section 3 of the Investment Company Act of 1940 but for section 3(c)(1) or 3(c)(7) of . . . [that] Act.” In cooperation with the Bureau of Economic Analysis (BEA), effective for TIC reports beginning as of January 1, 2017 and afterwards, reporters of investments in private funds that meet the definition of direct investment (that is, ownership by one person of 10 percent or more of the voting interest of a business enterprise) but display characteristics of portfolio investment (specifically, investors who do not intend to control or influence the management of an operating company) are required to report through the Treasury International Capital (TIC) reporting system, where other related portfolio investments are already being reported, and not to report on BEA’s direct investment surveys. Specifically, cross-border investments by or into private funds are included in TIC reports regardless of ownership share if they meet BOTH of the following criteria: (i) The private fund does not own, directly or indirectly through another business enterprise, an “operating company”—i.e., a business enterprise that is not a private fund or a holding company—in which the U.S. or foreign parent owns at least 10 percent of the voting interest, and (ii) If the private fund is owned indirectly (through one or more other business enterprises), there are no “operating companies” between the U.S. or foreign parent and the indirectly-owned private fund. Direct investment in operating companies, including investment by and through private funds, will continue to be reported to BEA. Guidance on the decision to report investments in certain private funds or between entities of certain private funds in the TIC system or in BEA surveys can be found at: https://www.bea.gov/privatefunds; use the tools labeled “U.S. Investments in Foreign Private Funds” and “Foreign Investments in U.S. Private Funds.” This change aligns the U.S. direct investment and portfolio investment data more closely with the intent of the investment with respect to management control. In addition, it reduces the burden for respondents, many of whom previously reported both to the TIC reporting system and to BEA’s direct investment reporting system. This change in reporting was effective January 1, 2017; this update will formalize their reporting requirements.

(2) The section II.A. “Who Must Report” of the instructions is updated to list out separately “principal trading firms” and “fund administrators.”

(3) The section II.A. “Who Must Report” and section II.B “Consolidation Rules” of the instructions are updated to list out separately Intermediate Holding Companies (IHCs), as defined by Regulation YY, 12 CFR 252, and to clarify that IHCs should follow the same consolidation rules that are applicable to Bank Holding Companies (BHCs), Financial Holding Companies (FHCs), and Savings and Loan Holding Companies. Regulation YY was effective by January 1, 2015, and IHCs are filing TIC reports; this update will formalize their reporting requirements.

(4) The section II.F.2 “What Must Be Reported” of the instructions is updated to clarify that, regarding securities involved in security lending agreements and repurchase/resale (reverse repurchase) agreements, sales of the underlying security collateral to other parties and the purchases of such securities from other parties, undertaken in order to return the security collateral to the lenders, must be reported.

(5) The section IV.C.1 columns 1 & 2 “Column by Column Instructions” of the instructions is updated to clarify that the stripped securities “teddy bears” (TBRs), “tigers” (TIGRs), “cats” (CATS) and “cougars” (COUGRs) should also be classified as U.S. Treasury securities.

(6) The section II.F.2 “What Must Be Reported” clarifies that long-term Treasury securities are Bonds, Notes, TIPS, FRNs and Savings Bonds.

(7) Some other clarifications and format changes may be made to improve the instructions.

**Abstract:** The Survey of Health Experience of Patients (SHEP) has been developed to measure patient satisfaction in the Veterans Health Administration, and has been in use in its present form since 2008. The mission of the Veterans Health Administration (VHA) is to provide high quality medical care to eligible veterans. Executive Order 12962, dated September 11, 1993, calls for the establishment and implementation of customer service standards, and for agencies to “survey customers to determine the kind and quality of services they want and their level of satisfaction with current services”. Further emphasized by the Executive Order 13571, on “Streamlining Service Delivery and Improving Customer Service,” issued on April 27, 2011, VA must work continuously to ensure that their programs are effective and meet their customers’ needs. To this end, VA is always seeking new and innovative ways to ensure the highest levels of customer satisfaction.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.
