National Oceanic and Atmospheric Administration

RIN 0648-XF679

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Gulf of Mexico State Management Program Amendment for Recreational Red Snapper

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent (NOI) to prepare a draft environmental impact statement (DEIS); request for comments.

SUMMARY: NMFS, Southeast Region, in collaboration with the Gulf of Mexico Fishery Management Council (Council), intends to prepare a DEIS to describe and analyze management alternatives to be included in the State Management Program for Recreational Red Snapper Amendment to the Fishery Management Plan (FMP) for the Reef Fish Resources of the Gulf of Mexico (State Management Program Amendment). The State Management Program Amendment will consider alternatives that would allocate the total recreational red snapper annual catch limit (ACL) for the Gulf of Mexico (Gulf) among the individual Gulf states of Alabama, Florida, Louisiana, Mississippi, and Texas, and designate the components of the recreational sector that would be included under a state's management program (private angling and/or charter vessel/headboat (for-hire) components). These decisions would form the basis for individual state amendments to the FMP to allow each of the Gulf states to establish management measures for the

recreational harvest of red snapper in adjacent Gulf Federal waters. State management would enable each state to specify the management measures that best meet the needs of its constituents, thereby addressing regional socio-economic concerns. The purpose of this NOI is to inform the public of upcoming opportunities to provide additional comments on the scope of issues to be addressed in the DEIS, as specified in this notice.

DATES: Written comments on the scope of issues to be addressed in the DEIS must be received by NMFS by February 16, 2018.

ADDRESSES: You may submit comments on the Amendment identified by "NOAA-NMFS-2017-0122" by any of the following methods:

- **Electronic submissions:** Submit electronic comments via the Federal e-Rulemaking Portal: <http://www.regulations.gov>. Go to www.regulations.gov/#/docketDetail;D=NOAA-NMFS-2017-0122, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments

- **Mail:** Submit written comments to Lauren Waters, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Lauren Waters, Southeast Regional Office, telephone: (727) 824-5305; or email: Lauren.Waters@noaa.gov.

SUPPLEMENTARY INFORMATION: For Gulf red snapper the recreational sector is separated into Federal for-hire (charter vessels and headboats) and private angling components, each managed under their respective recreational quotas and annual catch targets (ACTs). This separation will end after the 2022 fishing year if the Council takes no further action. NMFS annually projects the recreational season length for each component based on the ACTs and the projected average weights of fish and catch rates derived from historical
