SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Cognitive and Psychological Research information collection. The BLS Behavioral Science Research Center (BSRC) conducts psychological research focusing on the design and execution of the data collection process in order to improve the quality of data collected by the Bureau. The research is aimed at improving data collection quality by assessing questionnaire/form management and administration, as well as issues that relate to interviewer training and interaction with respondents during the interview process. BSRC staff work closely with economists and/or program specialists responsible for defining the concepts to

be measured by BLS collection programs. This laboratory research enhances BLS survey data quality. Improvements are made by examining psychological and cognitive aspects of BLS data collection procedures, including questionnaire design, interviewing procedures, collection modalities, and administrative technology. The BLS Authorizing Statute authorizes this information collection. See 29 U.S.C. 1, 2.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0141.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on April 30, 2018. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 1, 2017 (82 FR 35826).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0141. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Proposed Collection, Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the “*Local Area Unemployment Statistics (LAUS) Program*”. A copy of the proposed information collection request (ICR) can be obtained by contacting the individual

listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before March 19, 2018.

ADDRESSES: Send comments to Erin Good, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue NE, Washington, DC 20212. Written comments also may be transmitted by fax to 202–691–5111 (this is not a toll free number).

FOR FURTHER INFORMATION CONTACT: Erin Good, BLS Clearance Officer, at 202–691–7763 (this is not a toll free number). (See **ADDRESSES** section).

SUPPLEMENTARY INFORMATION:

I. Background

The BLS has been charged by Congress (29 U.S.C. Sections 1 and 2) with the responsibility of collecting and publishing monthly information on employment, the average wage received, and the hours worked by area and industry. The process for developing residency-based employment and unemployment estimates is a cooperative Federal-State program which uses employment and unemployment inputs available in State Workforce Agencies.

The labor force estimates developed and issued in this program are used for economic analysis and as a tool in the implementation of Federal economic policy in such areas as employment and economic development under the

Workforce Innovation and Opportunity Act of 2014 (that supplanted the Workforce Investment Act of 1998) and the Public Works and Economic Development Act, among others.

The estimates also are used in economic analysis by public agencies and private industry, and for State and area funding allocations and eligibility determinations according to legal and administrative requirements. Implementation of current policy and legislative authorities could not be accomplished without collection of the data.

The reports and manual covered by this request are integral parts of the LAUS program insofar as they ensure and measure the timeliness, quality, consistency, and adherence to program directions of the LAUS estimates and related research.

II. Current Action

Office of Management and Budget clearance is being sought for a revision of the information collection request that makes up the LAUS program. All aspects of the information collection are conducted electronically. All data are entered directly into BLS-provided systems.

The BLS, as part of its responsibility to develop concepts and methods by which States prepare estimates under the LAUS program, developed a manual for use by the States. The manual explains the conceptual framework for the State and area estimates of employment and unemployment,

specifies the procedures to be used, provides input information, and discusses the theoretical and empirical basis for each procedure. This manual is updated on a regular schedule.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information continues to have practical utility.
 - Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
 - Enhance the quality, utility, and clarity of the information to be collected.
 - Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
- Type of Review:* Revision of a currently approved collection.
