor to retain such items for investigative or evidentiary purposes.

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113

Abstract: DoD, GSA, and NASA are issuing a final rule amending the Federal Acquisition Regulation (FAR) to implement a section of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015. This section requires the contract file shall contain certain documentation if the Federal Government makes a purchase of supplies and services offered under the Federal Strategic Sourcing Initiative (FSSI), but the FSSI is not used. The contract file for the purchase shall include a brief analysis of the comparative value, including price and non-price factors, between the supplies and services offered under the FSSI and those offered under the source(s) to be used for the purchase.

The rule will raise the visibility of these strategic sourcing solutions, the analysis used when not using an FSSI contract vehicle, promote their use, and help to better leverage the Government's buying power when using FSSI vehicles. Strategic Sourcing drives both dollar savings and process improvements. The Federal Government, suppliers and ultimately the U.S. taxpayers benefit when government can better articulate its requirements and provide committed purchase volumes, and in return, industry suppliers can provide better pricing and more valuable solutions.

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113

Abstract: DoD, GSA, and NASA are issuing a final rule to amend the Federal Acquisition Regulation (FAR) to clarify the guidance for sole source 8(a) contract awards exceeding \$22 million. This rule implements guidance from a Government Accountability Office (GAO) report entitled Federal Contracting: Slow Start to Implementation of Justifications for 8(a) Sole-Source Contracts" (GAO-13-118, December 2012). Sole-source contracting regulations are statutory and are found in section 811 of the National Defense Authorization Act for Fiscal Year 2010 (Pub. L. 11184) (see 77 FR 23369). These clarifications improve the contracting officer's ability to comply with the sole source contracts statutory requirements by providing guidance, including when justification is necessary, how contracting officers should comply, and when a separate sole-source justification is necessary for out-of-scope modifications to 8(a) sole-source contracts. The GAO report indicates that the FAR needed additional clarification of the justification requirement to help ensure that agencies are applying the requirement consistently.

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch. 137; 51 U.S.C. 20113

Abstract: DoD, GSA, and NASA are issuing a final rule amending the Federal Acquisition Regulation (FAR) to implement regulatory changes regarding procedures for the use of small business partial set-asides, reserves, and orders placed under multiple-award contracts. This rule incorporates statutory requirements discussed at section 1331 of the Small Business Jobs Act of 2010 (15 U.S.C. 644(r)) and the Small Business Administration's final rule at 78 FR 61114, dated October 2, 2013.

Multiple-award contracts, due to their inherent flexibility, competitive nature, and administrative efficiency, are commonly used in Federal procurement. They have proven to be an effective means of contracting for large quantities of supplies and services for which the quantity and delivery requirements cannot be definitively determined at contract award. However, prior to 2011, the FAR was largely silent on the use of acquisition strategies to promote small business participation in conjunction with multiple-award contracts. This rule increases small business participation in Federal prime contracts by ensuring that small businesses have greater access to multiple award contracts and clarifying the procedures for partially setting aside and reserving multiple-award contracts for small business, and setting aside orders placed under multiple-award contracts for small business, thereby ensuring that small businesses have greater access to these commonly used vehicles.

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are issuing a final rule amending the Federal Acquisition Regulation (FAR) to update the instructions for System for Award Management (SAM) registration requirements and to correct an inconsistency with offeror representation and certification requirements. The language in the FAR was not consistent in terms of whether offerors need to register in SAM prior to submitting an offer or prior to award of a contract. This rule clarifies and makes the language consistent by requiring offerors’ registration in SAM prior to submitting an offer. The rule does not place any new requirements on businesses and is considered administrative because the only change is when the requirement for registering in SAM must occur. Registering in SAM eliminates the need for potential offerors to complete representations and certifications multiple times a year when responding to solicitations, which reduces the burden on both the contractor and the government.

382. Federal Acquisition Regulation (FAR); FAR Case 2016-011, (S) Revision of Limitations on Subcontracting

E.O. 13771 Designation: Other. Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch. 137; 51 U.S.C. 20113

Abstract: DoD, GSA, and NASA are issuing a final rule amending the Federal Acquisition Regulation (FAR) to revise and standardize the limitations on subcontracting (LOS), including the nonmanufacturer rule (NMR), which apply to small business concerns under FAR part 19 procurements. This FAR change incorporates SBA's final rule at 81 FR 34243, which implemented the statutory requirements of section 1651 of the National Defense Authorization Act for Fiscal Year 2013. This action is necessary to meet the Congressional intent of clarifying the limitations on subcontracting with which small businesses must comply, as well as the ways in which they can comply. The rule will benefit small businesses and agencies. Prompt implementation of this rule will allow small businesses to take advantage of subcontracts with similarly situated entities. As a result, these small businesses will be able to compete for larger contracts, which would positively affect their potential for growth as well as that of their potential subcontractors.

385. Federal Acquisition Regulation (FAR); FAR Case 2017–009, Special Emergency Procurement Authority

E.O. 13771 Designation: Other.
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch. 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are issuing a final rule to amend the Federal Acquisition Regulation (FAR) to implement sections 816 and 1641 of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114–328). Section 816 adds international disaster assistance under the Foreign Assistance Act of 1961 and emergency or disaster under the Robert T. Stafford Disaster Relief and Emergency Assistance Act. Section 1641 adds special emergency procurement authority to facilitate defense against or recovery from a cyber-attack. Adding these authorities enables a more effective and immediate response to emergency or major disasters, cyber attacks, and international disasters. For example, certain authorities would be available to the contracting officer based on agency procedures, the micropurchase threshold may be increased to \$20,000 for any contract to be awarded and performed, or purchase to be made in support of the designated areas; and the simplified acquisition threshold (SAT) may be increased to \$750,000, or \$13,000,000 for commercial items, for any contract to be awarded and performed, or purchased in support of the designated areas.

386. Federal Acquisition Regulation (FAR); FAR Case 2017–012, Increased Micro-Purchase Threshold for Certain Procurement Activities

E.O. 13771 Designation: Other.
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch. 137; 51 U.S.C. 20113
Abstract: DoD, GSA, and NASA are issuing a final rule to amend the Federal Acquisition Regulation (FAR) to update the definition of micro-purchase threshold” in FAR 2.101 to implement the higher micro-purchase threshold provided by section 217(b) of the NDAA for FY 2017 (Pub. L. 114–328). Specifically, section 217(b) amends 41 U.S.C. 1902 to increase the micro-purchase threshold for acquisitions from institutions of higher education or related or affiliated nonprofit entities, or from nonprofit research organizations or independent research institutes, to \$10,000, or a higher amount as determined appropriate by the head of the relevant executive agency and consistent with clean audit findings under 31 U.S.C. chapter 75, an internal institutional risk assessment, or state law. As a result of this rule, affected contractors will no longer receive a written request for quote (RFQ) and/or a Government purchase order for requirements valued between \$3,501 and \$10,000. Instead, the order can be placed online, by phone, in person, or by fax via the Government purchase card (GPC). Therefore, the contractor will no longer be required to read the RFQ and/or purchase order for various Government-provided information.

387. Federal Acquisition Regulation (FAR); FAR Case 2015–031, Policy on 8(A) Joint Ventures

E.O. 13771 Designation:
Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch. 137; 51 U.S.C. 20113
Abstract: This case has been merged into FAR Case 2017–019.
DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to be consistent with the guidance in SBA regulations at 13 CFR 124 8(A) Business Development/ Small Disadvantaged Business Status Determinations (77 FR 28237). These clarifications are expected to relieve burden on both industry and government by reducing the number of protests related to inappropriate elimination from competition of offers from 8(a) joint ventures and inappropriate awards to ineligible 8(a) joint ventures. This will reduce the risk for fraud by clarifying the role of SBA as the authority for making eligibility determination. The rule is also expected to facilitate competition by clarifying the circumstances under which a joint venture is eligible for award under the 8(a) program.
