#### SUPPLEMENTARY INFORMATION:

##### A. Purpose

When the Government awards a cost-reimbursement construction contract, the contractor must submit to the contracting officer—and keep current a chart showing the general executive and administrative organization—the personnel to be employed in connection with the work under the contract, and their respective duties. The chart is used in the administration of the contract and as an aid in determining cost. The chart is used by contract administration personnel to assure the work is being properly accomplished at reasonable prices.

The burden hours under FAR 52.236–19 were reduced based on FY 2017 FPDS data that showed the actual number of respondents for this type of requirement. A notice published in the *Federal Register* at 82 FR 51254 on November 3, 2017. No comments were received.

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

### Proposed Project

DELTA Impact Recipient Monitoring and Assessment Tools—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

### Background and Brief Description

The Centers for Disease Control and Prevention (CDC) seeks a three-year OMB approval for a new information collection project that involves 10 recipients (State Domestic Violence Coalitions) funded through CDC's *Domestic Violence Prevention Enhancements and Leadership Through Alliances (DELTA) Impact Program* cooperative agreement (NOFO CDC-RFA-CE18-1801). DELTA Impact recipients will report activity information to CDC annually. The Annual Progress Report (APR) tool and Prevention Infrastructure Assessment are designed to address four key program evaluation questions as well as performance reporting requirements established by CDC's Office of Financial Resources (OFR, formerly the Procurement and Grants Office).

Monitoring allows CDC to determine whether a recipient is meeting performance and budget goals and to make adjustments in the type and level

of technical assistance provided to them, as needed, to support attainment of their performance measures. Program monitoring and program evaluation activities also allow CDC to identify and disseminate information about successful prevention strategies implemented by recipients.

These functions are central to the NCIPC's broad mission of protecting Americans from violence and injury threats. This information collection will enable the accurate, reliable, uniform, and timely submission to CDC of each recipient's work plan and progress reports, including strategy implementation, program evaluation and performance measures. It will also enable CDC to evaluate the program across all funded recipients.

CDC will use the information collected to look at the aggregate impact of program activities on program outcomes across all 10 recipients. The information collection will allow CDC to monitor the increased emphasis on strategies that affect health outcomes and impact, and is expected to reduce duplication of effort, enhance program impact and maximize the use of federal funds. CDC will be able to generate reports that summarize their activities and progress towards meeting work plan strategies and performance measure targets. In addition to CDC's tracking of program goals and outcomes, the data collected will provide a way for recipients to track their own activities and funding to local organizations as required by legislation. CDC will also have the capacity to generate reports that describe activities across multiple recipients and will be able to provide this information back to recipients or to respond to inquiries from HHS, the White House, Congress and other stakeholders about the national DELTA Impact Program activities and their impact.

The total estimated annualized time burden for this collection is 123 hours. The only cost to respondents will be time spent responding to the surveys.

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request:* Reinstatement without change of a previously approved collection; *Title of Information Collection:* New Technology Payments for APCs Under

the Outpatient Prospective Payment System; *Use:* CMS needs to keep pace with emerging new technologies and make them accessible to Medicare beneficiaries in a timely manner. It is necessary that we continue to collect appropriate information from interested parties such as hospitals, medical device manufacturers, pharmaceutical companies and others that bring to our attention specific services that they wish us to evaluate for New Technology APC payment. We are making no changes to the information that we collect. The information that we seek to continue to collect is necessary to determine whether certain new services are eligible for payment in New Technology APCs, to determine appropriate coding and to set an appropriate 4 payment rate for the new technology service. The intent of these provisions is to ensure timely beneficiary access to new and appropriate technologies. *Form Number:* CMS-10054 (OMB control number: 0938-0860); *Frequency:* Annually; *Affected Public:* Private Sector (Business or other For-profits); *Number of Respondents:* 10; *Total Annual Responses:* 10; *Total Annual Hours:* 160. (For policy questions regarding this collection contact Joshua McFeeters at 410-786-9732).

2. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Report of a Hospital Death Associated with Restraint or Seclusion; *Use:* The regulation that was published on May, 16, 2012 (77 FR 29074) included a reduction in the reporting requirement related to hospital deaths associated with the use of restraint or seclusion, § 482.13(g). Hospitals must use Form CMS-10455 to report those deaths associated with restraint and/or seclusion directly to the Centers for Medicare & Medicaid Services (CMS) Regional Office (RO). This requirement also applies to rehabilitation or psychiatric distinct part units (DPUs) in Critical Access Hospitals (CAHs). The RO must provide hospitals with instructions for submitting the form fax and/or email, based on RO preference. Hospitals are no longer required to report to CMS those deaths where there
