BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 5891–009]

Deschutes Valley Water District; Notice of Availability of Revised Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the Deschutes Valley Water District's (licensee) updated application to amend the license in order to construct and operate fish passage facilities at the Opal Springs Hydroelectric Project No. 5891. The project is located on the Crooked River in Jefferson County, Oregon. The project occupies federal lands administered by the U.S. Bureau of Land Management.

The updated application, filed with the Commission on October 31, 2017, contains an Environmental Analysis in its Exhibit E. After independent review of the licensee's Exhibit E, Commission staff has decided to adopt the licensee's updated Environmental Analysis and issue it as staff's Environmental Assessment (EA). The updated EA analyzes the potential environmental impacts of construction and operation of fish passage facilities plus the proposed mitigation measures and concludes that granting the proposed amendment would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the updated EA is on file with the Commission and is available for public inspection. The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the eLibrary link. Enter the docket number (P–5891) in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or call toll-free at 1–866–208–3676 or (202) 502–8659 (for TTY).

A copy of the EA may also be accessed using this link: <https://>
