## NUCLEAR REGULATORY COMMISSION

### 10 CFR Part 72

[NRC-2017-0138]

RIN 3150-AK05

#### List of Approved Spent Fuel Storage Casks: TN Americas LLC, Standardized NUHOMS® Horizontal Modular Storage System, Certificate of Compliance No. 1004, Renewal of Initial Certificate and Amendment Nos. 1 Through 11 and 13, Revision 1, and 14; Corrections

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Correcting amendments.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) published a direct final rule in the **Federal Register** on September 27, 2017, which amended its spent fuel storage regulations by revising the Standardized NUHOMS® Horizontal Modular Storage System (NUHOMS® System) listing within the “List of approved spent fuel storage casks” to renew, for an additional 40-year period, the initial certificate and Amendment Nos. 1 through 11 and 13, Revision 1, and Amendment No. 14 of Certificate of Compliance (CoC) No. 1004. That direct final rule was effective on December 11, 2017. The technical specifications (TS) for the NUHOMS® System, Renewed Amendments No. 11, Revision 1, and No. 13, Revision 1 included an incorrect title in Figure 1–15. The purpose of this action is to correct this minor editorial and non-substantive error to Figure 1–15 for both Renewed Amendments No. 11, Revision 1, and No. 13, Revision 1.

**DATES:** The correction is effective January 24, 2018.

**ADDRESSES:** Please refer to Docket ID NRC-2017-0138 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information

**SUPPLEMENTARY INFORMATION:** The NRC published a direct final rule in the **Federal Register** on September 27, 2017 (82 FR 44879), which revised the NUHOMS® System listing within the “List of approved spent fuel storage casks” to renew, for an additional 40-year period, the initial certificate and Amendment Nos. 1 through 11 and 13, Revision 1, and Amendment No. 14 of CoC No. 1004. The direct final rule was effective on December 11, 2017. The TSs for the NUHOMS® System, Renewed Amendments No. 11, Revision 1, and No. 13, Revision 1, include an incorrect title in Figure 1–15. Specifically, the title of Figure 1–15 for Amendment No. 11, Revision 1, and Amendment No. 13, Revision 1, reads “Heat Load Zoning

Configuration Number 5 for 24PTH–S and 24PTH–L DSCs (with or without Control Components)<sup>(2)</sup>” instead of “Heat Load Zoning Configuration Number 5 for 24PTH–S–LC DSC (with or without Control Components)<sup>(2)</sup>”.

Figure 1–15 was first included in the TSs for CoC No. 1004 after the NRC’s review and approval in Amendment No. 8 (ADAMS Accession No. ML053390278). During the revision process for the 13 amendments that became effective on April 25, 2017 (82 FR 17749), the title of Figure 1–15 was unintentionally changed in the technical specifications for Amendment No. 11, Revision 1, and Amendment No. 13, Revision 1, from “Heat Load Zoning Configuration Number 5 for 24PTH–S–LC DSC (with or without Control Components)<sup>(2)</sup>” to “Heat Load Zoning Configuration Number 5 for 24PTH–S and 24PTH–L DSCs (with or without Control Components)<sup>(2)</sup>”. This error was carried forward to Renewed Amendments No. 11, Revision 1, and No. 13, Revision 1. The NRC is correcting the title of Figure 1–15 in the technical specifications for both of these amendments back to the original, intended title, which is “Heat Load Zoning Configuration Number 5 for 24PTH–S–LC DSC (with or without Control Components)<sup>(2)</sup>”. The Renewed Amendments No. 11, Revision 1, and No. 13, Revision 1, listings within “List of approved spent fuel storage casks” in § 72.214 of title 10 of the *Code of Federal Regulations* (10 CFR) are being revised to note that they have been corrected.

#### Rulemaking Procedure

Under the Administrative Procedure Act (5 U.S.C. 553(b)), an agency may waive the normal notice and comment requirements if it finds, for good cause, that they are impracticable, unnecessary, or contrary to the public interest. As authorized by 5 U.S.C. 553(b)(3)(B), the NRC finds good cause to waive notice and opportunity for comment on the amendments because they will have no substantive impact and is of a minor and administrative nature dealing with a correction to a CFR section related to procedure and practice. Specifically, this amendment is to correct a minor editorial and non-substantive error. This amendment does not require action by any person or entity regulated by the NRC. Also, this

final rule does not change the substantive responsibilities of any person or entity regulated by the NRC. Accordingly, for the reasons stated, the NRC finds, pursuant to 5 U.S.C. 553(d)(3), that good cause exists to make this rule effective upon publication.

[Docket No. FAA-2016-9418; Product Identifier 2016-NE-23-AD; Amendment 39-19167; AD 2018-02-14]

RIN 2120-AA64

#### **Airworthiness Directives; Honeywell International Inc. Turboprop and Turboshaft Engines**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** We are adopting a new airworthiness directive (AD) for certain Honeywell International Inc. (Honeywell) TPE331 turboprop and TSE331 turboshaft engines. This AD was prompted by reports that combustion chamber case assemblies have cracked and ruptured. This AD requires inspection of the affected combustion chamber case assembly, replacement of those assemblies found cracked, and removal of affected assemblies on certain TPE331 and TSE331 engines. We are issuing this AD to address the unsafe condition on these products.

**DATES:** This AD is effective February 28, 2018.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of February 28, 2018.

**ADDRESSES:** For service information identified in this final rule, contact Honeywell International Inc., 111 S 34th Street, Phoenix, AZ 85034-2802; phone: 800-601-3099; internet: <https://myaerospace.honeywell.com/wps/portal>. #### **SUPPLEMENTARY INFORMATION:**

##### **Discussion**

We issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to certain Honeywell TPE331 turboprop and TSE331 turboshaft engines. The NPRM published in the **Federal Register** on April 19, 2017 (82 FR 18402). The NPRM was prompted by reports of three accidents involving combustion chamber case assembly ruptures. Investigations have shown numerous cracked and ruptured combustion chamber case assemblies resulting from high stresses in the as-designed weld joints and contributing factors due to repair weld quality, poor maintenance and inspection practices, and cycles-in-service. The NPRM proposed to require inspection, replacement of the affected combustion

chamber case assemblies, and removal of affected assemblies on certain TPE331 turboprop and TSE331 turboshaft engines. We are issuing this AD to address the unsafe condition on these products.

#### **Comments**

We gave the public the opportunity to participate in developing this final rule. The following presents the comments received on the NPRM and the FAA's response to each comment.

##### **Request To Revise Internet Address**

Honeywell requested that its internet address be revised.

We agree. We revised the internet address as requested by Honeywell.

##### **Request To Revise Service Information**

Honeywell requested that we revise the service bulletins in this AD to reference the latest revisions.

We agree. We revised the references in this AD to Honeywell Service Bulletins (SBs) TPE331-72-2218; TPE331-72-2235; and TPE331-72-2244 from Revision 1 to Revision 2. However, we did not update the references to the SB that is incorporated by reference since this SB is already at the latest revision.

##### **Request To Revise Discussion of Proposed AD Requirements**

Honeywell requested that we reference the TSE331 turboshaft engine in the "Proposed AD Requirements" section of this final rule.

We partially agree. We agree that we inadvertently omitted mention of the TSE331 turboshaft engines from the "Proposed AD Requirements" section in the NPRM. We disagree with making a change to this final rule because the "Proposed AD Requirements" section does not exist in this final rule AD. We did not change this AD.

##### **Request To Revise Discussion of Removal and Replacement Times**

Honeywell requested changes to the Differences Between This Proposed AD and the Service Information section contained within the NPRM, recommending revision of the removal and replacement statement. Honeywell's referenced service bulletins in the NPRM recommend a revised compliance calendar deadline for certain redesigned combustion chamber case assemblies. Honeywell indicated the compliance deadline is March 31, 2021, for all redesigned combustion chamber case assemblies.

We partially agree. We agree it would be appropriate to reference this calendar deadline in this discussion within the
