

infestations of cheatgrass because of recent and severe drought (and that are negatively affecting native plant populations, especially those in critical sage-grouse habitat). An estimated average of an additional 5,000 to 15,000 acres might be treated annually for cheatgrass control in cooperation with intermingled-landownership partners. Potential treatment areas include crucial big game winter ranges, sage-grouse core areas and other important habitats, fuels reduction projects, previously-burned areas, roads and trails, power lines, rights-of-ways, gravel and rock quarries, and areas where invasive weeds are already beginning to proliferate.

The proposed action would utilize a variety of tools, singularly or in combination, to implement an integrated strategy. Proposed control methods include the following:

- Mechanical methods, such as hand-pulling, mowing or cutting;
- revegetation, where competitive vegetation is seeded to reduce invasive species, possibly after other treatments;
- grazing with livestock;
- biological control using predators, parasites, and pathogens;
- herbicide control using ground-based application methods; herbicide control using aerial application methods;
- prescribed fire in conjunction with other treatment methods;
- education programs to inform people of the effects of invasive plant infestations, methods of spread, and preventative management opportunities and practices; and
- prevention by using practices that reduce invasive plant spread, including a weed-free forage and gravel program and washing vehicles to remove seeds and plant parts.

The selection of control methods is not a choice of one tool over another, but rather selection of a combination of tools that would be most effective on target species for a location. The BTNF proposes to use a combination of control methods based on site-specific conditions and circumstances, EPA labels, USDA Animal and Plant Health Inspection Service (APHIS) direction, and resource protection measures to ensure that treatment methods are properly used. No activities are being proposed to occur on private lands. It is anticipated, however, that the Forest Service may receive requests from intermingled and adjacent landowners to be a willing and able partner on projects that might be proposed to treat invasive plant populations that are found on multiple land ownerships that include National Forest System lands.

Possible Alternatives

The BTNF will consider a reasonable range of alternatives, including a no action alternative. Based on the issues gathered through scoping, the action alternatives may vary in the amount and location of acres considered for treatment and the number, type, and location of activity.

Responsible Official

The Bridger-Teton Forest Supervisor is the Responsible Official for making the decision concerning this proposal.

Nature of Decision To Be Made

Given the purpose and need, the Responsible Official reviews the proposed action, the other alternatives, and the environmental consequences in order to make the following decisions: Whether to expand current efforts to control invasive plants; what control methods would be used; what herbicides would be used; what protection measures and monitoring measures would be required; and whether to include an adaptive management approach to address future spread of invasive weeds.

The EIS is a project-level analysis. The scope of the project is confined to issues and potential environmental consequences relevant to the decision. This analysis does not attempt to re-evaluate or alter decisions made at higher levels. The decision is subject to, and would implement direction from, higher levels.

National and regional policies and Forest Plan direction require consideration of effects of all projects on invasive plant spread and prescription of protection measures where practical to limit those effects. Reconsideration of other existing project-level decisions or programmatically prescribing protection measures or standards for future forest management activities (such as travel management, timber harvest, and grazing management) are beyond the scope of this document. Cumulative effects will be addressed in Chapter 3 of the EIS.

Even with careful consideration, unforeseen events can occur during project implementation that will require additional analyses. Unanticipated events can result in new information that could have a bearing on a decision. Forest Service procedures for addressing such new information, documents, and decisions are thoroughly explained in FSH 1909.15, Section 18.

Preliminary Issues

Key issues identified to date include the current and potential impacts of invasive plants on natural resources

such as big game winter habitat, native plant communities, wilderness values, watershed function, and threatened, endangered, or sensitive species and their habitats. Additional issues preliminarily identified include economic impacts; the effectiveness and potential impacts of various control methods on natural resources; and potential effects on non-target native plants and associated values, wildlife and fish populations, and human health from the application of herbicides.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the EIS. Public participation will be especially important at several points during the analysis, beginning with the scoping process (40 CFR 1501.7). The decision and reasons for the decision will be documented in a Record of Decision. The decision will be subject to Forest Service Project-Level Predecisional Administrative Review Process (Objection Process) (36 CFR part 218).

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will become part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however anonymous comments will not provide the respondent eligibility to participate in subsequent administrative or judicial review.

Dated: January 10, 2018.

Chris French,

Associate Deputy Chief, National Forest System.

BILLING CODE 3411-15-P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the Montana Advisory Committee

AGENCY: U.S. Commission on Civil Rights.

ACTION: Announcement of meeting.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission) and the

Federal Advisory Committee Act (FACA) that a meeting of the Montana Advisory Committee (Committee) to the Commission will be held at 11:00 a.m. (Mountain Time) Thursday, February 1, 2018. The purpose of the meeting is for the Committee to discuss preparations to hear testimony on border town discrimination.

DATES: The meeting will be held on Thursday, February 1, 2018 at 11:00 a.m. MT.

Public Call Information:

Dial: 888-267-6301.

Conference ID: 8312057.

FOR FURTHER INFORMATION CONTACT:

Angelica Trevino at atrevino@usccr.gov or (213) 894-3437.

SUPPLEMENTARY INFORMATION: This meeting is available to the public through the following toll-free call-in number: 888-267-6301, conference ID number: 8312057. Any interested member of the public may call this number and listen to the meeting. Callers can expect to incur charges for calls they initiate over wireless lines, and the Commission will not refund any incurred charges. Callers will incur no charge for calls they initiate over land-line connections to the toll-free telephone number. Persons with hearing impairments may also follow the proceedings by first calling the Federal Relay Service at 1-800-877-8339 and providing the Service with the conference call number and conference ID number.

Members of the public are entitled to make comments during the open period at the end of the meeting. Members of the public may also submit written comments; the comments must be received in the Regional Programs Unit within 30 days following the meeting. Written comments may be mailed to the Western Regional Office, U.S. Commission on Civil Rights, 300 North Los Angeles Street, Suite 2010, Los Angeles, CA 90012. They may be faxed to the Commission at (213) 894-0508, or emailed Angelica Trevino at atrevino@usccr.gov. Persons who desire additional information may contact the Regional Programs Unit at (213) 894-3437.

Records and documents discussed during the meeting will be available for public viewing prior to and after the meeting at <https://facadatabase.gov/committee/meetings.aspx?cid=259>. Please click on the "Meeting Details" and "Documents" links. Records generated from this meeting may also be inspected and reproduced at the Regional Programs Unit, as they become available, both before and after the meeting. Persons interested in the work

of this Committee are directed to the Commission's website, <https://www.usccr.gov>, or may contact the Regional Programs Unit at the above email or street address.

Agenda

- I. Welcome and Rollcall
- II. Approval of minutes from January 5, 2018 meeting
- III. Discussion of panelists and logistics for hearing testimony on border town discrimination
- IV. Public Comment
- V. Adjournment

Dated: January 11, 2018.

David Mussatt,

Supervisory Chief, Regional Programs Unit.

BILLING CODE P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[S-185-2017]

Approval of Subzone Status; Orgill, Inc., Tifton, Georgia

On November 22, 2017, the Executive Secretary of the Foreign-Trade Zones (FTZ) Board docketed an application submitted by the Brunswick and Glenn County Development Authority, grantee of FTZ 144, requesting subzone status subject to the existing activation limit of FTZ 144, on behalf of Orgill, Inc., in Tifton, Georgia.

The application was processed in accordance with the FTZ Act and Regulations, including notice in the **Federal Register** inviting public comment (82 FR 56211, November 28, 2017). The FTZ staff examiner reviewed the application and determined that it meets the criteria for approval. Pursuant to the authority delegated to the FTZ Board Executive Secretary (15 CFR Sec. 400.36(f)), the application to establish Subzone 144C was approved on January 11, 2018, subject to the FTZ Act and the Board's regulations, including Section 400.13, and further subject to FTZ 144's 2,000-acre activation limit.

Dated: January 11, 2018.

Elizabeth Whiteman,

Acting Executive Secretary.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

[A-570-979, C-570-980]

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Final Results of Changed Circumstances Reviews, and Revocation of Antidumping and Countervailing Duty Orders, in Part

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On December 26, 2017, the Department of Commerce (Commerce) published its preliminary results of changed circumstances reviews (CCRs) and intent to revoke, in part, the antidumping duty (AD) and countervailing duty (CVD) orders on crystalline silicon photovoltaic cells, whether or not assembled into modules, from the People's Republic of China (China) with respect to certain solar panels (collectively, the *Orders*). Specifically, Commerce preliminarily determined that the producers accounting for substantially all of the production of the domestic like product to which the *Orders* pertain lacked interest in the relief provided by the *Orders* with respect to certain solar panels of a sufficiently small size, voltage, amperage, and wattage, among other characteristics, as described below. Commerce invited interested parties to comment on the preliminary results. No party submitted comments. For the final results of these CCRs, Commerce is revoking, in part, the *Orders* as to imports of certain solar panels as described below.

DATES: Applicable January 18, 2018.

FOR FURTHER INFORMATION CONTACT: Lauren Caserta or Kaitlin Wojnar, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4737 and (202) 482-3857, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 7, 2012, Commerce published AD and CVD orders on certain crystalline silicon photovoltaic cells, whether or not assembled into modules, from China.¹ On October 6,

¹ See *Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled into Modules, from the People's Republic of China: Amended Final Determination of Sales at Less Than Fair Value*,
